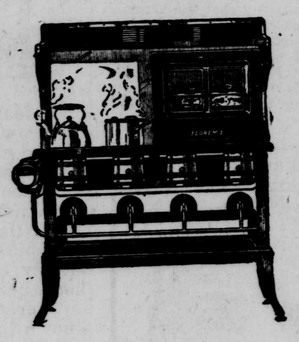
Save money. Use TYDOL gasoline. More miles per gallon means more miles per dollar. More pep means more power to pull loads, smarter hill climbing, easier starting. Less carbon means a sweeter working motor, more pleasure in driving, less money for repairs. A trial will convince you. TYDOL GASOLINE. 18-3t

Quite a lot of excitement was caused in Denton on Monday by the finding of three skulls and many bones from human beings in the sand pit in West Denton where sand is being secured for the building of the new high school in Denton. At first it was thought that these were bones of Indians, but later it was understood, from old residents of that section, that years ago there was a small colored cemetery there.



Don't suffer any more over a hot Range or worry over a half worn out Oil Stove.

Select a new Oil Stove now. The Florence is a wonderful Stove, no wick to trim, inexpensive to operate and has a splendid blue flame.

Field On Fire Saturday

About 12:15 Saturday the siren sounded an alarm for Denton and the boys responded promptly again, as usual. The engine was out on its regular Saturday inspection drive and had just turned around at the Denton bridge when the alarm sounded.

On arriving at the scene where the alarm had been turned in, East Market street, back of the Holiness church, it was found that the fire had been gotten under control by the residents of that section. It seems that some one set some trash on fire in the field back of the church and the dry grass caught on fire. As the grass was so dry it spread very rapidly and at one time looked as though it would spread to the houses, which was the reason for turning in the alarm.

Ridgely Road Unoffiially opened

The Denton-Ridgely road was unofficially opened at the Denton end except about 1800 feet between Mr. Roland Garey's farm and the farm of Mr. N. J. Kade, but along the side of this stretch it is possible to go into the field. The road will be opened officially in about a week. This will be a big improvement for this section and should draw Ridgely and Denton communities closer together.

Miss Louise Gray is spending some time with her cousin, Mrn. H. W. B. Rowe.

Misses Frances Fisher and Katherine Jarrell spent Sunday at Ocean City.

Mrs. T. R. Seward and children attended the Children's Day exercises at Roe M. E. church, last Sunday afternoon.

Helen DeFord was a guest of Emma Holland over the week end.

The Children's Day exercise at the M. E. church were well rendered to an appreciative audience on Sunday evening, June 14.

Christian Endeavor Convention

A Tri County Convention of Christian Endeavors was held Friday evening, June 5, at Hurlock for the purpose of organizing the three counties, finding a name for the organization, and to bring before the meeting several improtant matters.

Our state and field secretary, Mr. Carroll Wright was present and gave us a very interesting and encouraging address.

The organization was named Three In One, which was selected by Mr. Charles N. Spence, of Secretary. He was awarded a present for the name.

Mrs. Russell P. Smith of Cambridge is president of this organization and presided at this meeting.

There was a very fine attendance considering the hot night. Denton, St. Michaels and Secretary all had large delegations. Committees were elected and instructed to visit the weaker societies and encourage them in any way possible to get them going better and help the young people to take more interest in the Master's work.

From now on there will be meetings held quarterly in the different towns, the next meeting will be held in August, at St. Michaels.

Let all Christian Endeavorers get behind this organization and be a booster and not a knocker. Let's all work together.

HOW ABOUT YOUR PICNIC?

As a means of getting acquainted with your neighbors and create new friendships and to strengthen old ones. there is nothing so effective as the county picnic or outing. The Maryland Farm Burau Federation is stressing this fact and is urging each of its county units to plan and hold such an event at some convenient time during the summer months. An attractive program which includes plenty of athletic games, a few short, snappy addresses, with plenty of good eats, will serve to draw a large crowd most any time and at most any old place. Get busy on your annual picnic if you have not already done so.

THE VALUE OF RURAL COMMUNITY CENTERS

The value of community centers as a means of stimulating interest and enthusiasm in rural communities has since been established and today there is probably no phase of the rural community life which is attracting more attention .

The Farm Bureau is constantly on the alert to aid boys and girls of Maryland in their club work and it is right along this line that the Bureau is giving attention to the establishment of community centers in the various Farm Bureau counties of the state. It has pointed out that the social, athletic and entertainment features of these community centers which furnish a major part of the seasonal programs furnish wonderful opportunities for rest and recreation for the boys and girls of the farms and for the grown-ups, too, if they choose to take advantage of it, and from all we hear, most of them do. Too much praise cannot be given those who are backing movements of this kind, to say nothing of the credit which is due those who carry on the work within and about such centers without compensation.
