Oppose Slum-Clearance

Salibsury—Protesting passage of an ordinance permitting a Federal slum-clearing porposition here, more than 200 taxpayers assembled at City Hall and presented a petition signed by 1100 taxpayers also protesting the project. The plan contemplates erection of 130 low-rental houses here. Protestants object to the fact that the properties would be exempt from taxation for 60 years, saying other taxpayers would have to foot the bills, and also to competition from the Government.

He died at the Kent and Queen Anne's Hospital. Nickerson was about to hitch plows to the tractor which his son was operating. Apparently the tractor backed farther than the farmer expected and he was knocked off his feet and under the cleated wheels of the machine.

Outdoor Colors Used To Freshen Living Rooms

Outdoor living rooms are becoming so popular that their atmosphere is being brought indoors.

Outdoor colors like fresh apple green, the new wheat, and others are being widely adapted this summer for interior walls. The correct shades are being applied to color insulating panels, which have an outdoor feel while protecting the household against outdoor heat.

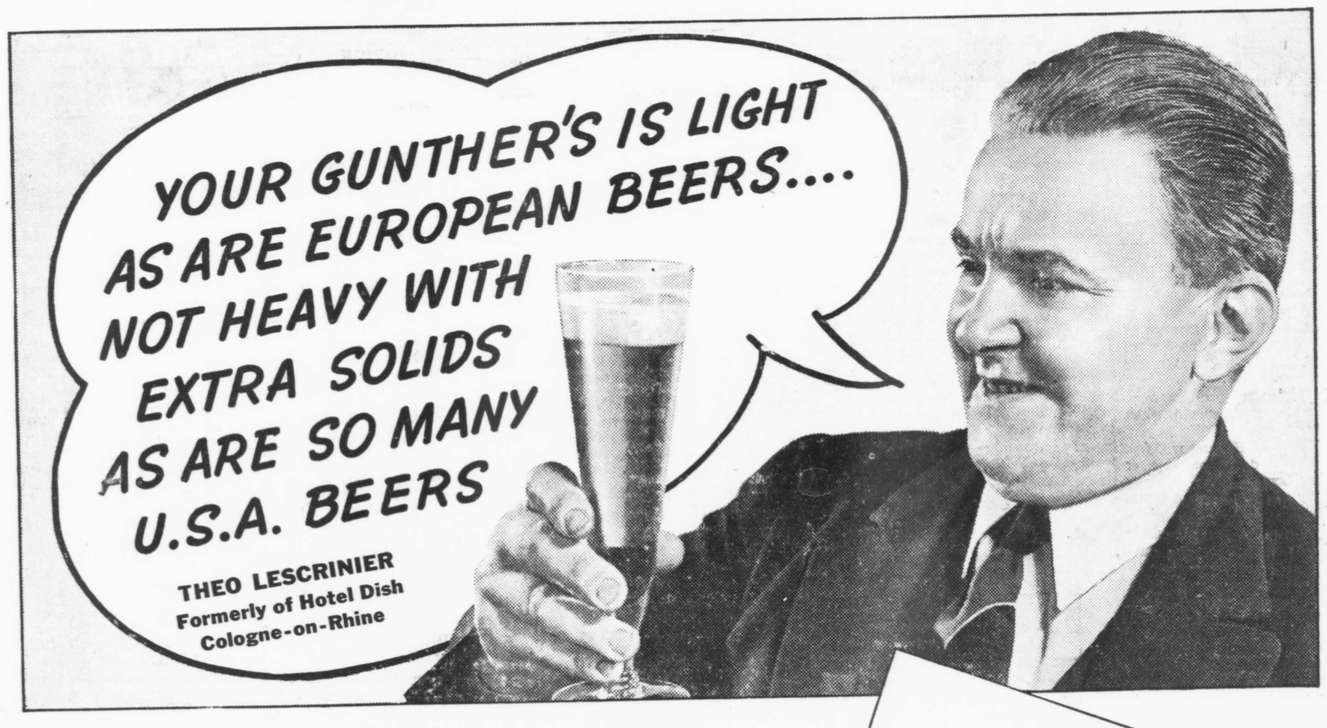
U.S.A. FINDS IN FEW YEARS BEER SECRETS IT TOOK EUROPE LIFETIME TO LEARN



Gunther's "Special Dry Lager" in the opinion of International experts equals Europe's most famous beers. Yet, read why Gunther's costs no more than regular beer.

RIGHT UP THERE at the head of the class. That's where one International expert after another has put Gunther's "Special Dry Lager."

For in Gunther's you get beer that's as dry and beer-y as any of the European beers that have built long-lasting, world-wide reputations. In Gunther's you get a beer that is free from those extra solids that tend to make so many regular beers heavy.

Why Gunther's Costs So Little

Is big volume alone the secret of a low cost for such a fine beer? Even though Gunther's buys the best ingredients in the biggest quantities of any brewery in the South and thus saves money . . . the big reasons Gunther's costs so little . . . and much less than "imported" beers, are even more obvious.

For instance, there are no long haul freight charges added to the cost of your glass of Gunther's. No import taxes. In addition all of Gunther's beer is made right here and most all of it is sold here. This one fact means a saving of from 30¢ to 50¢ a case that out-of-state brewers have to pay "middlemen" for handling their beer for them.

Think these savings over . . . and you'll know why Gunther's can offer you a glass of beer that is equal to the world's most famous beers . . . yet charge you no more than regular beer prices.
