When the frost is coming out of the ground in the Spring is one of the best periods of the entire year for an effective use of the split log drag on the roads. Its use will not be timed by a previous rain, as is the requirement of summer dragging, but any day when the roads thaw out presents an opportunity for satisfactory work with the drag. Roads dragged in the early Spring will be the first to take form.

The meeting of the Denton Literary Club for this week will be held on Friday evening. Mr. Walter R. Gale, a teacher of Art in Baltimore, will lecture on art appreciation. He will illustrate his lecture with lantern views of famous painting and some charcoal sketches. The public is cordially invited to attend. Mr. Gale will be given a reception by the club after the meeting at the home of Mr. and Mrs. T. P. Fisher.

Owing to the probable inability of our School Board to comply with the State law with reference to securing necessary additional rooms for practical laboratory work and Domestic Science, it is feared that the Denton High School may lose the appropriation from the State as well as being dropped from the list of accredited High Schools. The school might be maintained without State aid if the special subjects drawing, music, manual training and commercial work, as well as the two subjects refered to above were abolished.

Early on Friday morning last Ann Gibson, colored, wife of Montgomery Gibson, was found dead at the back gate leading to the residence of Mr. John Horsey. She had come from her home near New Bridge a few days before and had been assisting with the housework of the family. The evening before her death she attended an entertainment at the colored peoples hall, leaving about 11 o'clock. The appearance of the body indicated that she died of indigestion or heart trouble, caused by indigestion. Justice Steele did not think an inquest necessary, and the funeral took place on Sunday.

Warning To Potato Growers.

The short crop of Irish potatoes in the United States last year has led to the importation of large quanities of European potatoes. Much of the importations are from regions infected with the potato wart disease, much more destructive to the potato than any of our blights or scab. It converts the tubers into a rough, unsightly mass, and in many parts of Europe it has seriously damaged the potato industry. It has spread over Europe in recent year and has already appeared on this side of the Atlantic in Newfoundland.

Canada has quarantined against regions in Europe and Newfoundland infected with this disease, and because the United States has no law to prevent the introduction of potatoes from infected counties, Canada is now also barring out our potatoes as a necessary means of keeping the disease out of her fields.

Maryland potato growers should take warning not to plant any imported potatoes as they may contain the disease without it being seen. If the disease appears once in our fields, it will be practically impossible to eradicate it.

J. B. S. NORTON,
State Pathologist.

R. G. Collins, Postmaster, Barnegat, N. J., was troubled with a severe la-grippe cough, He says: "I would be completely exhausted after each fit of violent coughing. I bought a bottle of Foley's Honey and Tar Compound and before I had taken it all the coughing spells had entirely ceased. It can't be beat." Sold by C. H. Redden, Denton Md.

On S ... L. E. Barrett, of Chestertown, was about to retire he was called to the door by four young people, two of whom desired to be married. Louis Vane and Miss Emma Leager, of Queen Annes county, produced a marriage license issued in Queen Annes county. The parson informed them it would be unlawful for him to marry them in Kent county. The young couple were very much worried about what to do. Dr. Barrett proposed that they go to the Queen Annes side of Chester River Bridge and the suggestion was eagerly accepted, and by the light of a lantern and the moon the service was read and the young couple departed satisfied and happy.

HIGH SCHOOL NOTES.

The graduating class of the Caroline High School numbers twelve—four boys and eight girls. The principal speaks in highest terms of these young ladies and gentlemen, stating that they are co-operative in the work of the school, of good deportment, and set an example worthy of emulation by the other students.

Following is a roll of the class with the subjects of their essays. (These they have already finished):

Margaret J. Redden, "Value of Music in a High School."

Rosa Allen, "The Other Fellow."

Florence Downes, "Function of the Church."

Gladys Wright, "Woman in the Crisis of History."

Elva Perry, "What can be done to Hold Young People in the Country."

Bessie Baker, "The Mission of the Country Newspaper."

Mabel Beasley, "The South, the Land of Opportunity."

Hilda Turner, "Women in Politics."

Roland Seeders, "The Abuses of Party Government."

Jack Barnhart, "Boss in Politics."

Stephen Shipman, "Social Responsibilities of Citizenship."

Clifford Raughley, "Function of a Country School."

Arrangements are being made for a trip to Annapolis during the month. It is the purpose to invite the graduating classes of all the high schools in Caroline County to make up the party.

The anniversary of the settlement of Maryland will be appropriately celebrated in the high school on Monday, March 25th. The topic for study at this celebration is: "The First Fifty Years of Maryland's History.

C. A. Glossner, 24 Ontario St., N. Y., has recovered from a long and severe attack of kidney trouble, his cure being due to Foley Kidney Pills. After detailing his case, he says: "I am only sorry I did not learn sooner of Foley Kidney Pills. In a few day's time my backache completely left me and I felt greatly improved. My kidneys become stronger, dizzy spells left me and I was no longer annoyed at night. I fell 100 per cent better since using Foley Kidney Pills. Sold by C. H. Redden, Denton Md.

RID

The new barn and fine heard of cattle of the Saulsbury Bros., is attracting much attention.

TIME TO SPRAY.

Now is the time for all growers to make arrangements for treating fruit trees for the San Jose Scale. The best all round remedy is the concentrated lime-sulfur mixture. This wash can be bought or made at home depending upon the inclination of the grower. Bulletin No. 161 of the Experiment Station, College Park, Md., which can be had for the asking, discusses the manner of making and use of this remedy. All trees should be sprayed before the buds open.

All fruit growers who have neglected orchards near them which are a menace to the vicinity, should notify the officers of the State Horticultural Department, at College Park.

All Osage Hedges should be gotten rid of as far as possible, as they serve to spread the scale. If kept, they should also be sprayed.

The Maryland Agricultural College and Experiment Station desires to conduct as many spraying and pruning demonstrations in different parts of the State as means will permit, to show what may be accomplished by up-to-date methods of treatment. Any person or persons who are particularly interested in promoting this work should communicate with the undersigned.

THOMAS B. SYMONS,
State Entomologist.

The "Child's Welfare" movement has challenged the attention of thoughtful people everywhere. Mothers are natural supporters, and will find in Foley's Honey and Tar Compound a most valuable aid. Coughs and colds that unchecked lead to croup, bronchitis and pneumonia yield quickly to the healing and soothing qualities of Foley's Honey and Tar Compound. Sold by C. H. Redden, Denton Md.

February was Below Normal.

The temperature for February was slightly below normal, as compared with the records of the months in the last forty years, according to the report of the Weather Bureau issued this week. The mean for the month was 32 degrees, as compared with a normal of 34.6 degrees.

There were a very few cold days, the coldest being on the 11th, when the theromometer registered as low as 6 degrees. The warmest day was the 25th, with a maximum of 58 degrees. The absolute maximum recorded in fortytwo years was 78 degrees and the lowest was 7 degrees below zero.

The amount of rainfall showed a considerable decrease, for 2.75 inches fell, as compared with an average of 3.63 inches. Added to the deficiency that occurred in January, the rainfall for this year is 1.47 inches less than the average for the two months. In February there were 14 clear days 7 partly cloudy, 8 cloudy, and 6 upon which more than .01 inch of rain fell. The heaviest rain was on February 21, when 1.26 inches fell.

SETH LOW FOR TAFT.

Former Mayor Seth Low, of New York, who was in Washington a few days ago when in that city attending the twelfth annual congress of the National Civic Federation, has taken this occasion to declare for President Taft, and strongly recommend his nomination and re-election. Speaking of the situation, Mr. Low says:

"I am more sorry than I can say to be obliged to choose between President Taft and Mr. Roosevelt for the Republican nomination, because I have the highest regard for both men. Under all the circumstances, however, I think that President Taft fully deserves a renomination at the hands of the party. I am among those who want to see the Republican party a progressive party, and I am very much in sympathy with Mr. Roosevelt's way of looking at things. Especially I agree with him in thinking that the short ballot is among the most important of reforms.

"I recognize, however, that it is much easier to be progressive out of office, without responsibility, than to be progressive in office, with responsibility. Judged by any fair test of accomplishment, I think the administration of President Taft fully deserves to be called progressive, as was pointed out by Secretary of War Stimson. in Chicago. If, however, the test of progressiveness is to be the willingness to accept the initiative, the referendum and the recall, and the submission of the decisions of the courts on constitutional questions to popular vote, I am unable to meet the test.

"I am glad to give whatever influence I have for the renomination of President Taft. His administration, besides being reasonably progressive, seems to me to have been exceedingly efficient on the administrative side, and to have been animated by the purest possible patriotism on the part of the President himself."—The Star.

FOR FLETCHER'S
CASTORIA

Harry W. Nichols, whose home is in Kansas City, Mo., writes to friends in Talbot telling of the very heavy snow storms raging in Kansas. He said he knew one farmer who lost 86 cattle and another 37 fine pen hogs. This stock perished in the snow drifts before they could be reached.

Some days ago a ballot box was placed in the corridor of the Hotel Richardson, at Dover, and patrons, especially drummers and agents who stop at the hotel, were asked to vote for their choice for the nomination for President of the United States. The box was opened on Saturday and showed the following results:

Bepublic n—Roosevelt, 15; Taft, 8; Hughes, 1.

Democratic—Champ Clark, 8; Wilson, 7; Harmon, 2; Underwood, 1; Douglas, 1; Martin, 1.
