Are Your Lungs Strong?

Do colds go down to your throat? Are your bronchial tubes easily affected? Above all, do colds settle on your chest? Then your lungs may not be as strong as you expected—consumption often follows.

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness.

At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, in the navy, at canteens, at mobilization camps and other places where refreshing beverages are sold.

Bevo—the all-year-'round soft drink

"KENT NEWS" IS $1.00 PER YEAR

PATRIOT OR SLACKER, WHICH?

Messrs. Editors:

Awake O people of Kent, awake, and answer once and for all this question. Too long have some of us considered this question to be answered only by our young men. Too long have we gone on in the same old way as formerly, in many, too many, instances, indifferent to the claims of those in authority, and if not in resentment, because we have felt "our little" would not help matters much we have kept doggedly on, eating to our hearts content, and greatly in excess of our actual needs of those things for which, from "over there," comes the mute appeal from the starving children, the worn-out mother, and exhausted soldier. Can we longer be deaf to their appeal? Do you not think it wiser to keep the soldiers of the Allies, who are already at the front, in fighting trim by sendthem and their loved ones food, instead of letting them drop out because of exhaustion and starved-out condition, and filling their depleted ranks with our own men?

Are you conscious as you lavishly spread the butter upon your bread and unstintingly use it and lard in the making of pastery and cake, that in the other warring countries grease is so scarce and precious that wherever, numbers of people are fed plates are not only scraped for the grease that may be uesd again in cooking, but are then scalded so that not one drop of grease may be wasted, and the grease thus saved is used in the making of glycerine for munitions?

Do you not know that the cup of flour in place of which you might have used corn-meal or another substitute might have meant the staving off of starvation from the little waif waiting "over there" for her slice of bread and cup of soup?

And that sugar. It is possible you can go on satiating the appetites of yourself and household when "over there" some are dying for lack of sweets, and one single caramel can make a man, wounded with 25 shrapnel wounds, suffering so that in no position can he find comfort, feel, as he lets the sweetness of that one, lone caramel ooze through his whole system, that life still is full of enjoyment?

Let us not wait in answering this question till it takes the form so many already thinks it has—Patriot or Traitor—Which?

In this country, so blessed in the abundance of good things to eat, think of the special opportunity God has given us for helping in this fight of "right" against "might." In the conscientious performance of a present housewife's duties there is no greater or nobler service to be rendered one's country.

And, men, is any sacrifice too great to down a people, who in their mad rush for world domination stop at nothing, but delight in treachery and destruction, in the maiming and torturing of little ones and the dishonoring of women? While others are giving of their life's blood and all that life holds dear, complain not the constant and ever-increasing demands upon your pocket book, but rather thank God you have money to give. Just now an opportunity looms big for some of our men of means that would enable Kent to forge ahead in the relief work of the Red Cross. Our women are doing nobly in this work, notwithstanding the fact they are handicapped in the output of their work, because their energies have of necessity had to be divided between the raising of funds and the actual work of making supplies and garments. Back them with sufficient funds, and you will be proud of the amount of work your women can do in the relief work such as this—$1,000 turned over to the working fund of the County Chapter to be discreetly used in free wool or free materials for hospital supplies would double the working possibilities of many a loyal woman or young girl whose "bit" lies in the making of these much-needed garments, but whom the auxiliaries often find difficulty in keeping supplied with materials.

How glad the boy and girl must feel to know these are times when their efforts are needed as much as the grown-ups and that they can help in winning this war. Do not be content, boys and girls, until Junior Red Cross Auxiliaries and Thrift Clubs are organized in your own school. Plant gardens, can fruits and vegetables and with it all forget not the slogan of "The Clean Plate."

And, rich and poor, big and little, black and white, let the entire county rise as a unit, and as a part of this great nation of ours prove to the Kaiser how greatly he erred when he made the statement that, notwithstanding our wonderful resources in wealth, in men, and in brains we would fail because we have no one to make us work and sacrifice thus. Rather let him know we are serving under the banner of a God of Love, who years ago gave His Son to die that peace, joy and good will might be the portion of man. And, as His followers and in His cause we gladly obey his mandates, and in His strength will sacrifice and fight on confident that in the end our God of Love and Right will triumph over his God of Might.
