Skipton Packet Line.

The Fast Sailing Schooner

ELIZA ANN,

Capt. John A. Catrup, Master, Capacity 3000 bushels, makes regular trips between Wye River and its tributaries and Baltimore. Grain and all other kinds of freight freighted on moderate terms. Ample store room for grain at Skipton Landing. Orders left with George E. Bowdoin & Co., Bowley's Wharf; Kenley & Tilghman, Bowley's Wharf, and Emory & Merritt, 82 South street, Baltimore, promptly attended to. The patronage of the public solicited. All orders for goods must be accompanied with the CASH. Orders received at Skipton by the Captain or J. A. F. Neal.

N. B.—The Granary at Skipton landing has been raised two feet above tide, thoroughly repaired and strengthened, and made perfectly secure for the storage of grain. Having leased the granary for a number of years, and embarked permanently in the boating business, I have ample granary and boating facilities for accommodating the business of the neighborhood, and respectfully solicit the public patronage. CARTER MEDICINE CO.,

THE SUN.

NEW YORK, 1883,

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the possible folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Hobeonsism and for honest government. No matter what party is in power, THE SUN's sand and will only thus to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, post-paid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, and extra copy free.

Notice To Tax-Payers.

The Tax Book for 1882 will be opened for the payment of taxes on Tuesday, August 15.

A discount of five per cent. will be allowed on tax bills paid in August; four per cent. on those paid in September; and three per cent. on those paid in October.

All Tax-Payers are hereby notified to arrange for paying their taxes for 1882 by the first day of January, 1883. The laws of the State, and the method of doing business of the county now practiced, absolutely require this. Immediately after January 1, 1883, delinquents will be proceeded against by advertisement and sale of their property, that all tax bills for 1882 may be closed in thirty days from January 1, 1883.

Agricultural.

St. Louis Globe-Democrat.

To Tell a Horse's Age.

At 3 years old the house should have the central permanent nippers growing, the other two pairs wasting, six grinders in each jaw, above and below, the first and fifth level, the others and the sixth protruding. The sharp edges of the new incisors will be very evident, compared with the old teeth. As the permanent nippers wear and continue to grow a narrow portion of the cone shaped tooth is exposed by the attrition of the teeth on each other. The mark will be wearing out and crowns of the teeth will be sensibly smaller than at two years.

Between three and a half and four years the next pair of nippers will be changed, the central nippers will have attained nearly their full growth, a vacuity will be left where the second stood, and the corner teeth will be diminished, in breadth, worn down, and the mark in the center of the tooth will become faint. The second pair of grinders will be shed. At four years the central nippers will be fully developed, the sharp edge somewhat worn off, and the mark somewhat wider and fainter. The next pair will be up, but they will be small, with a mark deep and extending quite across them. The corner nippers will be larger than the inside ones, but smaller than before and flat, and the mark nearly effaced. The sixth grinders will have risen to a level with the others, and the tushes will appear. At five years the horse's mouth is almost perfect. The corner nippers are quiet up, the long, deep mark irregular in the inside and the other nippers will bear evident tokens of increased wear. The tushes are nearly grown, the sixth molar is up and the third molar is wanting. This last circumstance will prevent the deception of attempting to pass a late four years-old as a five years-old. At six the mark on the central nippers is worn out. At seven years the mark is worn out in the four central nippers and fast wearing away in the corner teeth. The tushes are rounded at the points and edges, and beginning to get round inside. At eight years old the tushes are rounded in every way, the mark is gone from all the bottom nippers. There is nothing remaining in them that can afterward clearly show the age of a horse. After this the only guides are the nippers in the upper jaw. At nine years the mark will be worn from the middle nippers, from the next pair at ten years, and from all the upper nippers at eleven years. At nine years the center nippers are round instead of oval. At ten years the others begin to become rounded; at thirteen years the corner ones have the same appearance; at fourteen years the face of the central nippers becomes somewhat triangular, at seventeen years they are all so.

Grape Growers' Maxims

1. Prepare the ground in fall; plant in spring.

2. Give the vine plenty of manure, old and well decomposed; for fresh manure excites the growth, but does not mature it.

3. Luxuriant growth does not insure fruit.

4. Dig deep but plant shallow.

5. Young vines produce fruit, but old vines produce the richest.

6. Prune in autumn to insure growth, but in spring to promote fruitfulness.

7. Plant your vines before you put up trellises.

8. Vines, like old soldiers, should have good arms.

9. Prune spurs to one developed bud; for the nearer the old wood the higher flavored the fruit.

10. Those who prune long must soon climb.

11. Vine leaves love the sun; the fruit the shade.

12. Every leaf has a bud at the base, and either a bunch of fruit or a tendril oppose it.

13. A tendril is an abortive fruit bunch—a bunch of fruit a productive tendril.

14. A bunch of grapes without a healthy leaf opposite it is like a ship at sea without a rudder—it can't come to port.

15. Laterals are like politicians—if they are not checked, they are the worst of thieves.—*The Vine Dresser.*

Harness during summer is apt to be neglected and to be worn very rapidly by heat, rains and perspiration from the horse. It is also injured by the ammonia freely given off from the stables even with the greatest care. A little glycerine mixed with the oil used in blacking will keep the harness flexible much better than the oil alone. Most preparations for oiling harness contain glycerine and owe to it most of their value.

Visit your farmer friends, and the one who has his machinery and farming utensils under cover and well protected, can be put down as a thrifty man. When you see plows, carts, sleighs, wagons and machinery used on the farm, standing out in all kinds of weather, do not be in a hurry to give praise to such a man. A poor farmer will prove himself such to the world.

The test of good farming is found in the thoroughness with which every scrap of manure is cleaned from the barnyard; at least twice a year, for the use of crops. A considerable quantity of manure will accumulate during the summer, and is best applied as top dressing for such wheat or grass as is to be ploughed next spring.

Baron Leibig says: "The only method by which you can possibly advance and develop agriculture is by experiments; that is the only plan, for there is no branch of industry so completely built up by experiment as agriculture."

Less grain and more grazing tend to a better development of frame and muscle than when corn is fed to hogs exclusively. Build the frame first, and lay on the fat afterward.

A little girl who ran home from school, all out of breath, asked, "Oh, ma, may I get married and have a husband?" "My child!" exclaimed the astonished mother, "don't let me hear such words from you again!" "Well, then, may I have a piece of bread and butter and go out to play in the back yard?"

Malaria, Chills and Fever, and Bilious attacks positively cured with Emory's Standard Cure Pills—an infallible remedy: never fail to cure the most obstinate, long standing cases where Quinine and all other remedies had failed. They are prepared expressly for malarious sections, in double boxes, two kinds of Pills, containing a strong cathartic and a chill breaker, sugar-coated; contain no Quinine or Mercury, causing no griping or purging; they are mild and efficient, certain in their action and harmless in all cases; they effectually cleanse the system, and give new life and tone to the body. As a household remedy they are unequaled. For Liver Complaint their equal is not known; one box will have a wonderful effect on the worst case. They are used and prescribed by Physicians, and sold by Druggists everywhere, or sent by mail, 25 and 50 cents per box. Emory's Little Sugar Coated Pills, best ever made, only 15 Cents. QUINTESSENCE OF

Phosphated Iron, Quinine & Strychnia.

Put up in Pill and in Liquid Form.

And is a cure for DEBILITY resulting from any CAUSE, THINNESS or SLUGGISHNESS of the BLOOD, DERANGEMENT of the DIGESTIVE ORGANS, Diseases of the NERVOUS SYSTEM, TYPHUS, TYPHOID and INTERMITTANT FEVERS, AGUE and FEVER, which is the very best counteracter of MALARIAL INFLUENCES and cure for MALARIAL DISEASES, and as a NERVINE and SEDATIVE quieting the NERVOUS SYSTEM, and inducing refreshing Sleep it has no equal. It is indorsed by MEDICAL PRACTITIONERS throughout the country as the preparation most frequently prescribed by them in their practice, and is considered one of the very best remedial agents known; for the Diseases for which we recommend it. We challenge the closest scrutiny into its composition and virtues.

Read the following:

EXPLANATION OF THE ABOVE MEDICINE.

PHOSPHORUS—Means light, and medically imparts strength and vigor to the system, as the rays of the sun do to animal and vegetable life.

IRON—Is a purifier and enricher of the blood, the most important of the constituents of the human body.

QUININE—Is the Tonic of Tonics, and exercises a powerful and healthful influence upon the digestive organs, and finally.

STRYCHNIA—In a very small proportion (as in this combination) is a most excellent nervine, acting upon and regulating the entire nervous system.

Ask your physician about the above formula, and he will say it is good.

Favorite's Graetorex, No. 5,898,

Sire Graterex, 4,218; Grand-Sire Rex, 1,330. Dam, Gay Primrose, 10,545. Dropped May 15th, 1881. Bred by Lyman A. Mills, Middlefield, Connecticut.

Among the Jersey families of recognized excellence none stand higher than the Rex family. Graetorex 4,218 stands at the head of the Brookmoor farm herd, Portland, Maine, at $100 per service, and Rex 1,330 is at the head of the Simpson herd, New York, and stands also at $100 per service (see advertisement "Country Gentleman). Rex 1,330 is considered the best bull in America, and was purchased last December by his present owner at a cost of $3,500. "Favorite of the Elms" 1656, the Grand-dam of Gay Primrose, has a butter record of 17 pounds 5 ounces per week, and her owner, Mr. John J. Holly, of New Jersey, has refused $2,500 for her.

At the auction sale of the herd of Jersey cattle of Messrs. Corpa, Maddux & Co., at New York on Friday, May 12th, 65 head of cattle brought an avsrage of $622.77 per head. This sale shows the present value of high-bred Jerseys.

"Favorite's Greatorex" 5,898 will be permitted to serve a few registered cows this season at $10 per service. Cows for service will be cared for at $1 per week.

OF LONG EXPERIENCE.

I would respectfully inform my friends and the public generally, that I am now better prepared to furnish everything in the furniture line, than I have been in the past.

My ware-house contains 3500 square feet of flooring, which is at all times covered with stock pertaining to my business, and which will be sold as cheap or cheaper than can be bought here or elsewhere.

Having no other trade or profession, I am in the business for life, health permitting, and do not intend to be undersold or excelled in any particular pertaining to my business.

Myself and son Harry will give our personal attention to the business, and I recommend him as capable to attend to all business in my absence.

REPAIRING

done neatly and with dispatch. Stock of

PICTURE FRAMES

always on hand made to order. Thanking you very kindly for your patronage in the past, I earnestly solicit a continuance in the future.

Undertaking a Specialty.

I shall continue to give the undertaking department of my business my special attention, and having had thirty odd years experience in the business, I feel sure I can give satisfaction in the attention of all funerals entrusted to my care.

I have one of the best hearses and keep in stock everything necessary to furnish the best funeral.

Corpses preserved in ice when requested. Remember my prices shall be as low as the very lowest. Respectfully,

JOHN MASON.

To the Farmers.

THE TALBOT COUNTY PAPER MILLS COMPANY will now contract for WHEAT STRAW, to be delivered at a convenient time hereafter. A little more care in stacking and ricking, will insure so much better keeping as to enable farmers to spare at least half of their straw, the cash for which would nearly pay for their phosphates. A Great Work Just Completed!

The Popular Want at Last Supplied!

The "People's Cyclopedia" or universal knowledge is the grandest, latest and cheapest work of the kind ever published. It contains 58,000 topics, 5,000 illustrations, splendid colored maps and hosts of features nowhere else to be found. It has 25 editors; 400 contributors and is a library within itself of great value to any man or family. It contains the wide research of such men as Drs. McCosh, Hurst and Edison, and of eminent jurists inventors and scientists. It has received the highest commendations from universities, colleges and schools. It has been adopted in many of the schools as a standard work of reference. Bishop Huntington says:—"Its range of information is immense and it has brought down the history of the whole world's life literally to the present year."

Bishop Williams says: "I have examined it carefully and can heartily recommend it."

Dr. J. P. Newman says: "It contains the cream of the Britannica and other great works at a small part of their cost."

S. W. Mason, Ll. D., graduate of Dartmouth College says: "Before examining the People's Cyclopedia, I could not see how so good a work could be made. I cannot now see how a better work can be made.

It is certainly one of the richest, cheapest and most popular works that has been put before the people. Information and specimen pages can be obtained of F. A. DAVIS, Atty, 625 Chestnut st., Philadelphia, or A. J. MYERS, Agt. for this part of our State. Reference is made to the Editor of this paper and Dr. I. L. Bryan, of Cambridge, who owns the work. aug26tf

Meat Market.

This is to inform the public that I have purchased the stand in the Easton Market lately occupied by Mr. Caleb Griffin, and will be in the market every Tuesday, Thursday and Saturday, with a well-stocked stall of the best of meat—veal, lamb, mutton, beef, pork, &c. I solicit a share of the public patronage.

The highest market price paid for beeves, veals, lambs, mutton and porkers. Shall be glad to hear from those having well fatted stock for sale.
