CHRISTMAS SAVINGS CLUB

is still open for deposits

Begin Now

Come and have it explained

The Christmas Savings Idea is not new, but it is not generally known here how it works.

We will have six classes of savings, which can be worked either up or down, that is, increasing and decreasing each week from the smallest to the largest, until the last week the opposite amount is paid, viz:—

In the 2c class, the first week, paying UP, 2c is paid in; the next week, 4c; the next, 6c; the next 8c, each week adding 2c. At the end of 50 weeks when the Christmas checks are sent out, you will receive $26.74.

If you decide to pay DOWN, $1.00 is paid in the first week, 98c the second, 96c the third, decreasing 2c each week. The last week only 2c is paid, and then you receive a check for $27.09.

The same method applies to the other classes.

4% interest is paid on these acounts as soon as $5 is paid.

How to Save

	SAVING UP	SAVING DOWN
1c CLASS	$12.82	$13.02
2c CLASS	25.71	26.04
3c CLASS	38.56	39.06
4c CLASS	51.41	52.07
5c CLASS	64.26	65.10

The Reason

The colored preacher in Alabama was one day talking to one of his aged parishioners, who ventured to express the opinion that ministers ought to be better paid. "I'se sho' glad to hear yo' say dat," responded the parson warmly. "I'se pleased dat yo' think so moch of de ministers. So yo' think we'd ought to get bigger salaries". "Sho' I does," said the old man. "Den we'd get a better class o' men".
