To the Voters of the City and County of Baltimore.

BEING warmly solicited by a number of my friends in the city and county, to offer myself as a candidate for the important office of SHERIFF, I have taken the liberty respectfully to solicit the suffrage of my fellow-citizens at the ensuing election for that office: and as my present engagements in the county clerk's office will prevent my personal application to a number of the voters of said county, I must therefore beg the indulgence of them and my friends, assuring them, that should I be so fortunate as to meet their approbation, nothing shall be wanting on my part to give general satisfaction in discharging the several duties attached to said office.

I remain,
The public's obedient servant,

This day is opened

At the store of GEORGE HILL,

A book of subscription, to proposals for publishing
LECTURES ON NATURAL PHILOSOPHY,
By the reverend *John Ewing, D. D.*
Late provost of the university of Pennsylvania, and senior pastor of the first Presbyterian congregation in Philadelphia.

It is also intended to publish, by subscription, a selection of his *Sermons*, on the most evangelical and instructive subjects, at the earnest solicitation of a large portion of his stated hearers; as also, of a number of friends, eminent for their taste in elegant composition and sound doctrine.

Eulogy is intentionally avoided here. Gentlemen who wish to be possessors of the valuable works of the late Dr. Ewing, are respectfully invited to call and examine the proposals early, as the number of subscribers required is only 400—and to non-subscribers, the price will be considerably raised.

Patent Horizontal Wind-Mill.

THE subscriber offers to the gentlemen farmers and others of Maryland, and the other states, an invention, which for utility has not been exceeded by any piece of mechanism which this or perhaps the last century can boast of. It is a peculiarly, though simply, constructed *horizontal* Wind-Mill, adapted to the grinding of all sorts of grain, and at the same time threshing out wheat and rice, fanning them and pounding the latter, powdering plaster of Paris, cutting tobacco, &c. &c. Its aptitude to all those various and useful purposes, will be more easily and justly estimated by a view of the machine itself, than from any description that can be given here. —A model of this wind-mill can be viewed on Federal Hill, where it is kept for the convenience of shewing it in operation, by applying to Mr. Marche, No. 4, south Gay-street, by whom also the terms will be made known for the model only to erect a mill by, or for the patent right for a whole state; or by

Proposals for Publishing

A PERIODICAL WORK,
ENTITLED

The Literary Magazine,

AND
AMERICAN REGISTER.

THIS work, if public patronage encourages its prosecution, shall be published monthly.

The number shall be, occasionally, ornamented with an engraving, executed by the best artist than can be obtained, and delivered to subscribers at the price of *fifty cents*. Each number shall contain, at least, eighty pages in large octavo, and shall comprehend seven departments.

The first department shall include original, moral, literary or scientific performances, and biographical or historical sketches.

The second department shall contain reviews of American publications, and of English works republished here.

The third department shall comprise such extracts, from foreign publications, as shall be considered peculiarly interesting, and deserving the attention of the people of America. The essence, especially of periodical publications, shall be carefully extracted.

The fourth department shall consist of pieces of original or selected poetry.

The fifth department shall include notices of publications preparing for the press; notices of literary characters and incidents; and such portions of information of a scientific, commercial and agricultural nature, as shall be deemed most remarkable and most deserving of notice.

The sixth department shall contain an accurate detail of political intelligence, foreign and domestic, particularly a clear summary of the proceedings of the congress of the United States during their session.

The seventh department shall consist of all such interesting or important occurrences, as the passing month shall have produced; such as casualties, crimes, &c. and shall likewise contain as full and accurate a list of marriages and deaths, in the United States, as can be procured.

This work will be published by Messrs. John Conrad and Co. and conducted under the immediate direction of an editor, who, in addition to his own labors, has received assurances of the assistance of several of the first literary characters in this city and in New-York.

A work of the nature now offered to the attention of the people of the United States, has long been demanded. It is conceived, that, if properly conducted, it would eminently promote the literature of this country, and would prove, in all respects, favorable to the gratification of taste and extension of useful information.

The editor promises, if encouraged by liberal subscriptions, all that his talents and labors can perform toward the successful execution of the work which he has proposed to undertake, and he hopes that this appeal to literary taste, that this desire to diffuse knowledge among all classes of society, will not, like other attempts, which have preceded this, be rendered fruitless, by a cold and depressing reception.

To enable the public to judge of the nature of the publication as soon as possible, the first number will appear at the beginning of October ensuing.

☞ *Subscriptions to the above work are received at the Bookstore of M. and J. Conrad & Co. No. 138, Market-street, Baltimore.*

A CARD.

H. O. HEBERT (from Philadelphia) solicits the attention of the citizens of Baltimore in general, and invalids in particular, to his "*Air Pump Vapour Bath*," a machine constructed on true philosophical principles, the efficacy of which in gout, rheumatism, palsy, contractions and enlargements of joints, withered and enlarged limbs, cutaneous and many other diseases, both chronic and acute, can be testified by many respectable persons who have had recourse to it.

This machine comprehends and combines the application of fomentation and the cupping glass, two of the most powerful external applications for the removal of disease, and that on a plan more extensive than was ever before known.

As many persons who have never seen the apparatus might be deterred from using it, either from the reports of prejudiced persons, or fear, they are respectfully assured that its application is not attended with either pain or inconvenience—It possesses all the good effects of warm bathing, without its attendant consequences, debility and relaxation; on the contrary, it invigorates and strengthens the whole system, but particularly the part to which the machine is applied. Persons desirous of further information respecting the nature and effects of this machine, will please to apply to the proprietor, at No. 3, East-street, near the assembly room.

N. B. "The Air Pump Vapour Bath" is particularly adapted for the removal of all obstructions occasioned by violent colds, which are the forerunners of consumptions, &c.

Complaints peculiarly incident to females, which too generally baffle the remedies hitherto applied, and to which they frequently fall victims in the prime of life, are readily and effectually removed by the application of this machine.

To be Sold,

Upon such credit as will accommodate any reasonable purchaser; and if not sold, will be let to a good tenant, on a long lease—

THE NORWICH MILLS and LANDS in the county of Henrico, 12 miles below the city of Richmond, upon Four Mile creek, about a mile from its junction with James River.

The mills are worked by over-shot water wheels, 16 feet diameter and 8 feet head of water, double geered, three pair of excellent bur stones, and one pair of remarkably good stones for grinding Indian corn. The whole of the mills have been newly rebuilt upon the most approved construction, with all the late improvements in the machinery—'Tis believed that the mill-house, as well for size as convenience, is unexceptionable. The mills, though built on the bank of the creek, can never be affected by high freshes, which are sometimes ruinous to mills—they are supplied with water by two long canals, one from Four Mile creek, the other from a smaller creek called Bailey's, which unite the water of those streams in a natural reservoir or bason, about 200 feet from the mills. There is an excellent brick bake-house, with two large ovens; a good house for the proprietor or manager, also a store and counting-room, comfortable houses for millers, bakers and coopers. A boat may load at the mill door with two hundred barrels of flour, and the largest ship that navigates James River can load in a safe harbor within one mile of the mills. The whole of the land consists of about 500 acres of a good quality, and a full proportion of it excellent meadow land—about one half of it is in woods and well timbered, having been carefully preserved. Separate and distinct from the houses attached to the mills, there is a complete set of houses for the accommodation of a gentleman farmer. I will sell or lease the whole, or if it be more agreeable, the mills and appendages only, with a sufficient quantity of ground to render them perfectly convenient in that respect.

The neighborhood of the mills is a farming country, settled by independent people—there are about 30,000 bushels of wheat annually raised, as near, if not nearer, to those mills than any other market.

Mr. William Pennock, at Norfolk; and Mr. Charles Myers, at Baltimore, are furnished with the terms and conditions of a sale or lease of the mills and lands, so that any one convenient to either of them may obtain the necessary information, previous to the trouble of viewing the premises, upon application to them or to the subscriber at the city of Richmond.

Mr. Samuel Ellison, who lives at the mills, will shew the whole to any person who may apply to him for that purpose—he expresses an inclination to undertake the management, and a small interest in the business if it can be made mutually agreeable. Letters addressed to me by post, will be duly attended to.

DAVID ROSS.
Richmond, September 13.

The mills above mentioned will be found to answer the description given of them. I have for some time been engaged in the manufacture of flour on a small scale, and if agreeable to the purchaser or lessee of the above property, I would undertake the management, and a small interest in the business as a partner.

Mrs. Keets' Boarding School.

ON Monday, the first of August, the young ladies of Mrs. Keets' Boarding School, near Centreville, Queen Anne's county, Maryland, were examined in reading, English grammar, French, arithmetic and geography. Each young lady produced a specimen of her writing, with questions and solutions in different and difficult rules of arithmetic. They read with a degree of animation, which surprised and pleased the company, and equally evinced the attention of the teachers and their own application.

There was a number of persons present, all of whom professed themselves highly gratified by their prompt and accurate answers to the numerous questions proposed in English grammar and the French language. They concluded with a perfect explanation of the geogrphy of North America, particularly of the United States.

We whose names are undersigned were witnesses of the pleasing and animating scene, and declare, that the utmost merit is equally due to Mrs. Keets, Mr. Pairo, and the young ladies.

JAMES KENT,
JOHN DAMES,
PERRY E. NOEL,
JOHN HACKETT.
Centreville, 12th Aug. 1803.

Mrs. KEETS and Mr. PAIRO respectfully inform the ladies and gentlemen of Annapolis, and the public in general, that they will open a Boarding School in that city, on Monday, the 2d January, 1804, provided 25 ladies, as boarders, can be procured by subscription previous to the 20th October next.

Mrs. Keets will teach reading, writing, the English grammar and needle work.

Mr. Pairo will teach the French language, (Latin and German, if required) arithmetic, geography, astronomy, use of the globes, and music.

If the above testimony of Mrs. Ketts' and Mr. Pairo's abilities should not be considered as a sufficient recommendation, Mrs. Keets can produce a number of recommendatory letters from the parents and guardians of those ladies she has had under her care, as vouchers of her strict attention to the morals, improvement and accommodation of her pupils.

Mr. Pario can also produce testimonials of his character and abilities. He is a German gentleman, educated at one of the principal universities in that country. He is of French extraction and has resided a considerable time in Paris, which circumstance enables him to understand and speak the French language as his mother tongue. He has been in the habit of teaching eight years, and from the satisfaction he has already given, flatters himself that he shall be deemed worthy the encouragement of the public.

Application may be made to Mr. Neth, or capt. Thomas, Annapolis, or to Mrs. Keets, near Centreville, Maryland.

Valuable Property.

FOR SALE,

A FARM of 197¾ acres of Land, about five miles from the city, between 60 and 70 acres of which are in excellent timber; several fine springs of water are on the place. The improvements are a neat new two-story frame house, completely finished, a good barn, corn-house and meat-house, a large garden paled in, and a yard with a well of good water near the door; near 100 apple trees of the best fruit from Pennsylvania, just beginning to bear, and a young peach orchard. There is stone hauled to the spot sufficient to fence in two-thirds of the plantation, and to build 6 cross-fences, which can be put at up from 7/6 to 9/4½ per rod. An accommodating credit may be had on two-thirds of the purchase money.

Also, 100 acres about one mile and an half from the former plantation. This tract is mostly cleared, and is an elevated and pleasant situation, well watered. The improvements are a log dwelling-house, a number of large cherry trees, and a few peach and apple trees.

One lot on this side of the turnpike gate, 20 feet front on the turnpike road, and running back about 127 feet to Newington road.

The title to these lands are unquestionable, and possession may be had when desired. For terms apply to JAMES M'CANNON,

Thirty Dollars Reward.

RAN away from the subscriber, on the 13th instant, an apprentice lad named THOMAS APPEBY, about 20 years and 6 months old; a good looking lad, 5 feet 9 or 10 inches high, brown complexion, and short hair; when accused of any fault he has a down look and turns pale; he has a small hole on the right side of his nose, about the size of a pea; a large scar on one of his knees, occasioned by the cut of a knife; he is a shoe-maker by trade, well made and walks erect. Had on when he went away, a brown cloth coat, lapelled, with metal buttons, and black cape, patched on one elbow, and darned on the other; he took with him 6 waistcoats, viz. 1 white marseilles, 1 white dimity, 1 yellow jane with red stripes, 1 large striped swandown, 1 black swandown with white stripes, 1 striped (color not recollected); 3 pair pantaloons, viz. 1 fine cloth without feet, 1 black velvet without feet, 1 yellow nankeen with feet, 2 pair of linen trousers, 1 of check, 1 fur hat. He took all his shoe-maker's tools with him, intending no doubt to work at his trade. It is probable he will change his name, as he is an artful fellow. Whoever apprehends and brings home said apprentice, shall receive the above reward and reasonable charges, from the subscriber, living in German-street, or to his shop, near Hollingsworth's wharf.
