
BOLLES'
New Improved Double Strap Champion Spreader.

Will teach trotters and pacers to go steady and open-gaited, without striking quarters, shins, scalping or going with one or both feet inside. The most simple and effectual spreader ever invented. Does not attach to shaft, but merely buckles around the legs, Cannot chafe or change position, and as it is the smallest boot made it can hardly be noticed when in use. It is guaranted to promote speed, as it widens the gait in both fast and slow work, and stops all interfering in road or track-work, thereby making a horse easier to handle, move faster, catch quicker, as hind legs are kept apart without any strain. The only article ever invented whereby a colt can be gaited before it has ever had a harness on. These boots only need to be used a few times before the horse becomes a natural, wide-gaited strider.

Price per pair:

No. 1.—For colts and high-spirited horses..$2.50 | No. 3.—For heavy draft horses.....$3.00
No. 2.—For slow roadsters and old horses... 2.75 | No. 4.—"Front" interfering, per pair..... 2.50
