expended on incidental charges and improvements

The Sexton of each church receives $10 per annum

NB So far as I can ascertain from the Church books the parishioners contribute nothing!

The Communion Plate consists of one Paten about 6 inches in diameter, heavy chased rim, and foot abt 2½ inches high; and two cups (double handled, about 7 inches high, 2½ in diameter) of silver. The two cups were originally but one, which was broken up and refashioned into two, under the Rectory of the Rev. Henry Disguith. It was given by John Brice, in 1713. The Paten bears the original inscription; viz "The gift of John Brice for the use of the Communion Table, Westminster Parish in Maryland 1713". The cups bear each a copy of the same inscription, which was on the original. ~~If the large~~ of the cups one is ~~now~~ used in the Parish Church in Broad Neck, and one in the chapel, the Paten being removed from one to the other as wanted. They are now in keeping of the Rector.

The Parish Books, brought me this day, at my request by John Ridout of the Register of the Parish, consist of

1. A Register, of 100 leaves of parchment (a number having been cut out at the end) and 3 of paper at the beginning.
2. A Record Book, of which the first entry on the first page is of the date March 10th 1787

It contains 109 leaves of paper (24 yet blank) several at the end having been cut out.

3 An account Book, the first entry in which is June 3d 1806 containing all the accounts of the Parish from that date to the present day. (Nov. 25. 1850) It is now kept by John Ridout of H. in his capacity of Treasurer, which office he fills together with the Registrarship.

On the first outer (parchment) cover of the Register is the title (contemporaneous with the book) Registry of the Baptisms, Marriages and (hardly legible, but believe to be) Deaths "in St Margaret's Westminster Parish, C. W."
and below "C. R. Stewart, Regr. St. M. W. P. A. A. Co. 1823"

On the first paper leaf is entered (evidently contemporaneously with the book) "Philip Jones, clk of Westminster Parish, Was born on 29th of Sept. in ye year of our Lord 1673.

Philip Jones"

Below (John Merriken junr. was Register of Westminster Parish June the sixt in the year of our Lord 1749.
Still lower down
"John Cromwell son of Joshua was qualified Register of St. Margaret's Westminster Parish Sept the first, in the year of our Lord 1767"

"Thos. Mayo was qualified Register of St Margarets Westminster Parish on Easter Monday the nineteenth day of April in the year of our Lord Seventeen Hundred and seventy two".
