FOOTBALL IN MALAY.

A Game That Might Give Our Own Players a Few Pointers.

Among the Malays football has been in existence from time immemorial, but it is with them essentially a game, as, for instance, battledoor and shuttlecock is with us, and it is not a contest. The football is rather smaller than that used at Eton and is made of wicker work. Those who join in the game arrange themselves in a wide circle and kick the ball from one to another with the inside, or, at times, with the flat of the foot. The object of the players is to keep the ball passing about without its ever touching the ground or the hand of any one. Great dexterity is shown in this performance, and the ball is usually kicked to a very respectable height. There seems to be no penalty exacted from a player who may kick the ball badly or fail to kick it at all.

We had our own game of football, and the Dutchmen, assisted by two members of our team, scored two goals to our four. During the game the natives collected in still greater numbers, and at its termination they begged us to allow them to have a game among themselves. To this we assented, and two of us acted as captains of the sides, numbering about 30 players apiece, most of whom stripped to the "sarong," and wrapped it round their loins, leaving the rest of their bodies bare.

The ball was started, and then followed one of the most extraordinary games of football that has ever been seen. The game soon ceased to be a game at all and became a veritable battle.

As when a sort of lusty shepherds try
Their force at football, care of victory
Makes them salute so rudely, breast to breast,
That their encounter seemed too rough for jest.

Hands, arms and even teeth, were used on all sides, blood flowed freely, and scattered about the field were soon to be seen the wounded, I might almost say, the slain. As some fell exhausted to the ground they were removed, and their places in the fray were taken by others, who rushed forth eagerly from the crowd of spectators.

Shouts of victory and groans of defeat rent the air, and at length things became so serious that the two captains were obliged to seize upon the ball and bolt with it to the pavilion. The game thus came to an end, and the players withdrew to their homes, with the excited crowd following at their heels. This must have been regarded as a red letter day by the native community of Medan, and the visit of the "Orange Puteh" (Englishmen) will be remembered among them for some time to come. We received a hint next morning from the authorities that the natives must not be allowed to take part in our games.—Fortnightly Review.

To Benefit Barmaids.

A movement is on foot in England, fostered by a group of noble ladies interested in the subject, to protect barmaids as to their hours of labor. It is estimated that there are 120,000 young women in London in licensed houses who work from 15 to 18 hours a day on weekdays and from seven to nine hours on Sundays, with one Sunday off in each month. Surely when so much is said about an eight hour day for men these young women ought not to be forgotten. They find a haven of rest in their brief intervals of leisure at the Morley rooms, established by the late Mr. Samuel Morley and now under the superintendence of Miss C. M. Gough. Here barmaids out of work can stay, paying a very small sum for board and lodging. But the social part of the work is the most valuable. Barmaids are brought into contact with ladies of education and refinement. The rooms are used for reading, writing, music, conversation, rest and advice, and books are lent from an excellent library.—London Truth.

Butler Took the Case.

"I had a important law case on," said a Wakefield gentleman. "I knew no one could win that case for me but Ben Butler. He was in Washington at the time. I went to Washington, and after hard scrabbling for two days got an audience with him. He said he wouldn't take my case for $1,000 a day. He had more work on his hands now than he could attend to, and he went about his work right then.

"'General,' I said, 'I was born in the same town with you.'

"He grunted, but wasn't otherwise affected that I could see.

"'Do you remember little Miss——? And you remember the boy who used to send notes to her, and the boy who used to take them? I am the boy who took the notes.'

"'And I am the boy who sent them,' said the general. He held out his hand. 'I guess I'll take your case, after all,' he said, and he did and won it."—Boston Globe.

Proving the Proposition.

When a man writes to another challenging him to fight a duel because that other has called him a fool, the challenging party betrays lamentable ignorance as to popular understanding in regard to what a fool is.—Buffalo Commercial.

Womanhood.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption, and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at M. A. Toulson's Drug Store. CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

$3,000.00 A YEAR FOR THE INDUSTRIOUS.

If you want work that is pleasant and profitable, send us your address immediately. We teach men and women how to earn from $5.00 per day to $3,000 per year without having had previous experience, and furnish the employment at which they can make that amount. Nothing difficult to learn or that requires much time. The work is easy, healthy, and honorable, and can be done during daytime or evenings, right in your locality, wherever you live. The result of a few hours' work often equals a week's wages. We have taught thousands of both sexes and all ages, and many have laid foundations that will surely bring them riches. Some of the smartest men in this country owe their success in life to the start given them while in our employ years ago. You, reader, may do as well; try it. You cannot fail. No capital necessary. We fit you out with something that is new, solid, and sure. A book brimful of advice is free to all. Help yourself by writing for it to-day—not to-morrow. Delays are costly.
