POCKET BOOK LOST.

ON the 19th of December, in Chestertown, somewhere between the Transcript office and the Voshell House or the Rising Sun Saloon, a common sized Pocket Book of good quality, containing a small sum of money, a good many receipts, one note, and other papers. A liberal reward will be given by the owner, if left at this office.
December 30, 1865—3t.

REMOVAL.

THE subscriber having moved his place of business, can be found hereafter NEXT DOOR ABOVE THE BANK, up stairs. Feeling very grateful to the public for the very liberal patronage he has received, hopes by strict attention to merit an increase of the same. CUTTING done at short notice.

J. J. PEARCE,

NOTICE.

THE time has again arrived when, by Conventional agreement with the Physicians of Kent County, we are by honor bound to demand settlement on all Medical accounts. The necessity of yearly settlement must be apparent to every one, as it is impossible for us to give correct returns to the Collector of Incomes: some that are good this year moving off without payment, becoming insolvent, disputing accounts, or asking abatements after they have become large from allowing them to remain unsettled for twenty or more years; such a system is ruinous to any business.

I am aware of the inconvenience and sometimes the impossibility of complying at all times with our pecuniary obligations, but the ability to give a note, due-bill, or acknowledgment of indebtedness is within the power of every one.

I therefore request all who are indebted to call and settle on or before the first day of March next, as all unsettled accounts will be proceeded upon as soon as possible after that time. I have also a number of notes which have been due a long time, and a number of them Vendue notes, which must be paid or renewed immediately.

I hope after the disposition I have shown to indulge, the great inconvenience and loss I have sustained, no one will feel that I have treated them unkindly.

My Books are at my residence, and Charles H. Wickes may most generally be found there, and is authorized to transact any business for me.

THOS. H. WHALAND.

N. B.—I shall continue to charge interest on accounts. T. H. W.

RAIL ROAD MEETING.

NOTWITHSTANDING the heavy rain and difficulty of traveling, quite a considerable number of the friends of the proposed Rail Road through Kent county, attended at the Court House in Chestertown on Thursday last; several thousand dollars of additional Stock was sold and a free interchange of opinions and views was had in reference to this great and interesting work. The Stock Book is at the Bank. It is of the utmost importance that subscribers for Stock should sign upon the large Stock Book. The small books are at the Bank and whenever an equal or larger amount is subscribed upon the large book, the name will be erased from the small book, upon which it was previously recorded. Until the large book is subscribed, steps cannot be taken to organize the Company and secure the State's subscription.

Let no one delay calling at the Bank and subscribing. A few thousand dollars additional is all that is necessary to obtain the State's aid. Persons desiring the road to pass through their neighborhood would do well to subscribe, or increase their subscriptions, as every share that may be taken will entitle them to a vote, and they may thus contribute to influence the location of the road. No one can scarcely surmise where the route will be, as it will have to be surveyed by competent Engineers who will report plans and estimates of cost, for the consideration of the Board of Directors, who are to be chosen by the Stockholders. What is *now* of most importance, is the proper subscription for Stock and increased subscriptions. It has been estimated, by intelligent gentlemen, that the Farmers and Fruit Growers in our county have lost by reduced prices in consequence of a want of means of forwarding their produce of the soil and trees, to a choice market, within the last five or six years, enough to have constructed the road.

Notice of the next meeting will be given through the press.

SEWING MACHINES.

The following facts demonstrate that these Machines comprise the HIGHEST IMPROVEMENTS IN THE SEWING MACHINE ART, viz:

1. Each Machine is guaranteed to give better satisfaction than any other Sewing Machine in Market, or money refunded.
2. They have taken many of the *heghest premiums* at the most important *exhibitions* and *fairs* ever held in the United States.
3. They make the *lock stitch* alike on both sides—thus saving more than half the thread and silk used in the raveling-ridge-seams of the loop stitch and single-thread Sewing Machines.
4. They are adapted to the widest range of heavy and light sewing.
5. They have no rattling wires, or delicate attachments to keep in repair.
6. They require no taking apart to clean or oil, and no "Lessons" to set needle, regulate tension, or operate Machine.

Please call and examine, and demonstrate for yourself, or send for *Circular*, with samples of sewing.

Rhodes,
Successor to the late H. Peck,
BOOT AND SHOE ESTABLISHMENT,
No. 159 Pratt street, Baltimore.

BOOTS AND SHOES.

In soliciting the patronage of the inhabitants of Baltimore, in the above business, asks to invite their attention to a few plain facts in connection with the art of Boot and Shoe making, and particularly to the fitting of the same. Being fully convinced that the pain and inconvenience under which so many persons suffer arises from unequal pressure on certain portions of the feet, which causes corns, bunnions, and other unnatural formations of the foot, may be removed with due attention to the formation of the boot or shoe.

S. P. RHODES
guarantees
A GOOD AND EASY FIT.

Each article being made under my own superintendence. It is an indisputable fact that corns and bunnions are caused by unequal pressure on the foot; if the boot or shoe, therefore, be not formed according to the position of the foot when the weight of the body presses upon it, there must of necessity, be an unequal pressure, which, with the friction occasioned by walking, irritates and produces those afflictions. Hence, it is from the boots or shoes not fitting the foot properly a defect solely to be attributed to the manufacturer, who may not possess sufficient knowledge of his business, that has caused so many to suffer from the ignorance of the few, both in health and wealth; in the former instance by the pain occasioned by corns, &c., and in the latter by compelling persons to cut their boots and shoes to give ease, or sacrifice such articles before they are half worn out, and inflicting grievous wrong upon the public at large, in regard to that essential point—the properly fitting of the foot.

Boot making ought to be regarded as an important science, although it is generally considered as a very simple business. This arises from the great number of boot and shoe sellers, not manufacturers, many of whom are not in the slighest degree acquainted with the making of either; and many of the articles sold by such persons are frequently made from the one last, as if all person's feet were precisely the same shape, a thing as utterly impossible as it is to see two persons with precisely the same features. The fact, is they are made for sale, and the comfort of the purchaser is not in the slightest degree attended to, while the material is frequently the very worst, the workmanship inferrior, cheapness being the only point considered; but it often turns out the dearest. S. P. Rhodes will not adopt that course, and assures those who favor him with a trial, that the article shall be manufactured of the best material, and best workmanship, and the lowest remunerative prices.

I have now on hand a fine lot of

GENT'S BOOTS, SHOES AND GAITERS.

I take the draft of your foot, so the boot or shoe is shaped to it. Corns cut, and all other imperfections of the feet attended to, without causing the slighest pain.—Persons waited on at their own houses.

Remember the old stand,
No. 159 WEST PRATT STREET.
S. P. RHODES
successor to the late HENRY PECK, who successfully carried on the above business for over fifty years. All measures, books and lasts kept, and I hope the old customers and the public in general will give me a trial.

COPARTNERSHIP.

BALTIMORE, MARCH 1st, 1865.

THOMAS NORRIS, for TEN years past engaged in the sale of *AGRICULTURAL IMPLEMENTS* and Machines, FIELD and GARDEN SEEDS, etc., respectfully informs his friends and customers, that he has this day associated with him Mr. JOEL PUSEY, of Havre de Grace, very favorably known to many of the farmers of Maryland. The business will be continued under the name and style of

NORRIS & PUSEY,

at the old stand, No. 141 PRATT STREET, (near Light.) The senior partner tenders his grateful acknowledgments to his many friends who have so liberally patronized him, and solicits for the new firm a continuation of their favors.

In addition to the old business, the subscribers will be prepared to transact, in an extensive way, the

Lime, Plaster and Cement Business.

Yielding to the solicitations of many friends in the country, they beg to offer their services as

General Commission Merchants

for the sale of GRAIN and all kinds of *Country Produce.*

By a faithful attention to business, they expect to merit a good share of public favor, and ask a continuation of the patronage of old customers, and a fair trial by new ones.

They will continue the sale of *Wood's Prize Mower, Wood's Self-Raking Reaper, Westinghouse's Horse Powers and Threshing Machines, Beckford & Huffman's Grain and Guano Drills, Von Wickle's Grain Fans*, and many other Implements and Machines, of superior merit.

They assure their customers that they are prepared to furnish any article in their line on as good terms as they can be supplied by any house in Baltimore.

Circulars, Catalogues, etc., giving descriptions, prices, &c., will be furnished on application.

THE
SCIENTIFIC AMERICAN
FOR 1865!

VOLUME X.—NEW SERIES.

ONE NEW Volume of this popular Journal commenced on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The 'Scientific American' is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & CO. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry, are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Three Dollars a year or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.
