WEBSTER-STEVENS.

Cloudy Day But Pretty Wedding in The M. E. Church.

The large audience room of the M. E. Church was filled with friends on Tuesday to witness the marriage of Miss Sallie V. Stevens, only daughter of Mr. and Mrs. William Stevens, to Rev. Zach H. Webster, of the Wilmington M. E. Conference, now stationed at Delmar, Delaware, who served Denton charge for four years and last year was at Hillsboro, and is well-known and has many warm friends in this community.

The ceremony, which was performed by Rev. J. T. Richardson, took place at 1 o'clock. About the altar large pots of handsome chrysanthemums were arranged and a ribbon rope across the aisle served to reserve seats for the relatives. Hon. Henry R. Lewis, Senator Harry A. Roe, Fred R. Owens and J. Kemp Stevens acted as ushers, Mrs. Benjamin H. Johnson presided at the organ and rendered Lohengrins' wedding march as the happy couple moved slowly up the aisle. The bride's costume was dark blue thibet cloth, trimmed with velour silk. Her hat was blue velvet to match her suit. The groom and ushers wore the customary black and white rosebud boutonniers.

A wedding breakfast was served at the home of the bride's parents and after the ceremony they were driven to Ridgely where they took the train for Washington. They will spend several days in the Capital City, will visit Mount Vernon and Alexandria and will return to their home at Delmar the last of next week.

Miss Stevens was a leader in Junior Epworth League work and will be greatly missed in the Church as well as among her friends. She received many handsome and useful presents among which was a beautiful rug from the little folks of the Junior League.

Wrightson, who was in New York at the time and at the same hotel with General Chipley, took him under his care and brought him home Friday afternoon. The paralysis is abating, but has not entirely disappeared. His family physician, Dr. Julius A. Johnson, while anxious about his patient, does not think his condition is serious. General Chipley is commissary-general on the staff of Governor Smith.

Talking of New Jail.

At the meeting of the County Comissioners on Tuesday, Messrs. B. F. Smith, of the B. F. Smith Fireproof Construction Company, of Washington, D. C., and W. A. Schenk, of the Standard Building and Construction Company, of Cincinnati, Ohio, who had been in correspondence with the commissioners, were present with plans for jail construction. These companies make a specialty of this work, constructing the buildings, if desired, and putting in steel cells and other necessary fixtures. Their plans are all of the latest designs consisting of steel corridor in which the prisoners are allowed to exercise and steel cells in which they are confined; lever locks to all cells arranged so that all can be unlocked at once to release the prisoners into the corridor for exercise without the jailer entering either corridor or cells, or unlocking any one desired separately. Plans for Sheriff's residence and jail annex were exhibited, and jail and residence built together. The gentlemen named estimate that a jail such as the county would require would cost from $8,500 to $10,000.

The board has taken the matter under advisement and in all probability will contract for this much needed improvement within the next year.

A magazine thirty years old, the Christmas number, which is also the thirtieth anniversary number, has been received at this office. For this number alone 728 tons of paper and six tons of ink were used and the entire edition amounted to 950,000.

A Blessing, but not in Disguise.

Sometimes, so our preachers say, sorrow and adversity are blessings in disguise. Few people fully appreciate this, however. Mrs. Emma Hocket, Newtonville, Ohio, writes: "For a long time we thought baby would not live, but on using your Victor Infants Relief we found it did more good than any other medicine we ever used. It proved quite a blessing." Your Merchant or Druggist sells it at 25 cents.

ADDICKS ON DELAWARE POLITICS.

He tells Who and What his Enemies are. Wants the Majority Recognized.

In a recent interview with a New York world reporter Mr. J. Edward Addicks said:

"In appointing William Michael Byrne to be United States District Attorney the President has simply recognized the men who have converted Delaware from a Democratic to a Republican State by refusing to permit Federal patronage to be used against them. A week or two before the late election I wrote a letter to Mr. Roosevelt pointing out to him the fact that I and my friends had made Delaware Republican, but that the fight against us was led by Federal office-holders who had made a fusion with Democrats.

"In that letter I said that the truth of the situation was that I was a Theodore Roosevelt, only I was 20 years older. This letter was written before the election. Since the election—which again resulted in Republican victory and a popular repudiation of my opponents and vilifiers—I have seen the President at Washington. I asked only that the majority of the Republican party in Delaware should be protected from a hostile use of Federal patronage by a small and disloyal minority.

"Senator Hanna has given me assurances of his support. I feel confident that two Republicans will be sent to the United States Senate in January by Delaware, and that I will be one of them.

"The charge that I am an ignorant, vicious vulgarian, utterly without capacity or ideas, is the work of a small clique of men in Wilmington who for 20 years have used the Republican organization as a means of getting Federal patronage without really trying to put the Republican party in control of the State.

"The insurgent group of Republicans see that I am master of the situation and that their days are numbered. Under my leadership Delaware has become Republican, and it will remain Republican. The old clique, which controled the organization and allowed it to remain a minority, are exerting themselves desperately so prevent me from being elected to the Senate. But they will fail.

"In 12 years I have spent more than $250,000 in Delaware politics, and every dollar has been spent legitimately. Why, this has been a popular reform movement. It has brought Delaware from a condition of confusion and mismanagement with an almost empty treasury, to a condition of prosperity and order.

"I am quite certain that I have have not spent more than $250,000 in my 12 years' fight, and yet my enemies have created the impression that I have spent millions. There is not a more misrepresented man in America.

"The howl which has been raised comes from men who for 20 years have used the Republican party for their own ends without attempting to win a victory in Delaware—the [illegible] Republican and it will continue to be Republican.

"As for me, if I am elected to the Senate, as I expect, I shall act and vote as an ultra-Republican. I am a protectionist, and although I recognize the fact that the tariff might be revised advantageously here and there, yet I fear to disturb public confidence and interrupt the grand sweep of our prosperity. I believe that what are called trusts should be let alone. Combinations which are evil and hurtful will die of themselves. Private monopolies cannot last long in this country. The situation will adjust itself along natural laws, which are bound in the end to control."

"The fight to keep me out of the Senate is a fight of incompetents to preserve themselves. Their disastrous rule in Delaware is over, and they ought to have sense enough to know it."
