Patent Horizontal Wind-Mill.

THE subscriber offers to the gentlemen farmers and others of Maryland, and the other states, an invention, which for utility has not been exceeded by any piece of mechanism which this or perhaps the last century can boast of. It is a peculiarly, though simply, constructed *horizontal* Wind-Mill, adapted to the grinding of all sorts of grain, and at the same time thresning out wheat and rice, fanning them and pounding the latter, powdering plaster of Paris, cutting tobacco, &c. &c. Its aptitude to all those various and useful purposes, will be more easily and justly estimated by a view of the machine itself, than from any description that can be given here.—A model of this wind-mill can be viewed on Federal Hill, where it is kept for the conveniency of shewing it in operation, by applying to Mr. Marche, No. 4, south Gay-street, by whom also the terms will be made known for the model only to erect a mill by, or for the patent right for a whole state; or by

A CARD.

H. O. HEBERT (from Philadelphia) solicits the attention of the citizens of Baltimore in general, and invalids in particular, to his "*Air Pump Vapour Bath*," a machine constructed on true philosophical principles, the efficacy of which in gout, rheumatism, palsy, contractions and enlargements of joints, withered and enlarged limbs, cutaneous and many other diseases, both chronic and acute, can be testified by many respectable persons who have had recourse to it.

This machine comprehends and combines the application of fomentation and the cupping glass, two of the most powerful external applications for the removal of disease, and that on a plan more extensive than was ever before known.

As many persons who have never seen the apparatus might be deterred from using it, either from the reports of prejudiced persons, or fear, they are respectfully assured that its application is not attended with either pain or inconvenience—It possesses all the good effects of warm bathing, without its attendant consequences, debility and relaxation; on the contrary, it invigorates and strengthens the whole system, but particularly the part to which the machine is applied. Persons desirous of further information respecting the nature and effects of this machine, will please to apply to the proprietor, at No. 3, East-street, near the assembly room.

N. B. "The Air Pump Vapour Bath" is particularly adapted for the removal of all obstructions occasioned by violent colds, which are the forerunners of consumptions, &c.

Complaints peculiarly incident to females, which too generally baffle the remedies hitherto applied, and to which they frequently fall victims in the prime of life, are readily and effectually removed by the application of this machine.
