Thought Gas Was Water

While many in town were just in the act of eating their Christmas dinner, the town was cast into a sad gloom by the sad accident that occurred just at the edge of town by the burning to death of Mr. Shively. Mr. Shively and some others had been out in a car and just as they drew near town, the car refused to go. One of the men drew some of the gasoline from the car, and then to satisfy themselves that it was gasoline, one of the men struck a match and lighted the gasoline which took fire under the car. The men then tried to push the car from the flames and in doing so Mr. Shively slipped and fell in the flames. He was burned so badly that he was removed to the Cambridge Hospitad, where he died a few hours afterwards. Mrs. Shively and family have the sympathy of the town, also his aged father, sisters and brothers. Mr. Shively was a carpenter by trade, a good mechanic and he will be missed in the town.

PARENTS, ARE YOU SENDING A WHOLE CHILD TO SCHOOL ?

Have you fully equipped that boy or girl in whose future your hopes are centered, to prepare for the keen competiton of later life?

No doubt your answer is "yes." But are you SURE nothing is lacking? Are you sure your child is not struggling under the greatest of all handicaps,

DEFECTIVE EYESIGHT?

Careful surveys indicate—that one in every four school children in the United States suffer from defective eyesight. The children have no standard of vision by which to measure their own eyes.

In view of these facts isn't it plainly your duty to have your child's eyes examined? If glasses are found to be necessary, you will always be thankful that you heeded this warning. It's so easy to be sure. So dangerous to take chances.
