Crop Insurance Deadline For September 30

The dealine for the all-risk crop insurance on the 1940 wheat crop for Queen Anne's county growers is Saturday, September 30, announces County Agent Mark Miller. No extension will be allowed for acceptance applications beyond that day .

Growers are eligible to make applications and pay the premium only before they have planted their crop. No applications can be accepted, it is said, even if the crop has not been planted after the general cut-off date for the county. The offset provisions permit the premium to be paid by executing an advance against future payments to be earned under the Agricultural Conservation program.

MOTORISTS IN 25 STATES ENDORSE
Pure Oil's New Solvenized*
TUNE-UP PLAN

Packs more miles in every gallon ... Good for cars, young or old ... Already proved and popular ... Makes motors "Wake Up and Live!"

"Works on cars like new tubes in a radio" ...
"Puts back their old-time vim and vigor" ...
"Makes comparatively new cars take extra pride in their work" ...

... that's just an idea of the enthusiastic response from motorists about Pure Oil's new Solvenized Tune-Up Plan.

This basic new service was developed after years of research by Pure Oil scientists.

Reports from motorists in 25 states are really amazing. They say that the combination of the Treatment and the Solvenized Gasoline gives them up to 3 more miles per gallon.

They say, too, that performance is noticeably improved. To cite just one example, here's what Jas. E. Headley, Headley's Express and Storage Co., Inc., Chester, Pa., reports:

"One of our trucks came in from New York, its valves sticking so badly it was hardly able to pull its own weight. A Solvenized Tune-Up Treatment freed the valves, enabled the truck to deliver its load on time. We are giving all our trucks a Treatment and continuing to use your Solvenized gasoline."

The two simple steps of the Pure Oil Tune-Up Plan are explained at the right.

May Reveal Hidden Defects

It does wonders for mechanically sound motors. The Solvenized Tune-Up Treatment, by cleansing your motor of excess carbon may bring to light some mechanical defect which needs the attention of a garage man or mechanic. Such defects, promptly taken care of, may prevent a ruined motor or save you future expensive repairs.

Exclusive with Pure Oil Dealers

Drive in where you see the blue-and-white sign—to make that motor of yours "Wake Up and Live."

THE PURE OIL PURE COMPANY, U.S.A.

Be Sure with Pure

TUNE IN every Sunday and Tuesday night when KALTENBORN EDITS THE NEWS—9:30 p.m. EST—Columbia stations.

TWO EASY STEPS

STEP No. 1
SOLVENIZED TUNE-UP TREATMENT

First your motor is "laundered" by means of these new Solvenized Tune-Up Treatment. A chemical solvent (Purosol—patent applied for) loosens excess carbon and other impurities from metal parts and flushes them out through the exhaust. Watch a car receiving this Treatment. Pay attention to the heavy clouds of "smoke" coming from the exhaust. That contains excess carbon.

Step No. 1 can be done while you wait (the average time is only 30 minutes).

COSTS ONLY $1

Money back if not satisfied—You are the sole judge

STEP No. 2
SOLVENIZED TUNE-UP GASOLINE

You fill up the tank with the famous Solvenized Pure-Pep Tune-Up gasoline.

This motor fuel contains this same exclusive solvent in the proper proportion and thereby resists re-formation of excess carbon.

Cleansing and lubricating effect on vital parts of your motor. It helps keep gas lines, fuel pump and carburetor clean and efficient.

Increases gasoline mileage and reduces carbon knocks.
