SATURDAY, JULY 18, 1914.

MESSRS. HOWARD MELVIN, ex-Sheriff Dukes, George W. Moore, Esq., and several other gentlemen were in Kent this week booming the candidacy of Hon. Albert Sisk for Congress.

CHESTERTOWN has a telephone system now that is up-to-date and modern. Mr. R. C. Harris, the affable and efficient manager here, is to be congratulated. He has had charge of this county for 18 months during which time he has made many improvements and established several new lines. With this new automatic system Mr. Harris hopes to make the telephone service more efficient and more satisfactory than it has been in the past.

THE city and town resident has but little conception of the work entailed on the farmer's wife especially during harvest. A farmer near town had 33 men at every meal for four days and they kept the cooks busy. This seems a big undertaking, but the farmer's wife in lower Kent who had 61 mouths to feed for four days and only threshed wheat one-half the time, had an undertaking which would stagger many a hotel man. These harvest hands get good food, too—a farmer's wife near town served fried rock and hot tea cakes to her men for supper one evening while threshing!

Must Change Location of The Town Water Supply

The Commissioners of Chestertown received notice from the State Board of Health, one day last week, requiring the removal of the town reserve water supply to a point north and beyond the town limits. This mandate of the State Health Board leaves the Commissioners no alternative, and the limit of time allowed for the removal is fixed at November 1st, 1915. To comply with the required conditions the Commissioners must erect a suitable receptacle, either stand-pipe or reservoir, thus entailing considerable expense, to meet which another bond issue is probable.

It is difficult to fully appreciate what this will mean to the people of Chestertown. We are law-abiding citizens and believe in authority, but we herein file our protest against such action by the State Board and advise our authorities to go the limit in resisting the enforcement of such a radical action.

In the first place, Chestertown is a health resort—not ten persons sick, excepting some chronic cases, and the doctors complaining of dull times!

The water from the "Free School Spring" is analyzed each year and every time the report has been *good*.

We encourage all efforts toward moving slaughter houses and pig pens from town, in compelling people to use sewers and in health laws for cleanliness, but when some newly appointed official in his desire to use his power to "do something" orders the abandonment of fine springs and offers nothing in its place, then we object.

These health officials do not offer a thing, but *think* there *might* be springs near the mill pond!

It may be jumping out of the frying pan into the fire.
