DO YOU WANT THE NEWS??

If you want the NEWS, then YOU WANT

THE AMERICAN UNION

for it has more news of Caroline County and the Eastern Shore in it than any the paper published in Caroline County.

Examine carefully the papers of Caroline County, count the number of columns of local news in each and see for yourself that the above statement is true. Our aim is to give the news, ALL the NEWS of the county.

We have each week two columns of news for the house wife, which are written by a specialist in her line. These two columns are well worth the price of the paper themselves.

On the first page of The American Union each week is an article written in prose-poetry, taking up some thought along life's highway which is very interesting and well were a little afterthought.

Another section of the paper is devoted to items from all over the Eastern Shore, which gives an idea of what is going on among our neighbors.

For those who like to smile we have a joke column under the heading "Chips" which we endeavor to keep filled with sayings worthy a smile.

All through the paper you will find columns of news from the various sections of the county, giving the comings and goings of your friends and neighbors.

As this section is primarily devoted to farming, we print each week much news of interest to farmers, poultrymen, hog raisers, etc., which comes either from the government, College Park, or some other approved source, and is calculated to save you time, money and energy. Here again we outrun the other papers, in the amount of such news printed each week.

We are glad to receive suggestions at any time. If there is something you want to know, some question you want to ask, some way in which we can help you, just let us know, and we will do our best to help you.

SUBSCRIBE NOW—THIS WEEK—TODAY—Let us send you this paper which has the most news and the most helps for the farmer and his household.

WEATHER AND CROPS

Mild, cloudy and showery conditions during the first half of the week were followed by fair and cooler weather at the close. The daily mean temperature averaged about 1 degree above normal. The weekly rainfall was moderate to heavy west of Chesapeake Bay and light on the Eastern Shore.

The weather of the week was favorable for late growing crops and pastures.

Corn continues to ripen slowly, owing to the absence of hot weather. Cutting of the early-planted has begun, excepting in the northern tier of counties west of the Bay.

Pastures are good in most localities west of Chesapeake Bay. On the Eastern Shore they are but fair to good, except poor locally in the extreme northern portion.

Late potatoes are doing well. They are still blooming to the eastward of the Blue Ridge Mountains.

Tomatoes continue to ripen well generally and are being harvested. The season was at its height during the week.

Harvesting of sugar corn, truck crops, sweet potatoes, apples, kieffer pears and tobacco continues. Harvesting of peaches and watermelons has about ended.

Plowing for fall seeding is general with the soil in excellent condition for this work to the westward of the bay. Rain would be beneficial in most portions of the Eastern Shore.

Late Delaware Apples Open

Seaford, Sept. 5—The late apple crop is now on, picking of the crop beginning yesterday, with indications of a big yield, at good prices.

Picking of Kieffer pears is also on, with indications of a bumper crop. A great many of the pears are being sold at the station here to the brokers, the price averaging around 20 cents a five-eighths basket.

GOOD PROGRAM AT CHAUTAUQUA

(Continued from Page 1)

the largest crowd of the week and was thoroughly enjoyed by everyone. The situations found in "Crossed Wires" might very easily be duplicated in any small town, and the final working out of the tangle found many thrilling and at the same time funny scenes.

On Thursday afternoon Denton was entertained by its own actors and actresses. Children during the past 5 days have been rehearsing the pageant, "The Old Woman Who Lived in a Shoe, and presented it in a delightful manner.

After the pageant Dr. Arthur Edward Wilson gave his illustrated talk on "The Music of Birds." It was entertaining as well as educational and his calls could not be distinguished from that of the bird itslf.

The performance tonight, by Henry and Company will close the Chautauqua. It is to be an evening of art and magic, and as such promises to be very interesting.
