H. E. RAMSDELL Editor.

THURSDAY, FEBRUARY 24, 1910.

One of the most disastrous strikes of recent years is now in progress in Philadelphia among the street car employes. The strike has been on only four days and already 750 cars have been demolished, and more than 2000 car windows broken. Dynamite is being used to blow up cars and other property of the company and several persons have been shot or killed in other ways. The police of the city seem unable to handle the situation and business of every kind is suffering. It has been reported that a sympathy strike involving 100,000 men was about to be ordered, but this has been called off for the present at least. The reckless and wanton destruction of property and the fiendish, murderous spirit shown by the mobs, has seldom if ever been equaled in this country. The city government should secure men enough to put down this trouble at once.

DEMOCRATS AT OUTS.

No session of the Legislature at which less work of benefit to the State has been done, has been held in Annapolis for years than the one now in session. The Democrats are in full contron and are unable to agree upon anything, not even the division of the spoils. Governor Crothers still exhibits intense partizanship on every occasion and sticks to the organization. The Sun correspondent at Annapolis says: "The present strained not to say ruptured relations between Governor Crothers on the one hand and Senators Smith and Gorman on the other, present food for thought to those with a tendency toward political analysis. On this line today a prominent party man said:

'A glance back over the two years Crothers has been Governor confirms the statement that, for one reason or another, from the date of his inauguration, Gorman and Smith have found it inconvenient to support any measure or policy advocated or proposed by him. Their present attitude in opposing the Direct Primaries and other pop ular bills with which Crothers has identified himself is entirely consistent with their stand from the start.

'Crothers came out in an interview advocating the Oregon plan of electing United States Senators, and a few weeks later Mr. Gorman made a public statement declaring himself unalterably opposed to this plan. Senator Smith likewise let it beknown among his friends that it was not to be seriously considered, and his friends began to intimate that they did not know what Croth ers would be taking up next.

'Prior to the meeting of the Legislature Crothers urged the necessity of legislative economy and the keeping down of the number of employes. Gorman and Smith lined up against him on this proposition and, it is claimed encouraged the scramble for places to an extent that promises to make this session a record one for extravagance.

'Now they have lined up once more against his kind of direct primary bill; they do not want the same kind of public utilities bill he wants; they are back-tracking on the city representation pledge for which he stands, and they are determined to absolutely ignore the Senatorial primary amendments he has advocated.

'Another desire of the Governor's was that this session should be as free as possible from the lobby and its influence. In this he seems doomed to disappointment and there are indications that the usual activity will prevail. Some hints have recently been given, however, that if certain men who have heretofore depended upon the strength of their political connections to make lobbying lucretive, continue as they have started there will be an explosion and an expose that will be worse than unpleasant.'"

14,000 Tons of Rock For Roads.

Fourteen thousand tons of trap rock have been ordered by the County Commissioners of Caroline county for use in road-building this season. A rate of $1.36 a ton for freight on the stone delivered at the Upper Choptank wharves, has been secured. The construction of about ten miles of stone road is now contemplated by the Commissioners this year, the section between Denton and Greensboro to be finished, and the stretch from Watts Creek, south of Denton, to the Bureau, to be built.

Application was made by the County Commissioners on Tuesday to the Maryland Geological Survey for the building of 1.10 miles of Shoemaker road in the First district, on the road leading from Goldsboro to Sandtown, known as the Sandy Island road.

The first shipment of stone for the construction of roads under the State Road Commission, consisting of 800 tons, to be landed at Williston wharf, was ordered to be shipped at once.

Thomas Cook, of Harrisburg, Pa., was notified to report March 1st, with 30 Italian workmen for work on the State roads.

Are you rheumatic or consumptive. The Lawton Electrical Method is guaranteed to cure these diseases. Can be used at home. No shock in our Method. Address,
Thomas Lawton,
611 Market street,
Wilmington, Del.

To Stop Printing Envelopes.

The Government will probably discontinue the practice of printing stamped envelopes with the cards of business firms in the corner. For several years past the printers' unions throughout the country have been laboring to that end, claiming that it was an invasion of their fields and forced private firms to enter into competition with the Federal government. It is stated that the House Committee on Post offices and Post Roads will include in its regular appropriation bill for the department a provision declaring that the practice shall cease. The government at present has a contract with a Dayton, Ohio, printing firm to do their work, and at its expiration it is probable no further contracts will be made.

How To Cure Rheumatism.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with Oils and Liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fibre of rotten wood.
Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside" sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys, and makes you well all over. Rheumacide "strikes the roots of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50c and $1.00 a bottle. In tablet form at 25c and 50c a package. Trial bottle of tablets sent by mail on receipt of price 25c. Booklet free. Write to Bobbitt Chemical Co., Baltimore, Md.
Feb. 3 20t.

DEAFNESS CAN BE CURED ENTIRELY.
at home by THE LAWTON ELECTRICAL METHOD. Guaranteed to do as advertised or money refunded. Address Thomas Lawton, 611 Market St., Wilmington Delaware.

Poultry Profits

Depend Upon Having Eggs During the Winter When Prices Are Highest

Egg production falls off at this season as the hen is deprived of the egg-making materials contained in her summer diet. She must also utilize the most of her food in keeping her body warm and has very little material to spare for the development of eggs.

SCIENCE MAKES IT POSSIBLE

to overcome these adverse conditions and bring Winter egg production up to the Summer standard. All that is necessary is to add to the hen's Winter ration the egg-making chemical elements contained in her Summer diet.

Fairfield's Blood Tonic and Egg-Producer

is a Scientific Poultry Powder composed of the elements of which eggs are formed. These are so combined with other elements that tone up the digestive organs and purify the blood that they are immediately assimilated and carried to the Egg Sac of the hen. The hen's egg sac contains the Embryo of all the eggs she will ever lay, and when these Embryos receive proper nourishment they develop and MUST BE PRODUCED. Make your hens lay NOW, by feeding Fairfield's Egg Producer regularly. It will increase your profits and keep disease from the poultry yard. The small dose makes it inexpensive and it is sold under written guarantee by dealers named who also carry

SAVING
BY PER CENT.
Is one of the best and surest plans. Make it a rule to deposit a certain per cent. of your income or salary on pay day. Consider that this per cent. is an insurance against the future. Look upon it as a debt which must be paid (all debts should be paid), and figure that this portion is not available for current expenses. As your income grows the amount you save will increase. . . . . .
