CAMBRIDGE:

MONDAY, JULY 16, 1838.

REPUBLICAN NOMINATION.

FOR GOVERNOR OF THIS STATE,

WILLIAM GRASON,

OF QUEEN ANNES COUNTY.

Congress adjourned on Monday last, after a most protracted session of seven months.

RESERRECTION NOTES.—A Bill has passed both branches of Congress, and received the approval of the President, making it a severe penal offence, for any of the officers of the present Bank of the U. States to re issue the notes of the old Bank. Mr. Biddle will not consider this any compliment paid him.

The trial of Wm. Stewart, accused of the murder of his father, has been postponed until October, by the Baltimore City Court.—Josiah Bayly jr. Esq., of this place and Mr. Preston, of Baltimore, are counsel for the prisoner.

THE VILLAGE HERALD.—In the paper before our last, some remarks were introduced, in reply to an editorial of the "Herald." As that paper appeared to labor under a mistake, in regard to the method upon which this press was conducted, our object was to furnish such a frank statement of our relations as would prevent unpleasant misconception—We certainly did not deem it incumbent upon us to take personal exception to the original article of the Herald, for it savored not of asperity, and all intention to give offence was expressly negatived by the terms used. Indeed our opinion of the Editor's *bonhomic*, towards us, forbade us from supposing that he intended to give occasion for serious quarrel. The effusion it is true, seemed irregular to us. However, under our construction we did not wish to indulge in any unkind feelings in reply, but designed merely to adopt that explicit course which would, at once, as we thought set matters right. It occurred to us that the Herald would, upon a moment's reflection, concur in the propriety of our suggestions, and not consider them in the light of a "grave lecture." But we have been disappointed. In an additional article, that press with a diffusiveness of style and an adroitness of insinuation, well calculated to provoke and engender harsh feelings, has thought proper to meet our candid *expose*. We must confess we could not have expected such a rejoinder from the Editor of that paper.—We are perfectly surprised and mortified at such a display of disingenousness and want of good feeling. Because it was at the first blush stated that Mr. Stewart did occasionally, and frequently, write for this paper, and held himself solely accountable for his own productions when they gave offence, which statement was made to rebut any charge that might be adduced, that missiles were thrown from a "masked battery" on his part, and not in a vain spirit of bravado,) the Editor of the Herald avails himself of the opportunity to discourse of his own responsibility—his independence, and that he does not seek shelter behind "hammocks and everglades." All these annunciations are mere gratuitous expletives. Did any body doubt his full responsibility? Did we assail him on any such ground? It must be recollected that we did not commence this interchange of *compliments*. Because we thought proper to furnish our readers with our speculations upon the probable result of the election in this part of the State, was that any reason why the Herald should look behink the ostensible and real Editor of this paper and involve the proprietor? We think not. We repeat we could not have anticipated such an interferance. Does the Herald mean wantonly to assail us, and introduce matters and reminiscences totally irrelevant to the true issue between us. We put it to the candor and fair dealing of that print, to say whether such a course is generous and in accordance with liberal discussion. If such a mode were defensible, using the *argumentum ad hominem, et ad captandum*, we might retort upon the political vicissitudes of the Editor of that press; but our feelings towards him, respect for ourselves and our regard to absolute propriety, would all imperiously prevent us. Have we not a right to speak of the politics of Somerset, aye *Somerset*, ominous word, as much so as of any other county? But when Somerset is introduced, we are sorry to see that the Editor of the Herald is as *touchy* and sensitive as an old maid (Heaven save the mark,) would be, were matrimony talked of in atrue lover's style.

He speaks of Somerset, as if he had that County in a sling. Talks of the high souled feeling of the whigs of that county and of their utter disregard of the witcheries of office—that they are not of the spoils party—pray from what party comes the mass of office-holders in that County? In the same extravagant strain. the Van Burenites, and those who seek a change in the rulers of the State, are treated as if they were the greatest demons from Pandemonium, whilst the immaculate whigs are the very best saints in the calendar! Is this treating your opponents fairly? Are not the V. Buren men endowed with reason & with as high attributes of moral worth in private life as the whigs? The Editor of that paper will not certainly deny this—Where then is his respect for invincible difference of opinion and deference to the opposing views of others.—"Do unto others as you would have others do unto you" is the golden rule. We are not the monsters that a fitful fancy may conjure up, nor do we look upon the whigs as "gorgons dire." Nay, nay, thousands of them, we have cause to respect and esteem. Tis but a difference of political opinion that divided us, and he who would carry these differences into the sanctuary of private life deserves the deepest execration, and is a traitor to the best interests of society. Finally, we must believe, until the contrary appears that the Editor of the Herald, pened his last article, under the influence of the atmosphere of some of the late scorching hot days. When the air becomes cooler, after the dog days, at all events, when the frosts of winter approach, we have no doubt, he will find it much more agreable to curb the ireful and wild vagaries of his untoward pen. If the Editor means to get into a serious quarrel with us, which we are so stoical as to deprecate and would feign disbelieve, he should candidly let us know, when the change came over him, and what are to be our relations in future—if this is not his intention, justice to us and himself requires that he should so directly state, for certainly his late effusion, smacks strongly of ill feeling, perfectly unprovoked & unexpected from such a quarter.

AT a meeting of the Commissioners of the Town of Cambridge on Wednesday, the 11th July 1838, the following resolution was adopted, viz:

Resolved, That no person whatsoever shall be permitted to deposit fresh fish for sale upon any platform or other fixture on any of the streets in Cambridge, or expose them for sale in carts or wheelbarrows, after the said carts or wheelbarrows shall be suffered to be stationary for one hour or a longer period, (except at the foot of the streets where they land,) under the penalty of two Dollars for every offence. This ordinance to be in force from and after the 18th July, inst., provided the same be published in the Cambridge Chronicle and Dorchester Aurora on the next days of their publication.

By order of the Board,
WILLIAM REA, Clerk.

July 16

Dorchester County Orphans' Court, 9th day of July 1838.

On Application of Phillip H. Graham, Administrator of THOMAS H MEEKINS, late of Dorchester County, deceased—it is ordered, that he give the notice required by law for all creditors to exhibit their claims against the said deceased's estate, and that he cause the same to be published once in each week, for the space of three successive weeks, in the Dorchester Aurora, a paper selected by him.

In testimony That the foregoing is truly copied from the minutes of the proceedings of Dorchester County Orphans' Court, I have hereunto set my name, and the seal of my office affixed, this 9th day of July, in the year of our Lord, 1838. (L. S.)

THOMAS H. HICKS,
Register of Wills, Dorchester County.

In compliance with the above order,—This is to give Notice, that the subscriber of Dorchester County hath obtained from the Orphans' Court of Dorchester County, in Maryland, letters of Administration on the personal estate of Thomas H. Meekins late of Dorchester County, deceased. All persons having claims against the said deceased, are hereby warned to exhibit the same, with the vouchers thereof, to the subscriber, on or before the 9th day of January next; they may otherwise by law beexcluded from all benefit of the said estate.

Given under my hand this 9th day of July 1838.

PHILIP H. GRAHAM, Adm'r.
of Thomas H. Meekins.

IMPORTANT TO FARMERS.

A NEW AND IMPROVED
PORTABLE HORSE POWER AND THRESHING MACHINE.

Having obtained Letters Patent, bearing date Feb. 6th, 1838, for an improvement on a *PORTABLE HORSE POWER*, for propelling Threshing Machines, Clover Mills, Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consists in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings being surrounded with oil cups, which retain oil sufficient for one day, without replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect, and hazardous to those who may superintend them, consequently produced by applying oil during the operation or from a neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by nutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain, it also answers the purpose of cleaning clover seed, and with my late improvement is far superior to my former machines.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufactory, north of Brandywine village, Del., where orders will be received and the machines sent to any part of the neighboring States. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Delaware, Chester and Lancaster, Pa.; New Castle, Kent and Sussex, Del.; Cecil, Kent and Harford, Md; Salem, Cumberland, Gloucester, and Burlington, N. J., where these machines have been justly celebrated and given entire satisfaction. JESSE URMY.

P. S.—Corn shellers made to order of the latest improvement Also, repairing Horse Power, will be attended to with fidelity and despatch, at his manufactory, north side of the Brandywine, near Wilmington.

General Agent for Pennsylvania, Maryland, Delaware, &c. No 3 1 2 south 7th st. three doors below Market st. Philadelphia, and No 10 North st. Baltimore, near the Post Office.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of the British College of Health, London. Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepsy, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions, fistula, piles, structures, ruptures and syphilisis in all its stages; constipated bowels, worms, scurvy, itching of the skin, kings evil and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names; as the Hygeian conviction is, that *man is subject to only one real disease*, that is, to the IMPURITY OF THE BLOOD, from which springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion or bodily strength, and without the fear of catching cold or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken in excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as the body; first calming, then curing all mental derangements, eccentricities, nervous affections, irritabilities and restlessness, from whatever source,—complaints, which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing

The being cured of any disease, infirmity, orsore, is now no more a dubious or uncertain proceedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1, and No. 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No. 2 Pills carry off those and the serious acid and putrid humors, incidental to the body: and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimonious phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The powder in boxes 37 1-2 cents.

CAUTION.—Medicines of such great virtue as these, have been, and will be most certainly counterfeited. To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures of the agent for the district, and the actual seller of the medicine.
