Patent Horizontal Wind-Mill.

THE subscriber offers to the gentlemen farmers and others of Maryland, and the other states, an invention, which for utility has not been exceeded by any piece of mechanism which this or perhaps the last century can boast of. It is a peculiarly, though simply, constructed *horizontal* Wind-Mill, adapted to the grinding of all sorts of grain, and at the same time threshing out wheat and rice, fanning them and pounding the latter, powdering plaster of Paris, cutting tobacco, &c. &c. Its aptitude to all those various and useful purposes, will be more easily and justly estimated by a view of the machine itself, than from any description that can be given here. —A model of this wind-mill can be viewed on Federal Hill, where it is kept for the conveniency of shewing it in operation, by applying to Mr. Marche, No. 4, south Gay-street, by whom also the terms will be made known for the model only to erect a mill by, or for the patent right for a whole state; or by

JOHN BAPTISTE AVEILHE,
The Inventor, Havre-de-Grace.

An Iron Mine.

A PERSON, now residing in this city, who has for many years been engaged in the superintendance of iron works, and has had an opportunity of examining the ores of that metal, melted at many furnaces in this state, Virginia and Pennsylvania, and comparing the advantages of situations for carrying on that business—some years ago made a discovery of a bank of ore, which for the quality, quantity, situation, and every other requisite for pursuing the business to greater profit than any other he is acquainted with, or he believes exists. A desire of turning this discovery to his own emolument, at some period, by the erection of works on the spot, has hitherto prevented him from making a disclosure; but having now relinquished the design of engaging in such a business, on account of a bad state of health and other circumstances, he deems it improper to let what appears to him so valuable a discovery be lost; he will therefore make the situation known, and point out its advantages, with every other information he is possessed of respecting it, to any gentleman who may be disposed to make the enquiry, for a consideration far below what the expences he has already incurred, and the trouble and time he has devoted to it, might entitle him to demand. Enquire at this office.

N. B. The same person is also in possession of a curious, simple and more accurate method than any yet made public, of calculating land surveys, which he would communicate on reasonable terms. Also, of a case in law, which would exercise the genius, and might turn to the advantage of any gentleman of that profession.

Coverts, who are creditors for not less than fifty dollars respectively, and who have duly proved their debts under the said commission, having signed the said certificate and testified their assent to the allowance thereof—Notice is hereby given, that any of the creditors of the said bankrupt will be heard, if they shall think fit, on Tuesday the 8th day of November next, at 10 o'clock in the forenoon of the same day, at the court house in the city of Baltimore, against the allowance of the said certificate; and that the said certificate will on that day be allowed, unless cause to the contrary be shewn by the creditors aforesaid—Provided a copy of this order be published on the Tuesday of each week for twelve successive weeks, in the Baltimore Federal Gazette, or some other newspaper in the city of Baltimore, before the said 8th day of November.
