The whole front on the falls is permanently secured with large logs, where there is a sufficient depth of water to admit scows or other flat-bottomed vessels to lie alongside the wharf. It is as fine high, dry, healthy situation, as perhaps any in this city; affords excellent water; and from its situation can never be injured by the rising of the water in the falls.—This property is most unquestionably among the first situations in the city for a brewery, distillery, any kind of manufactory, or for private building.
