AMERICAN EDUCATION WEEK TO BEGIN NOVEMBER 18

American education week will be observed during the week of November 18, under the auspices of the American Legion. This was announced yesterday in Indianapolis by Garland W. Powell, of Cumberland director of the legion's national Americanism commission, according to the dispatch received last night. The program for 1923 is larger than that attempted last year, according to Mr. Powell.

It provides for the following: Sunday, November 18, sermons on education in churches of every denomination; November 19, American Constitution day, a discussion on proper citizenship; November 20, instruction as to the proper observation of patriotic customs and recognition of the new flag code; November 21, school and teachers day, a discussion of adequate pay for instructors and proper buildings; November 22, campaign for the end of illiteracy; November 23, disscussions of community development and the part it plays in school life; November 24, observance of physical education day.

HOME PROFIT SCHEME A FAKE

Two weeks ago we received a letter, very beautifully lithographed in several colors, from the Home Profit Hosiery Company, of Rochester, New York, asking us to become interested in doing "home work." This home work, as near as we can see is done after purchasing a very expensive machine from this concern.

A letter to the Rural New Yorker concerning this company brings the following reply, which substantiates our original ideas that the scheme is more or less dubious to the people who take it up. The letter follows:

"We have your letter of August 20 enclosing the circular of the Home Profit Hosiery Company, of Rochester, N. Y.

"The object of this circular is, of course, to sell a knitting machine. Our reports from those who have purchased these machines have been that after purchasing them, the women are unable to operate the machine successfully. It is essentially a work at home easy money scheme to sell the machine at an exhorbitant price, leading the purchaser to believe that easy money can be made in knitting stockings with the machine.

"We understand that the proprietors of the Home Profit Hosiery Company were originally connected with the Auto Machine Company, of Buffalo, N. Y., and seeing the easy money in the game, withdrew and started a company of their own. We have not had as many complaints about the Home Profit Hosiery Company as we have regarding the Auto Knitting Machine Company, but the scheme of both is essentially the same.

"We are glad to give you our views in the matter, and remain,

"Very truly your,

"THE RURAL NEW YORKER."
