MORE MARYLAND MILK

Total milk produced on Maryland farms last year is estimated at 832,000,000 pounds or about 5 percent more than the 190,000,000 pounds produced in 1937, according to the Maryland Crop Reporting Service. The rise in 1938 was due to more milk cows on farms and a larger production per cow than in 1937. The 1938 production per cow in herd was 4,450 pounds, averaging 371 pounds per month.

Cosmetics are one of the worst and most vulgar forms triviality, says novelist Dorothy Canfield Fisher.

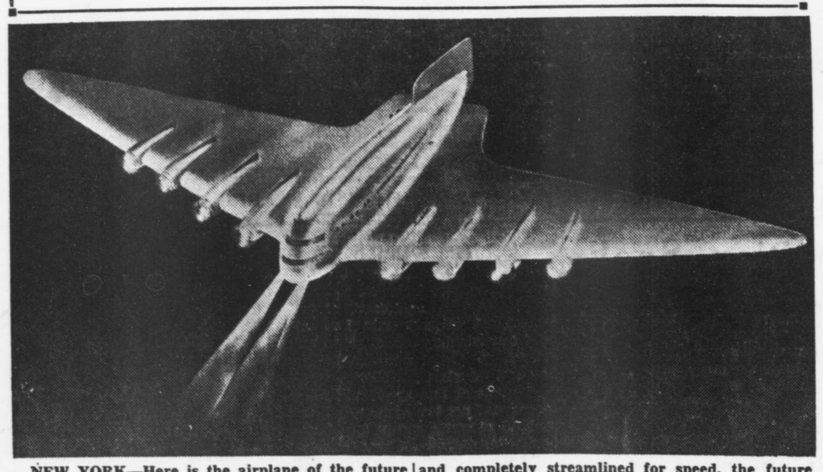
Airplane of Tomorrow at New York World's Fair 1939



NEW YORK—Here is the airplane of the future as visioned by Raymond Loewy, industrial designer, in a model under construction for the focal exhibit on transportation at the New York World's Fair 1939. Carrying eight large motors in its wings and completely streamlined for speed, the future plane will attain the proportions of a sea-going vessel, according to Mr. Loewy. The huge focal exhibit, with an operating rocketport of the future, will be a free feature of the Fair.
