AND THIS IS THE

SONG OF THE SHOE!

Oh, the singing of the turtle at the opening o the spring,
And the humming of the bumble-bee, when summer's on the wing,
And in the fall the locust, puts in his rasping lay,
And in the winter, howls the owl, through all the night and day;
But, winter, summer, spring or fall,
We sing this song through seasons all:

☞ THE SONG

And this is the song we sing. It doesn't rhyme, but it is interesting.

CAN YOU STAND THE LOW PRICE OF WHEAT

AND THE HIGH PRICE ASKED FOR THE USUAL FERTILIZERS?

WE THINK NOT!

We realize your situation. We are willing and anxious to help you. We cannot be undersold. Our goods have no equal for the money, and if price, quality and square dealing will make a customer of you, then we intend to sell you.

WHAT DO YOU THINK OF $24 FOR HIGH GRADE PHOSPHATE

Equal in Every Way to the Usual $35 Fertilizer?

We have such a grade that we are now offering at this price. Space will not permit, but see what our highest grade and lowest grade will yield you. The following certificates are the result of a trial test on two acres, on lawn of Jos. E. Gilpin, Esq.:

CHESTERTOWN, Aug. 1st, 1887.

This is to certify that I have measured the wheat raised upon the lawn of J. E. Gilpin. One-half of the lawn on one side a High Grade Chestertown Fertilizer was used; upon the left side of the front gate going towards the house, measuring 28½ bushels.

Signed, JOHN W. DAVIS.

On the right side of said lawn, going in, C. W. Kennard's Fertilizers were used and 32½ bushels of wheat were threshed.

Signed, JOHN W. DAVIS.

I hereby certify that I attended the cutting, shocking and threshing of the wheat mentioned in the certificates here presented.

Signed, CHARLES H. BOID.

This is to certify that I attended to, assisted and saw the wheat from Mr. J. E. Gilpin's lawn threshed and know that it was properly divided without favor to either side of lawn.

Signed, J. T. DAVIS.

Allowing 80 cents per bushel for wheat, and 400 pounds to the acre—the amount used—and our fertilizer costing $4.00 per ton less than the other, the result shows that our goods gave a clear profit over the other of twenty dollars per each ton used.

The *Kent News* mentioned last week a wonderful result for the season on the farm of Josiah Ringgold, Esq., he having threshed thirty bushels to the acre, with our lowest price fertilizer. Mr. Ringgold says:

CHESTERTOWN, Aug. 3, 1887.

Gentlemen:—The goods purchased from you last fall gave great satisfaction, yielding thirty (30) bushels to the acre. If the wheat had not have fallen, and the fly and worm had not troubled it, I would have received forty bushels per acre. You have my order for this fall and also say that your goods are better and cheaper than any goods I have ever used.

J. W. Jarman, Chesterville, received a very satisfactory yield from our fertilizer.

John Edwards, Chesterville, reports twenty-eight bushels to the acre from the Monarch Fertilizer.

We could name many more, but call and see the reports and save money by giving us your order early.

August 11, 1887. C. W. KENNARD, Chestertown, Kent County, Md.

CAN IT BE POSSIBLE

THAT YOU HAVE NOT TRIED

OUR A. A. BONE PHOSPHATE,

The Great Wheat and Clover Producer!

Then we must plead guilty for not having seen you last season. But we were kept very busy supplying those farmers who knew or had heard of its merits that we did not have the time to acquaint you with the same. But the facts are in view of the low price of grain and seeing the need of the farmers, we determined to try and meet their requirements. Having watched the market carefully we have succeeded in buying our stock LOWER than ever before and by shaving our profits we are offering the farmers to-day.

OUR OLD $32 GOODS FOR $27, TIME WITHOUT INTEREST,

AND DELIVER IT WITHOUT FREIGHT.

Being the pioneer manufacturers of the Shore we necessarily have had large experience manipulating Superphosphates and we are now thoroughly convinced that OUR A. A. is the finest combinations for wheat on the market without regard to price. As the whole pounds is composed of Animal Bone, Nitrogen or Animal Matter, S. C. Floats and Potash, no one pound of Plaster, Salphate of Soda, or any cheap or worthless materials entering into composition—and this is not at all theoretical but by reading these testimonials will be seen to be practical:

ROCK HALL, July 26th, 1887.

T. R. Hubbard & Son—Gentlemen:—In reply as to how I like your A. A. Bone Superphosphate will say I had a very satisfactory yield. We used about 30 tons of A. A. and so far got an average yield of 17 bushels for one. Also have good grass from its use.

Resy'p, R. BENNETT WILLSON.

Mr. Stewart Matthews and Mr. Wm. W. Newcomb say they used our A. A. on Stalk Ground and Fallow and got an average yield of 26 bushels per acre, and that they expect to use it again.

Mr. Allie Baker, near Fairlee, Kent county, says he used A. A. in connection with two other of the highest standard goods on the market and A. A. was equal in every respect and cost his less money.

FAIRLEE, July 23d, 1887.

T. R. Hubbard & Son—Gentlemen:—In the fall of '85 I purchased of you 10 tons of A. A. and used it on our three farms in connection with a goods that cost us $8 more per ton, and in every instance yours took the lead. Mr. Lewis on the Swan Creek place took a load of 200 sheaves from each, and whilst there was such a difference in the cost of the fertilizer A. A. yielded several bushels more per acre. My grass too was good, this led me to go into it more heavily and we used 23 tons last fall, and whilst wheat generally is turning out poor my fallow gave me 25 bushels per acre. I expect to use it again this fall.

Respectfully, R. S. DIEHL.
