Wants Action Taken on Athletic Field

To the Editor of The American Union:

There is considerable talk about the need of grounds for an athletic field here. This is probably the only county seat in the state that has no adequate grounds for athletic activities. When the school meet was held in the spring it was necessary to go to Federalsburg in order to have room. Besides the humiliation caused by such a situation, Denton is the loser in other ways, for the large number of people who attend those affairs must necessarily bring considerable business to the town where they are held. Our pupils are handicapped by having no suitable place to practise, as the school grounds are not large enough and there is no place but the street, with the interruptions caused by traffic. Without adequate preparation, no pupil can do his best, and it is really remarkable that Denton did as well as it did.

Isn't there someone who could take up this matter and carry it through to a successful conclusion?

AN INTERESTED MOTHER

RIDGELY
