For a real bargain — get a real truck!

SURE, you can save a few dollars now on a truck price-tagged slightly less than a GMC. But if you want a bargain that will still be a bargain after years of hard truck-work, ask these questions *before* you buy:

Does the truck give you a GMC's 105 H.P.? That's up to 19% *more* power than comparable sixes. It hustles a GMC's top loads up tough pulls—without engine strain.

Does it have a GMC's 8.0 to 1 super-high-compression? That gives you quicker getaways—more drive—better mileage. All on regular gas.

Does it offer a GMC's engine-sparing Truck Hydra-Matic*? With it, you say good-bye to gearshift wrestling. No more clutch repairs. Maintenance costs shrink.

Does it have the extra protection of a GMC's self-energizing brakes? The extra comfort of a GMC's "Six-Footer" cab? The handling ease of a GMC's ball-bearing steering action?

If all the answers are "yes," you have a *real* bargain—a GMC. And there are 19 handsome ½- to 1-ton models to choose from. How can you lose?

**Standard equipment on Package Delivery chassis; optional at moderate extra cost on all others.*
