ATTENDANCE IN OUR PUBLIC SCHOOLS

In view of the fact that so many of our children are forced to remain out of school to help on the farms and to care for smaller children while mothers are employed in canning houses we feel proud of the fact that many parents realize the value of an education for their children and are making sacrifices to keep them in school, thus enabling them to keep up with their classes as they cannot do when kept out.

Such rural schools as Williamson, Furmans Grove, Chestnut Grove, and Howard's, while nestled among farming communities show that nine-tenths of the children have attended regularly through the month of September.

Following is a list of our public schools arranged as to kind and listed as to rank in attendance, beginning with schools standing the highest.
