H. E. RAMSDELL Editor.

THURSDAY, FEBRUARY 10, 1910.

The Dover Delawarean laments the fact that the new board of Trustees of the Poor for Kent County are all Democrats, and says the Republicans should have a minority representative. This is something new for a Democratic paper. It is usually customary to put up these lamentations when the office holders are all Republicans.

The term of Mr. Isaac L. Dukes as clerk to County Commissioners will expire in about two months and "wire pulling" for the position is now in order. The appointment will be made by the County Commissioners, and it is said that as yet the Board is far from being agreed on the man. Those spoken of for the place are Messrs. Isaac L. Dukes, Clinton Cook, Charles H. Whitby, John T. Moore, Saulsbury Garey, Wm. H. Anderson and Reuban Garey.

On account of having become diseased at the root, the 2,000 Japanese cherry trees, which were made present by the municipality of Tokio to Mrs. Taft, and which arrived a short while ago, will be destroyed. It was thought by the Secretary of Agriculture that the pest, which has been hitherto unknown in this country, would spread and endanger other fruit trees. The trees were to have been planted along the drives in Potomac Park.

Mr. Edward H. Brown, Jr., has purchased the controlling interest in the Centreville Record and has assumed the management. The paper has been publsshed for the past 35 years, and was formerly edited by the late Col. William Scott Roberts, who disposed of it in 1906 to James T. Bright. The paper has been independent in politics, but it is thought the new proprietor will run it in the interest of the Democratic party. Mr. Brown is a member of the Centreville bar and frequently visits Denton during sessions of the Court.

State aid was given to stricken Port Deposit by the Maryland Legislature on Monday. A bill appropriating $20,000 for relief was passed by both houses under suspension of the rules and a joint committee consisting of Senators Crothers and Andrews and Delegates Osborn, King and Main was sent to the town to investigate conditions and report to the Legislature. The report was made at the session by Delegate King of Worchester. It recommended relief and the Legislature acted on the report immediately, and a committee of Port Deposit citizens was authorized to distribute the money.

About a week ago Senator Goslin, of Caroline, introduced a bill amending the county local option law so as to make it more stringent The Senator claims that the law is being evaded by means of prescriptions obtained from physicians. A thirsty individual experiences little difficulty in getting what he wants at the drug stores, which have in part taken the place of saloons. To cut out this practice his bill prohibits the recognition of prescriptions where the greater part of the ingredient is made up of alcohol. The bill was referred to a special committee, of which Senator Goslin was made chairman, and the bill was favorably reported. Without giving any reason other than that this bill is a temperance measure, Senator Coady moved its reference to his committee. Senator Wilkinson thought that being a strictly local measure, there was no need of its going to a standing committee, but Senator Coady insisted, and Senator Goslin interposing no objection, it was so referred. Opponents of the bill object to the measure on the ground that it interferes with doctors' prescriptions, but its author claims that when these are bona fide they are amply protected, as no medicine contains more alcohol than any other ingredients.

Alaskan Coal Lands.

A proposal to lease 5,000 acres of the choicest cold lands in Alaska has been submitted to the Senate committee on territories by John E. Ballaine, of Seattle, who is said to be largest property owner in Alaska. He offers a royalty of fifty centy for each ton of coal he mines. This will net the government, he claims, as much as $2,000,000 for each one hundred acres. He offers a bond of $1,000,000 for the fulfillment of his agreement. He requires the condition that no other coal lands in Alaska shall be leased for a lower royalty, and that the government shall get at least half its coal supply either from his company or from a naval coaling reserve to be established in the same district. He charges that a lobby exists at Washington for the purpose of passing a bill which will guarantee to the promoters of a railroad in Alaska the interest on their bonds and will donate to them 5,000 acres of the best coal lands there for $10 an acre, and that through this bill an attempt is being made to get control of other coal lands in Alaska. It is to be hoped that the congressional committee now investigating the Pinchot-Ballinger controversy will enlighten the country on this Alaskan situation.

SAVED AT DEATH'S DOOR.

The door of death seemed ready to open for Murray W. Ayers, of Transit bridge N. Y., when his life was wonderfully saved. "I was in a dreadful condition," he writes, "my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing 40 pounds, growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that matchless medicine—Electric Bitters—cured me. I regained the 40 pounds lost and now am well and strong." For all stomach, liver and kidney troubles they're supreme. 50c at C. H. Redden, Denton, A. L. Duffy, Hillsboro, Md.

Poultry Profits

Depend Upon Having Eggs During the Winter When Prices Are Highest

Egg production falls off at this season as the hen is deprived of the egg-making materials contained in her summer diet. She must also utilize the most of her food in keeping her body warm and has very little material to spare for the development of eggs.

SCIENCE MAKES IT POSSIBLE

to overcome these adverse conditions and bring Winter egg production up to the Summer standard. All that is necessary is to add to the hen's Winter ration the egg-making chemical elements contained in her Summer diet.

Fairfield's Blood Tonic and Egg-Producer

is a Scientific Poultry Powder composed of the elements of which eggs are formed. These are so combined with other elements that tone up the digestive organs and purify the blood that they are immediately assimilated and carried to the Egg Sac of the hen. The hen's egg sac contains the Embryo of all the eggs she will ever lay, and when these Embryos receive proper nourishment they develop and MUST BE PRODUCED. Make your hens lay NOW, by feeding Fairfield's Egg Producer regularly. It will increase your profits and keep disease from the poultry yard. The small dose makes it inexpensive and it is sold under written guarantee by dealers named who also carry

Fairfield's Roup Remedy for Poultry
Fairfield's Lice Killer and Disinfectant

SAVING

BY PER CENT.

Is one of the best and surest plans. Make it a rule to deposit a certain per cent. of your income or salary on pay day. Consider that this per cent. is an insurance against the future. Look upon it as a debt which must be paid (all debts should be paid), and figure that this portion is not available for current expenses. As your income grows the amount you save will increase. . . . . .
