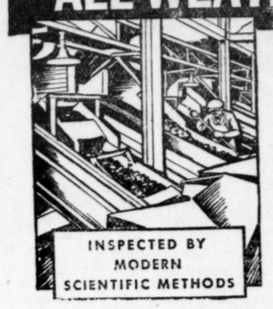
WHY 'blue coal' GIVES "ALL WEATHER" HEAT



REASON No. 29
'blue coal' is adaptable to all weather conditions. Because of its purity and careful preparation it starts up fast on zero mornings as soon as the drafts are opened. Because of its square fracture and high carbon content it burns evenly and completely on cold days, and makes a slow, lasting fire when banked in mild weather. For cosy, even, healthful warmth in every room, all winter—always specify 'blue coal'. And for clean, prompt deliveries—always order from us.
