A CARD.

H. O. HEBERT (from Philadelphia) ſolicits the attention of the citizens of Baltimore in general, and invalids in particular, to his "*Air Pump Vapour-Bath*," a machine conſtructed on true philoſophical principles, the efficacy of which in gout, rheumatiſm, palſy, contractions and enlargements of joints, withered and enlarged limbs, cutaneous and many other diſeaſes, both chronic and acute, can be teſtified by many reſpectable perſons who have had recourſe to it.

This machine comprehends and combines the application of fomentation and the cupping glaſs, two of the moſt powerful external applications for the removal of diſeaſe, and that on a plan more extenſive than was ever before known.

As many perſons who have never ſeen the apparatus might be deterred from uſing it, either from the reports of prejudiced perſons, or fear, they are reſpectfully aſſured that its application is not attended with either pain or inconvenience—It poſſeſſes all the good effects of warm bathing, without its attendant conſequences, debility and relaxation; on the contrary, it invigorates and ſtrengthens the whole ſyſtem, but particularly the part to which the machine is applied. Perſons deſirous of further information reſpecting the nature and effects of this machine, will pleaſe to apply to the proprietor, at Bryden's hotel.

N. B. "The Air Pump Vapour Bath" is particularly adapted for the removal of all obſtructions occaſioned by violent colds, which are the forerunners of conſumptions, &c.

Complaints peculiarly incident to females, which too generally baffle the remedies hitherto applied, and to which they frequently fall victims in the prime of life, are readily and effectually removed by the application of this machine.
