CAMBRIDGE:

MONDAY, SEPTEMBER 10, 1838.

REPUBLICAN NOMINATION.

FOR GOVERNOR OF THIS STATE,

WILLIAM GRASON,

OF QUEEN ANNES COUNTY.

REFORM CANDIDATES.

FOR THE SENATE.

THOMAS BREERWOOD.

FOR THE ASSEMELY.

JOHN ROWINS,
PHILLIP GRAHAM,
GEO. A. Z. SMITH,
WM. GEOGHEGAN.

Republican nomination for Worcester.

FOR THE SENATE.

LAMBERT P. AYRES.

FOR THE HOUSE OF DELEGATES.

ELISHA E. WHITELOCK,
DR. CHESED PURNELL,
LEVIN G. IRVING,
CAPT. JAS. M. HOLLAND.

We learn that the Republicans of Talbot county have nominated the following gentlemen:—For State Senate, Nicholas Martin, Esq.; for the House of Delegates, Francis P. Thomas, Daniel Lloyd, and M. O. Colston, Esqrs.

The Maine election commences to day, Mr. Fairfield is the Democratic candidate for *Governor*, and his success is almost certain over his whig opponent. We shall carry the whole State by a large majority.

In the month of October, elections will be held in Georgia, South Carolina, Pennsylvania, Ohio and Maryland, in all of which the triumph of Democracy is certain.

The Somerset Herald talks of having a barbecue in this Congressional District, after the election, in honor of the tremendous victory, that is to be gained by the whigs of this District—provided he can win money sufficient of the Van Buren party to defray the expenses. The Herald has intimated that he will honor us with an invitation to the feast; but we cannot promise to attend, as we expect to be engaged in preparing to celebrate the triumph of Grason and Democracy in the State, about that time It is likely we shall *think* of the Editor of the Herald, and send him a bid.

OYSTER LAW.—As the law which passed at the last session of the Legislature, in regard to oysters is one of a highly penal character, and may be innocently violated through ignorance, we have given place to its publication below.--It will be found to be a harsh and severe enactment in many respects.—Should the navigators of vessels which sail from this county, to Baltimore or elsewhere, casually catch oysters, in any river or creek, out of the limits of the county in which they reside, they will be liable, under this law, to a fine of not less than $5, nor more than $50, and the vessel, and her papers, furniture, tackle and apparrel, and all things on board of her at the time of her seizure, are to be adjudged forfeited. In fact, she is treated some what as a piratical cruiser, and upon seizure, is sold to the highest bidder, and the proceeds divided amongst the captors. The law gives no right of appeal—a heavy and enormous power therefore is reposed in the Magistrate, who undertakes to try the cause.—Where is there the right of a jury trial given by this law, to the aggrieved party? It cannot be found. The 4th section of the law, although somewhat mysterious in its meaning, appears to prohibit persons, other than residents of the counties bordering on the same, to take, carry away, or *otherwise destroy* any oysters within 500 yards of the shore, in any of the waters of this State.—Now the most effectual way of destroying oysters is by *eating them*. It seems therefore that this 4th section restricts a certain class of persons therein mentioned from *eating oysters*, under force of the words "otherwise destroy." We proceed to publish the law at large.

CHAPTER 310.

A supplement to an act, entitled, an act to prevent the destruction of Oysters in the Waters of this State, passed December session eighteen hundred and thirty three, chapter two hundred and fifty four.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That from and after the passage of this act, the powers and authority granted in the law to which this is a supplement, to the sheriff of the counties, shall be, and are hereby granted to call Constables, and all other officers, civil and military, to carry into effect, the provisions of that law, and of the several sections hereinafter contained, and that the mode of proceeding under this law, shall be such as is therein prescribed for the action of the Sheriff.

SEC. 2. *And be it enacted*, That from & after the passage of this act, it shall not be lawful for any one to catch or take from, the creeks or rivers within the limits of any counties, in this State, oysters with tongs, rakes or any instrument whatever, unless the party so catching or taking, shall be at the time thereof, a resident of the county in which such creek or river lies, and in those cases in which a creek or river shall be the divisional line between two counties, the privilege of taking oysters therefrom, shall belong to the residents of said counties so divided, in common, and to none other.

SEC. 3. *And be it enacted*, That for every offence committed against the provisions of this law, or the act to which this is a supplement, the offender upon proof adduced before a justice of the peace of the county within which the offence shall be committed, or if committed within the waters of a creek or river dividing two counties, the justice of the peace of either thereof; and upon conviction of the same, shall be subject to a fine of not less than five dollars or more than fifty dollars, to be levied upon the body, goods and chattels of the offender, and the said justice shall adjudge and condemn as forfeited, the boat or vessel, in possession of the party so offending, together with her papers, furniture, tackle and apparel, and all things on board of her at the time of her seizure, and shall sell the same, to the highest bidder after ten days notice.

SEC. 4. *And be it enacted*, That from and after the passage of this act, it shall not be lawful for any person or persons, other than residents of the counties bordering on the same, to take, carry away or otherwise destroy, any oysters within five hundred yards of the shore, in any of the waters of this state, and that for every offence against this provision, the same penalties shall be attached, imposed and executed, as are prescribed in the aforegoing sections

SEC. 5. *And be it enacted*, That all the powers granted to the sheriffs in the sixth and other sections of the act to which this is a supplement, shall be and are hereby granted to the officers mentioned in the first section of this act.

SEC. 6. *And be it enacted*, That after the payment of the costs of prosecution of offenders under this law, and the act to which this is a supplement, the balance arising from the fine and sale of the boat or other articles herein before mentioned, shall be apportioned in the following manner, one fourth thereof to the sheriff or other officer making the arrest or seizure, and the balance among those whom he may have summoned and who have aided in the same.

SEC. 7. *And be it enacted*, That all laws or part of laws inconsistent with the provisions of this act, be, and they are hereby repealed.

For the Aurora.

Mr. Editor: There appeared in the Chronicle of the 11th ultimo, a communication over the signature of "a whig," charging me with duplicity in regard to the Primary School law, which from its bare faced and wanton attack, I am compelled to notice —I do, without any hesitation, pronounce the charge to be destitute of Truth. It is there asserted that I was at one time *opposed* to the said law, and at another in *favor of it*,—and that after hearing the said law was a popular measure in Parson's Creek District, I authorised a friend to inform the people of the said District that I was in favor of the law. I now produce the certificates of those friends refered to in the Chronicle, denying the charge that I was opposed to the *whole* law but only a part of it; and I do also most positively deny that I ever sent any word whatever respecting the Primary School law to the people of Parson's Creek District by any mortal living. I now for the satisfaction of the public, produce the certificates of Messrs William R. Tall and Hugh Maguire, stating the conversation that took place between us. THOS. BREERWOOD.

Sept. 7th 1838.

"I certify, that some time last spring, Mr. Thomas Breerwood told me that he was opposed to the present Primary School law, and said the donations ought to be taken from the Academies and placed to the schools, and my name, used in the Chronicle, was unauthorized by me, prior to a certificate I gave on the 4th September, 1838.

Sept. 4th 1838. WM. R. TALL.

I certify that some time in July 1838, I heard Mr. Breerwood say that he was opposed to the present Primary School law as it now stands, and the said Thomas Breerwood thought that the Donations from the Academies ought to be taken and applied to the Primary School funds and then the law would be as it should be. Mr. Breerwood told me after that, he never was opposed to Primary Schools.

Improvements in Dental Surgery.

"A mouth without Teeth is a mouth without charms."

Strength, beauty, and durability are combined in Dr. KNAPP's late improved Incorruptible Teeth.

These teeth never change their color—never decay—no fœter arises from them and therefore do not injure the breath. They can be inserted in such a manner as to elude detection from the most scrutinizing observer, and so as to make the articulation of the voice perfect, and assists very materially in the process of mastication. These teeth have been universally approved of by those who have worn them, as well as numerous gentlemen of the most profound science, both in in this country and Europe.

Among them may be found the names of Proffs R. N. Smith, J. D Ducatel, J. R. W. Dunbar, and George Gibson, M. D. of Baltimore.

R. FENNER,

General Agent for Pennsylvania, Maryland, Delaware, &c. No 3 1 2 south 7th st. three doors below Market st. Philadelphia, and No 10 North st. Baltimore, near the Post Office.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of the British College of Health, London. Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepsy, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions, fistula, piles, structures, ruptures and syphilisis in all its stages; constipated bowels, worms, scurvy, itching of the skin, kings evil and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names; as the Hygeian conviction is, that *man is subject to only one real disease*, that is, to the IMPURITY OF THE BLOOD, from which springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion or bodily strength, and without the fear of catching cold or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken in excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as the body; first calming, then curing all mental derangements, eccentricities, nervous affections, irritabilities and restlessness, from whatever source,—complaints, which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing

The being cured of any disease, infirmity, orsore, is now no more a dubious or uncertain proceedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysterics of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1, and No. 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No. 2 Pills carry off those and the serious acid and putrid humors, incidental to the body: and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimonious phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The powder in boxes 37 1-2 cents.

CAUTION.—Medicines of such great virtue as these, have been, and will be most certainly counterfeited. To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures of the agent for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morisoniana 2 vols. 8vo—price $2,75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37 1-2 cents. And just published.

☞Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No. 3 1-2 SOUTH SEVENTH STREET, three doors below Market Street, Philadelphia—and at No. 10 North street, Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.
