Not Coughing Today?

Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says. He knows. No alcohol in this cough medicine. *J. C. Ayer Co., Lowell, Mass.*

There will be no session of the Wilmington Conference in Smyrna next March. The quarterly conference at its last session authorized the pastor to inquire into the possibility of entertaining the next session of the Wilmington Conference, but after going into the subject thoroughly, the conclusion has been reached that it is not practical to extend the invitation at this time. CHRISTIAN SCIENCE.

Editor of the Union:

While glancing over your valuable paper last Thursday morning, I observed a communication referring to the editorial in the Greensboro Free Press, of September 16, 1910, about Christian Science, and as I approve of the editorial, I feel it my duty to defend the editor of the Free Press, and I also wish to state that I at the same time voice the sentiments of nearly every fair-minded and good-thinking person in Caroline county. Let me state here a few cases that have come under my personal observation—right here in this county. I know of one family that has almost been broken up by Christian Science. The family, until about two or three years ago, was a very happy one, but one member, who was in very poor health, was advised to try Christian Science and since that time there has been considerable trouble and his health has continued to grow worse. Another case is that of a little girl who has been allowed to suffer, and almost became a cripple on account of the parent being an advocate of Christian Science. Still another case; this one being that of an aged lady who was advised to try Christian Science and nearly lost her life by delaying medical attention. I could recite many instances where people have been led to try Christian Science without any results.

There is no wonder that these Christian Scientists can pay for most everything when their charges are so exorbitant. They will pay $3 for a line of advertisement in a Christian Science journal and kick like a mule if a country editor charges the 10 cents per line. Christian Science is something like whiskey, and in fact, just as harmful. When a person becomes mesmerized by this cult they will suffer pain and agony and give them their last cent for which they don't get anything but a lot of rot. It is a great money making scheme, from start to finish, and not worthy of its name. It should have been named "Money Making Science."

MRS. MAGGIE G OWENS DEAD.

Mrs. Maggie G. Owens died at the home of her son, Attorney F R. Owens, of this place, of internal tumor about 5 o'clock on Friday afternoon, in the 70th year of her age. She was a native of Delaware and the daughter of the late Nathaniel C., and Matilda M. Powell. In 1861 she was united in marriage with Dr. Frederick J. Owens of Milford, whom she survived about four years. Two children were born to them, Fred R. Owens a prominent member of the Caroline bar, and the late Natilka P. Deweese, widow of the late W. H. Deweese, of this place.

Mrs Owens was a member of church from early girlhood, and throughout her seventy years lived a consistant and consecrated life."Pure as gold" was a tribute paid her by one who knew her, and another who had known her well for more than 40 years says: "She was a good woman,always the same. I never heard her speak an angry word or say anything unkind to any one." Beautiful tributes these, but she lived throughout, a beautiful life, and its recompense is praise. Besides her son, Mr. Fred R. Owens, one brother, Mr. Pulaski H. Powell, of Denton, survives. Funeral services conducted by her pastor, Rev. E. P. Roberts, were held at her late home at half-past ten on Monday morning and interment was made in the family lot in Denton cemetery. The funeral was largely attended many friends from Delaware being present.

Fatally Burned and Shot.

Herman Prattis, 2-year-old son of Herbert Prattis, colored, of Federalsburg, was fatally burned while his mother and father were working in a nearby canning factory on Friday afternoon last. The factory employes saw the child run out of the house enveloped in flames. Before assistance could reach him all his clothing was consumed and the boy had fallen unconscious. He died within a few hours.

While playing with an "unloaded" pistol at the home of Robert Johnson, colored, near Federalsburg, on Sunday, Charles Hammond, 13 years old, shot and mortally wounded the 13-year-old son of Johnson. The victim died Monday in the Cambridge Hospital, where he was taken soon after the accident. Another case of "didn't know it was loaded."
