THE AMERICAN UNION

VOL. LXII—NO. 37. DENTON, MARYLAND, THURSDAY AFTERNOON, MARCH 30, 1922 $1.00 Per Year.

MANY BUSINESS CHANGES IN DENTON IN THE PAST YEAR

It is just a year since The American Union came under the control of the present management. In looking back over that year, we find that there have been many changes in our community during that time. Perhaps you have forgotten or have not realized just what the changes were, nor how many there were, and we are therefore going to try to call to mind the changes as we can remember them and as we can find them according to our records.

As a number of changes later on in the year hinge on the sale of the Blackiston property, corner Main and 2d streets, on the last Saturday of March, one week prior to the beginning of this anniversary we mention it here.

This large corner lot, known as the Blackiston property was sold at public sale and was purchased as follows: The vacant lot at the corner, facing on Main and 2d streets, was purchased by Dr. P. R. Fisher, for the Denton Auto Company, on which location they propose erecting a large garage. On the northeast corner of this lot was a two-story frame building, which was purchased by M. K. Newnam and later sold to Lawrence B. Towers. This building was removed in January, 1922, to North 3d street. William Bullock's garage was sold to Fisher and Roe, who took possession July 1st and have since operated under the name of The F. & R. Garage, handling the Chevrolet. Dr. J. M. Haymaker, of Ridgely, a dentist, purchased the large dwelling at the corner of Franklin and 2d streets, and took possession the first of this year, installing his dental parlors there.

Due to the removal of the small frame building on the Blackiston property on Main street, four tenants were compelled to move: Bradley Studios, which were relocated on the second floor of the Carter block; Mrs. I. S. Hollingsworth, who was closed for two months and is now occupying the store room, formerly Parker's theatre; Mr. John George, butcher, who is temporarily out of business, and the Denton Cleaning & Pressing Establishment, which has been mved to the home of John Emerson, 2d street.

J. Ed Nichols erected a new addition to his store building at the rear of his old store and has added new lines.

Bobby Pitts removed his barber shop from the basement of the Brick hotel to the small building next to J. H. Nichols, formerly Smith's Jewelry store, which was closed, after the death of the proprietor.

E. D. Kimmey purchased the barber shop of Ed Boone, next to Newnam's music store.

Frampton & Dukes sold their interest in the meat market on the north side of Main street to Fred Bowdle.

The Eastern Shore Gas & Electric Company had their offices enlarged, giving them a more desirable location.

William Bullock, temporarily discontinued his garage until Earle White erected a new garage at the corner of 6th and Gay streets, where he does the general repair work and Mr. Bullock handles the agency for the Paige and Overland cars.

The American Union was purchased by G. H. Rue and a month later moved to a two-story building on South 3d street.

Continental Life Agency moved its quarters from the small frame building next the Law building to a room in the C. & P. Telephone building. Camper & Dukes, the two members of the firm, have partially given up their active work in this section, Mr. Camper taking over a section of territory in the Western Shore with Hagerstown as his centre, and Mr. Dukes doing more or less work out of the Wilmington home office. Mr. J. Mulford Swing joined the local agency to look after the business during the absence of the two original partners.

Dr. W. A. Smith removed his dental parlors from the Law building to his residence on Main street.

Death took from our midst an eminent lawyer, J. Kemp Stevens, whose loss will be greatly felt at the term of Circuit court next week.

Hix Long, trading as Long & Beall, failed and his stock of goods in the Carter block was sold at bankrupt sale to J. L. Everngam, who is remodeling the store room adjoining his own store and expects to have his opening next week.

A. E. Miller purchased the D. T. Hammond home, remodeling it to a business place and opened two weeks ago in a very good location on the corner of Main and 3d streets, after being closed for three months. Mr. Hammond who ran a poultry business, has gone to West Virginia.

The American Stores occupy the room vacated by A. E. Miller and have opened a first class grovery store.

John Dyer moved his grocery and meat market to Ridgely near the close of the year and about two months later, died while visiting in Denton.

Denton Candyland & Restaurant now occupy the store room formerly used by Mr. Dyer and gives to Denton a new business which is greatly appreciated.

Parker's New Theatre closed its doors early in the summer of 1921 and the building was purchased by the Nuttle Hardware company. It has been remodeled for a store room.

Bullock's Bargain House on 6th street was purchased by W. E. Straughn who is running it as a grocery and meat store.

J. H. Merryman has opened a small grocery store on Gay street, east of 7th street. He also operates a wholesale candy plant where home made candies can be purchased fresh daily.

H. E. Ramsdell has opened a grocery store at the southern end of 6th street, gving the residents of that section a much needed store.

C. C. Wilson opened the Steam Vulcanizing Company at the bridge and operated same for several months, later removing to Harrington, Del.

Quinn & Stafford opened the Denton Vulcanizing Company on 3d street north of Main. After the death of Mr. C. C. Quinn last fall the place was closed for a short time. M. E. Wilson purchased the plant and has since operated under the old name.

A. L. Morton opened a tin shop on North 3d street, but sickness caused him to discontinue work shortly after and a few weeks later he died.

Anderson & Bailey who operated a clothing store in the Masonic building, opened a shoe store in the basement under the hotel. The first of the year they were forced to vacate their original quarters and secured more room in the hotel building. Mr. William Anderson shortly afterwards sold his interest in the business to his partner, R. H. Bailey.

The Brick Hotel was sold by Captain William Wright, of Baltimore, to Porter, who has operated same since the first of the year. Mr. John Baggs, who for a number of years leased the hotel, has retired from active duty for a short time.

O. C. Bowdle took his son Layton into partnership with him in the meat shop on Third street.

Samuel G. Nuttle has as a partner H. Earle Smith. Mr. Nuttle will this week take charge of the Denton post office as its new postmaster, Mr. A. E. Cooper retiring.

Ernest Murphy purhcased the grocery store of Linwood Eaton on 6th street.

PARK AT WILLISTON TO BE OPEN SOON

Residents of Denton are at last to have the benefits of a park. Even tho the park is a few miles from the town limits, it will afford a place for those desirous of getting away from the cares of home and office for a few hours to go.

This park which is planned is at Williston where so many had such fine times last year bathing and dancing. Mr. Gilbert Hignutt promised last year that before another season rolled around he would have a park that would be a credit to Denton and he is keeping to his promise.

Workmen are now preparing the grounds for those who will come there during the hot summer days to enjoy themselves.

The park will begin at the steamboat wharf at Williston and run north for some 200 or 300 feet with a fine 10 foot cinder path along the water's edge. At the northern end of the walk will be a dancing pavilion, now under course of construction 70 by 35 feet which will extend out over the water on piles for about 60 feet, thus insuring those who dance the coolness of the river breezes, unbroken by anything. At the entrance to the pavilion will be a large soda fountain with a large porch in front for tables.

Leading from the pavilion will be found a path or steps to the top of a ridge where four acres of ground will be at the disposal of motorists for parking purposes.

Along the top of this knoll will be tables and benches for that which is one of the most important parts of a picnic—the eating of picnic dinners.

This knoll has been sloped off gradually to the water's edge and will be planted in grass, shaded by the large trees already on the grounds. Several of the springs have been drained to the river, while others have been held captive in quaint little spring holes for drinking purposes.

Along the walk will be benches and one or more booths where candy, hot dogs, cigars, ice cream, etc., can be purchased.

Besides the dancing, there is bathing for all who like that sport and it is expected that bath houses will be erected near the steam boat wharf.

Dancing will be indulged in three times a week, with an excellent band to furnish music. It is the hope of Mr. Hignutt and others interested with him in this project that it will become a universal playground for all in this section.

REV. V. E. HILLS RETURNED TO DENTON

M. E. Conference at Cambridge Had Successful Session Not Many Changes

MEET AT CHINCOTEAGUE

Cambridge, March 27—Much to the surprise of many here, the Wilmington Conference adjourned today without Bishop W. F. McDowell making a single change in the district superintendents.

The Bishop made it clear that while he welcomed suggestions of the laity he could not change a rule of the church. So far as pastoral appointees were concerned, it was very evident that the many delegations might just as well remained at home.

In the closing sermon of the conference, Dr. Clarence True Wilson, secretary National Board of Temperance, Washington, hurled condemnation against the "press" generally, and the Baltimore Sun particularly., He asserted that the newspapers got the two-thirds of the $2,000,000,000 raised for propaganda by the "bootleggers." He told his hearers that The Sun and papers of "like class were working the blue law agitation as a camouflage for the prohibition situation" and that "papers were not run for conscience but for coin"; that "even if communities were 'dry' the papers were 'wet' because they were purchased."
