The channel from Fell's Point to the head of the basin (which is to be kept open by the public) passes close to the said wharf, and thereby renders it more valuable and convenient for vessels to land and discharge their cargoes.

To the Voters of the City and County of Baltimore.

BEING warmly solicited by a number of my friends in the city and county to offer myself as a candidate for the important OFFICE OF SHERIFF, I have taken the liberty respectfully to solicit the suffrage of my fellow-citizens, at the ensuing election, for that office; and as my present engagements in the county clerk's office will prevent my personal application to a number of the voters of said county, I must therefore beg the indulgence of them and my friends, assuring them that should I be so fortunate as to meet their approbation, nothing shall be wanting on my part to give general satisfaction, in discharging the several duties attached to said office.

I remain the public's obedient servant,

Patent Horizontal Wind-Mill.

THE subscriber offers to the gentlemen farmers and others of Maryland, and the other states, an invention, which for utility has not been exceeded by any piece of mechanism which this or perhaps the last century can boast of. It is a peculiarly, though simply, constructed *horizontal* Wind-Mill, adapted to the grinding of all sorts of grain, and at the same time threshing out wheat and rice, fanning them and pounding the latter, powdering plaster of Paris, cutting tobacco, &c. &c. Its aptitude to all those various and useful purposes, will be more easily and justly estimated by a view of the machine itself, than from any description that can be given here.—A model of this wind-mill can be viewed on Federal Hill, where it is kept for the conveniency of shewing it in operation, by applying to Mr. Marche, No. 4, south Gay-street, by whom also the terms will be made known for the model only to erect a mill by, or for the patent right for a whole state; or by
