The question of the day—What to give the youngsters for Christmas?

The answer for all time. CANDY—pure and wholesome.

Sweets don't harm children, if selected with care and an eye to purity. We observe every letter of the pure food laws in making our candies—using much better ingredienets than required by the U. S. Health Department. That's the reason OUR CANDIES ARE BETTER.

## THE POWER OF RESISTANCE

Thursday's Health Talk No. 51
By Theo. A. Tobin, D. C., Ph. C.

We call them colds, common colds, and we are prone to consider them a necessary evil. That is one of the mistakes we make regarding them.

Another is the idea that they are an affliction in themself. As a matter of fact a cold is a sort of warning Nature gives us, when gentler hints fail, that resistance power is low and must be built up.

The best way to build up a foundation of resistance power is to make sure, first of all, that their is no interference with nerve transmission to all the vital organs. A visit to your Charopractor starts you on the road to real health.

UNCLE BEN SAYS:

"I went to a swap social the other night. Everybody was supposed to bring something they didn't need. Most of the women brought their husbands."

COLDS DO NOT BOTHER—NOW

"For years I suffered with a continuous buzzing in my ears, was very nervous, had a weak throat and was almost sure to catch cold every time I went out-doors in the winter. Upon the recommendation of a friend I called upon Dr. Tobin, The Chiropractor. I took altogether about two months adjustments, and it has put me on my feet. I feel like a new woman entirely, and do not hesitate to recommend Chiropractic to those suffering." Mrs. L. Brown, Centreville, Md.
