Haying Season

Are you prepared to care for the large crop of hay this season has given us?

We are ready to help you harvest your hay with all the latest improved and most up-to-date machinery. This year we offer for the first time our No. 6 McCormick Mower, a gem of perfection and mechanical ability. You well know the enviable reputation the McCormick Mower has enjoyed for so many years and you wonder how it could be improved upon, but it has been done. The No. 6 Mower has been working under the most adverse field conditions for 5 years, being thoroughly tried out by expert mechanics and by farmers to whom it was entirely new and all pronounced it good. The No. 6 is not the New 4 made over but an entirely new mower with all the good features of the New 4 embodied. There are so many points to call attention to that it is impossible to mention them here, but we ask you to come and see the mower.
