
THIS HOARD WOULD HAVE DOUBLED IN VALUE—

Deposited in this bank at 4 per cent interest, the hoarded money which has been lying idle for years would have doubled in value instead of merely accumulating dust and cobwebs.

Happily not many persons today actually hoard money with the belief that it is safe from theft or accident.

Money need not be buried in old walls or cellars to be hoarded. It is **hoarded** money if it is idle money, useless money.

The safest way to make your money work for you and the community is to deposit it in the bank, where it is safe, draws interest, and helps build up the local community, thus enhancing the value of your property.

Our officails are business executives and can help to make your money work more profitably for you. Consult them without obligation.

Eastern Shore Happenings

The twenty-fifth annual encampment at Pentecostal Grove, near Denton, will be held this year from July 27 to August 6, inclusive. Among the workers at the meeting will be Rev. Seth C. Rees, of Pasadena, Cal., and Rev. C. C. Brown, of Kingswood, Ky. Thursday of the encampment will be devoted to missions, and Rev. Albert Schombie, a former South American missionary, will be the speaker. The music for the services will be in charge of Mrs. Etta Hoffman, who will be assisted by Miss Cora Slocum and other well-known musicians. The committee in charge of the camp is composed of Charles W. Elwanger, president; T. L. Trice, treasurer; and G. L. Helsby, secretary.

Princess Anne, Md. June.17.—The funeral of Alice Murray, four-year-old daughter of Mr. and Mrs. George H. Murray, of Mount Vernon, Somerset county, was held at 2 o'clock yesterday afternoon at Asbury Methodist Church.

Friday, while Mr. Murray and some other men were cleaning the churchyard and Mrs. Murray was assisting in putting a carpet in the church, little Alice was playing about the cemetery. It is supposed she climbed upon the base of a tombstone and pulled the top over on herself, crushing her skull. She is survived by her father and mother, three brothers and one sister.

Seaford, Del., June 15.—The spirit of improvement seems to be spreading in Sharptown, Md., 12 miles down the Nanticoke river from Seaford. The bank officials have greatly improved the appearance of the bank by erecting a fence, clearing up the surroundings, trimming trees and painting. Dr. J. A. Wright has put down a new cement walk. Harry Fletcher has put a new fence around his home. Harry Russell is having his buildings moved from the street a few feet and will have a new front porch erected and other improvements made. The large trees in front of the home have been removed and opened up the view to the river and bridge.

Notice has been sent out by the town council to the property owners on the State highway passing through the town to put down cement sidewalks on or before August 15. The council advised these property holders that if the order were not observed more effective measures would be resorted to, as the increased traffic makes the sidewalks necessary for the convenience of pedestrians.

Captain Axel Nost and four members of the crew of the U. S. E. D. tender Salem were rescued from drowning in the Delaware Bay on Saturday afternoon about one o'clock by Captain Garrison of the Sarah J., hailing from Bridgeton, N. J. The Sarah J. was carrying members of Bridgeton Forest, Tall Cedars of Lebanon, who were on their way to the Tall Cedar celebration at Milford.

The Salem was on her way to the Mispillion river with supplies for the dredges that are working there. The strong northwest winds on Saturday converted the usually mild bay into a rolling ocean and the light Salem was unable to withstand the battering attacks of the huge swells. The glass in the pilot house was smashed and it began to fill with water. In a very short time it went down, carrying the crew with it. This was about ten o'clock and he judged that they had been in the water about an hour.

The members of the crew put on life preservers and clung to the top of the pilot house, which just kept above the surface of the water, until they were rescued by the Tall Cedars about one o'clock. Frank Smith of Henderson, Md., fireman of the Salem, became unconscious when in the water but a short time and was strapped to the pilot house by Captain Nost and the other members of the crew.

Five men were on the Salem, Captain Axel Nost of Delaware City; Ivy G. Smith, of Norfolk, Va., engineer; Frank Smith, of Henderson, Md., fireman; Durant Simpler, of Wilmington, and Albert McDaniel, of Baltimore, deck hands.

Trustees of the University of Delaware at their annual meeting elected Prof. George F. Dutton, dean and registrar of Delaware College and dean of the School of Arts and Science of Delaware College, University of Delaware, succeeding Dean E. Laurence Smith, deceased. There had been keen interest among students and alumni in this section and the selection was a popular one.

Easton, Md., June 14.—S. Harry Shannahan, of the hardware firm of Shannahan & Wrightson, doing business all over the Eastern Shore of Maryland, met with a bad accident last evening as he was entering the lane at his home on the Peach Blossom. The driveway is narrow, with a big drop on either side. Either his car skidded or he drove too close to the edge, for J. Harper Skillen, a neighbor, found him with the car across his abdomen.

Fifteen men were required before Mr. Shannahan could be rescued from under the car. He was found to be suffering intensely and in a semi-conscious condition. He was placed in an automobile and rushed to Emergency hospital. Today the doctors state they are awaiting developments before they can ascertain how seriously he is hurt.

Messrs. Winfred Brown, son of Mr. and Mrs. John W. Brown of Cambridge, and Mr. Austin Barnes, of Taylor's Island, who left Cambridge last week on the first lap of a trip that was to extend from the Atlantic to the Pacific, did not get very far as they were driven off the state road near Annpaolis by a government ambulance with the result that young Barnes had one of his legs broken.

The two young men were members of this year's graduating class of the Cambridge high school and decided to make a trip to the Pacific coast on young Barnes' motor cycle. They were riding on a state road which had just been tarred when the accident occurred.

PRESTON

Mrs. Maude N. Reidy and children, of Mononga, W.Va., are spending the summer months in town, at Dr. J. R. Phillips' home, since the Dr. and Miss Phillips are still abroad. Mrs. Reidy, formerly a Prestonian has not been here for several years, consequently her relatives and many friends are delighted to have her with them.

The last of the college students have returned home. Among them were Miss Louise Wright, of Hood College, Miss Blanche Alderson, State Normal and Miss Marie Proctor, St. Agnes.

Mrs. Agnes Waddell and son, who have been in South Carolina, have returned home on account of Mrs. Waddell's illness. Little Ella Mary, her granddaughter came with them. They are all staying with Mrs. Gardner, who is Mrs. Waddell's daughter.

Class night was made very interesting to everyone, though somewhat the usual program of prophecy, history, poem, etc. Each member of the class of '23 did his or her best to be a credit, so that with such co-operation and interest the entertainment was made a success.

The graduating exercises were held Wednesday morning. Miss Maude Wright proved herself a fitting valedictorian. Congressman T. Allan Goldsborough delivered the address to the graduates.

Mrs. N. H. Fooks and daughter, Miss Virginia Fooks, gave a most enjoyable party to the Juniors and Seniors of Preston High School, on Wednesday evening, June 20th.

The annual meeting of the Alumnae of Preston High School was held on Thursday evening, June 21st.

Miss Esther Lednum, who teaches at John Marshall High in Richmond, is home for a part of the summer vacation.

Mr. Jerome Cox spent Sunday with his mother, Mrs. J. A. Cox.

Miss Lucretia Smith, a former telephone operator here, is now workng in the office at Easton.

Miss Mary Richards has been the guest of Misses Nina Wrightson and May Bouldon for the past week.

Mr. C. C. Deen has bought his daughters, Misses Mary and Lillian Deen, a Chevrolet coupe. Mary, who has been so ill, is rapidly recovering.

At the Methodist church Sunday evening stereoptican views of the Passion Play were shown. Rev. J. P. Outten explained the various slides by means of readings. It is expected that more views will be shown at some other time.

HARMONY

Mr. and Mrs. Harry Airingdale and Mrs. Stack visited Mrs. Airingdale's neice who is training to be a nurse in Easton hospital on Sunday.

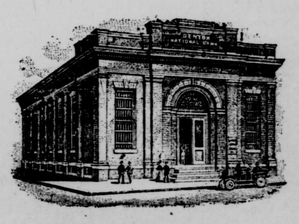
Dr. and Mrs. Duhadaway spent Sunday afternoon motoring through Dorchester county.

Mr. Frank Ross and family of Easton were Sunday callers at Mr. G. S. Todd's.

Misses Florence and Elizabeth Deen are spending the week in Baltimore.

Mr. and Mrs. Clopine and Mr. and Mrs. Smick of Baltimore spent the week end with Mr. and Mrs. Roland Towers.

Potatoes this time of the year are likely to taste very starchy. If they are pared in the morning and allowed to stand in cold water for several hours before using, it will eliminate a great deal of the pasty taste.



What's Behind the Federal Reserve System

The extensive resources of the Federal Reserve System are great enough to cope with any financial situation.

This fact was very effectively demonstrated during the business depression of the past two years.

This bank is proud indeed, that it has the privilege to be a member of the Federal Reserve System and associated with an institution that means so much in our national banking business.
