Wait, Mother-Ask Your Doctor First

Never give your children unknown "Bargain" preparations to save pennies but ask your doctor first.

A mother may save a few pennies giving her children unknown preparations. But a child's life is precious beyond pennies. So—tell your doctor before you give any remedy you don't know all about.

And when giving the common children's remedy, milk of magnesia, always ask for "Phillips' Milk of Magnesia.

Because for three generations Phillips' has been favored by many physicians as a standard, reliable and proved preparation — marvelously gentle for youngsters.

Many children like Phillips' in the *honey* form — tiny peppermint-flavored tablets that chew like candy. Each tablet contains the equivalent of one teaspoonful of the *liquid* Phillips.' 25¢ for a big box.

A bottle of Phillips' liquid Milk of Magnesia costs but 25¢. So—anyone can afford the genuine. Careful mothers ask for it by its full name "Phillips' Milk of Magnesia."
