THURSDAY, MARCH 24, 1910.

Senator Goslin's drug store local option bill for Caroline county has been passed in the legislature.

Today has been set apart by the Board of Education as Maryland Day in the schools of the county. The 25 of March is the date selected for its observance, but this year that date falling on Good Friday, which is a legal holiday, the preceding day was selected. The children will take part in exercises peculiarly fitting the occasion.

The street car men of Philadelphia are still on strike. The Record in commenting on the latest phase of the situatian says: "Even the Philadelphia Rapid Transit Company can count on being sustained by the great majority of the Philadelphia public in standing out against a proposition for a strike settlement that involves the closing of the open door to any honest man who seeks to earn his daily bread. Any man who wants to join a labor union should have the right to do so. Likewise he should not be denied the right to join any particular union that suits him best. He has the same right to decline to join any union, and in neither event should his attitude affect his right to seek and obtain employment at the hands of a public service corporation It is now represented that some of the men who claim to be dealing for the striking street car men insist that there will be no settlment except upon the basis of the exclusive recognition of a particular union This is a worse than foolish proposition. The street car strike should be settled, but upon a basis of honorable dealing on both sides.

J He was a prominent Methodist and contributed largely to his church. A widow, two brothers, John A. Sigler, president of the bank of Ridgely, George Sigler, of Baltimore, and one sister, Mrs. R. T. For New Christ Church in Denton.

To My Friends:

I am making every effort this Easter to raise money to build a larger church. The members of Christ Church through their organizations and personally, will work and give for this object, and I feel that there are others in Denton, in Caroline county, and elsewhere that will help us. I am sincere in my respect and esteem for my fellow townspeople, and have been and shall continue to be in most active sympathy with every laudable undertaking by the civil, religious and educational authorities of Denton and our county. That I may have greater opportunities to render more effective service; that this town may have its interests further advanced by my love, or in my field of work, and this larger institutional work may be done, a larger plant is needed. The growth of our beautiful town, and indeed the present number of adherents to Christ Church require enlargement. The laws of my Church forbid borrowing of money. I must build on a cash basis—will you help me, and give me such help this Easter? I have every reason to think that the Church has many friends among those who are not our members, but our brethren in the Lord. I believe that at Greensboro, Ridgely, Hillsboro, and in other towns there are those who wish us well; and that in our prospering county we have those who would like to see us in possession of a church building which does not cramp or hinder us and that will be in keeping with the constantly increasing growth and beauty of the town of Denton.

Mr. W. K. Scotton is our teasurer, and all gifts for the new Christ Church will be carefully handled by him and deposited in the Denton National Bank to be used for that purpose only. All gifts given me or sent to me will be acknowledged and passed to Mr. Scotton. So on Easter day or at any time will you give answer to this appeal?

Very sincerely yours,
J. Gibson Gantt,
Pastor of Christ Church, Denton.

How To Cure Rheumatism.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with Oils and Liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fibre of rotten wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside" sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys, and makes you well all over. Rheumacide "strikes the roots of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50c and $1.00 a bottle. In tablet form at 25c and 50c a package. Trial bottle of tablets sent by mail on receipt of price 25c. Booklet free. Write to Bobbitt Chemical Co., Baltimore, Md.

A Run-Down Cow
is a Losing Proposition

The heavy grain ration and the forced feeding for winter milk production tire out and weaken the digestive and milk secreting organs of your dairy cows.

When these organs become fatigued through ever-exertion, it is as impossible for them to perform their work properly, or to do the same amount of work, as it is for any other part of the body when in that condition.

In consequence the cow becomes "run-down," the milk supply dwindles and the animal often contracts some

SERIOUS DISEASE

These conditions exist inwardly long before they are noticed outwardly. Your first knowledge of any trouble when the milk decreases in quality and quantity, or when your cows have fallen a prey to disease—perhaps TUBERCULOSIS!

Fairfield's Blood Tonic and Milk Producer

keeps your cows from getting in that condition. It is a Scientific preparation specially compounded for animals that have FOUR stomachs and chew the "cud." It makes the winter foods easy to digest, saves the wear and tear on the digestive organs, and enables the cow to secure all the nutriment her food contains and turn it into the products that fatten her owner's pocket-book. Fairfield's Blood Tonic for Cattle only prevents and and cures disease by removing the cause.

IT EXTERMINATES GARLIC

when Fairfield's Blood Tonic for Cattle Only is fed regularly, and three-quarters of an hour before milking, it will positively remove all taint and taste of Garlic from milk and cream. Fairfield's Blood Tonic and Milk Producer makes cows give more, and richer milk; makes calves strong and healthy and causes steers to fatten in half the usual time. The dose is One Tablespoonful and a 50c package contains 60 doses—making it the most economical Conditioner on the market. It is sold under written guarantee by

BY PER CENT.

Is one of the best and surest plans. Make it a rule to deposit a certain per cent. of your income or salary on pay day. Consider that this per cent. is an insurance against the future. Look upon it as a debt which must be paid (all debts should be paid), and figure that this portion is not available for current expenses.
