PICNIC TWIST

the mild, "no-come-back" CHEWING TOBACCO in the Sanitary Drum

HERE it is—the modern container for the finest, mildest twist chewing tobacco ever known in this section. A yellow drum printed in brown and red. It will be imitated. Every success is. *But* don't be misled. The taste of the tobacco—its mildness—are all its own.

GRANGE NOTES.

One of the most profitable and enjoyable meetings of Worton Grange was held Monday night, Feb 22. It being Washington's birthday quite a good many were dressed in costumes of ye olden times. The hall looked very nice its neat decorations of ever greens and hunting etc, and as a surprise to those who had not been attending regularly a nice organ occupied a place of honor nearly equal to that of our worthy Geo. Washington.

After the business meeting the friends of the members were invited to enjoy the lecturer's programe and to partake of the feast of good things provided for the inner man by the ladies. It was only called a luncheon, but it country ham, chicken, chicken salad, potato salad, cold slaw, biscuit, rolls, jelly, butter, and coffee, in abundance would not justify one in calling it a supper, it is at least good enough for us here.

The litrrary programe was spicy and pleasing to the many present. Several readings by Bro B. Cooper, Sister Jewell, Ida Collier, and B. Collier, recitation by several of the little tots present, music both vocal and instrumental was enjoyed to a late hour and all seemed loath to depart. Next Monday night meeting at the usual hour 7.30. Come out and be one of us

SHOOTING PROHIBIT

Government Will Rigidly Enforce Law Touching Migratory Birds.

From the number of letters which they have received on the subject recently, officials of the Department of Agriculture believe that sportsmen may unintentionally violate the provisions of the migratory bird law, which it is the purpose of the Government to enforce rigidly.

Under the provision of this law no waterfowl can be shot in the northern or breeding zone after January 15, except in New Jersey, where the season extends to February 1. In most of the southern or wintering zone the season closes February 1, but extends to February 15 in Florida, Georgia and South Carolina.

These regulations were proclaimed on October 1, 1914. No change has since been made in them, and no change is likely to be made until the constitutionality of the law has been passed on by the United States Supreme Court. As a matter of fact, the law provides that all changes in the regulations must be considered for a period of 90 days, and then must be approved and signed by the President before effective. It is thus evident that there is no possibility that the prohibition of spring shooting will be in any way modified this year.

The officials of the department who are intrusted with the enforcement of the law are anxious that these facts be impressed upon the people because it is the intention to investigate carefully all reports of violations made to the department's inspectors and wardens and to prosecute all such violations in the Federal courts.

In this connection it is pointed out that prosecutions may be instituted at any time within three years of the offense.

CORN CAUSES DEATH

George F. French, a former resident of Middletown, died in Chicago Tuesday afternoon from gangrene caused by a corn. The toe was amputated in hopes of saving his life and, later a bone in the foot was removed. He was born in Middletown May 2nd, 1847, being the son of Nimrod end Elizabeth French. In 1868 at the age 21, he went to Chicago and entered the Rock Island Railroad. Later he entered the insurance business. He amassed a fortune and spent much time in travel. Every summer he came to Middletown where he spent much time at his old home.
