HARDING AND COOLIDGE.

Senator Warren G. Harding, Republican candidate for President of the United States, goes to the people with a clean record as a friend of the people.

Throughout his career in the Ohio State legislature, and as a United States Senator, his influence. his voice and his votes have ever been used in the service of the people.

Senator Harding has shown by his every public act that when he is elected President of the United States he will be the representative of all the people, not of any party, not of any class, not of any group or groups of interests. He will be the farmers' president and the bankers'; he will represent the working men and the industrial heads, the rich and the poor, the mighty and the lowly.

Senator Harding, the Republican candidate for the Presidency, is the same simple, plain, unassuming man of the people he was when a modest Ohio publisher.

Born on a farm, he worked his way through school and college by laboring in the fields, by driving teams, painting barns, setting type and teaching school.

Harding the printer became Harding the publisher, a power for right and good in his community.

Recognizing in Harding the type of man that makes the best representative of the people's interests in the legislative halls, the people of Ohio twice sent him to the state legislature; then honored him as Lieutenant-Governor. In 1914 they recognized his true stature and elected him to the United States Senate.

Today his party has given him the greatest honor within its power by nominating him for the Presidency, but he is still the Harding the town folks knew as a printer and editor, living his simple and beautiful family life in his modest Marion home, beloved and respected by his neighbors, who were his boyhood friends.

Harding is a splendid type of clean American manhood, a notable example to every American-born boy of the opportunities the country offers to them all.

Harding and Coolidge should receive overwhelming support at the polls next November 2nd. They represent all that is best in the party founded by Lincoln, which, since the Civil War, has ever wisely guided the destinies of the country in days of stress, when serious problems pressed for solution.

When Financial Institutions Unite

It seems fitting and proper that public announcement be made of the reasons actuating the consolidation.

The National Bank of Mechanicsville

—AND—

The Eastern Shore Trust Company

have united their organizations and become

THE MECHANICSVILLE BANK Of the Eastern Shore Trust Company

because:

modern business demands larger and ever larger banks with complete and diversified facilities.

THE NATIONAL BANK OF MECHANICSVILLE, which for thirteen years has served the community in commercial banking, acquires the full facilities of a well-developed trust organization through which it may serve its patrons in many more ways than before.

THE EASTERN SHORE TRUST COMPANY, which for twenty years has been rendering valuable banking and trust service in every county in Southern Maryland, acquires greater ability to serve through the additional resources and increased banking facilities.

THE RESULTING INSTITUTION, larger, stronger, more versatile, more fully equipped, is able to perform greater financial duties for the business world and to extend every banking facility.

THE MECHANICSVILLE BANK

COAL, LUMBER AND BUILDING MATERIALS

W. A. SMOOT & CO. INC.

A SENSIBLE INVESTMENT

The most sensible way to invest your money is to keep your property in good condition and to have a home which will make your family comfortable and other buildings which will properly house your belongings.

You get the direct benefit from money invested in this way from day to day, in addition to the actual increase in the value of your property.

There have been some reductions in the price of lumber by the mills and we are reducing our prices to meet these, regardless of the cost of the different items we have in stock.
