to the accompanying document for those details which it has thus become unnecessary to enlarge upon in this Report.

The whole number of emigrants during the year was forty nine, which added to those heretofore reported makes the total number of Three hundred and sixty six persons who have left this country under the direction of the State Managers. The amount drawn from the Treasury was Thirteen thousand dollars, the expenditure of which is shown by the account accompanying this Report.

The number of Manumissions reported to the Board for the year ending the 31st December 1836 is Two hundred and seventy six, of which as usual many are to take effect at future periods.
