FIFTY FARMS
URGENTLY WANTED
BUYERS WAITING

I want immediately a lot of Eastern Shore farms, especially WATER FRONTS, from a few acres up to average sized farms. My very extensive advertising in northern and western papers, also among the war industry workers along the Delaware River, is bringing scores of inquiries and a big proportion of them are for "water-fronts."

Within the next few months hundreds of buyers will be coming in here ready and anxious to buy a farm and get settled for the coming year. This is the cream season of the year for selling farms. If you have any kind of acreage, now is the time to sell it. This war has made many changes and the market for farms is waking up.

All farms listed with ALBERT L. TEELE'S FARM AGENCY will be widely advertised in a big illustrated catalogue mailed all over the United States. Desirable farms, offered at fair prices, will be liberally advertised in the KENT NEWS and the TRANSCRIPT, free of cost to you.

Do not measure ALBERT L. TEELE'S FARM AGENCY and what it will do for you by what you know of other farm agencies. Do not underestimate active, vigorous methods, backed by ample capital, generous and effective advertising and experienced, tireless salesmen.

I Charge No Commission

Remember—it does not cost you one cent to have your farm sold by ALBERT L. TEELE'S FARM AGENCY. This is a perfectly legitimate proposition, will stand the closest investigation and is based on sound business principles. I invite your banks, and any others interested, to make full inquiries on your behalf.

Mr. John E. Barnes

well and favorabe known to the Chestertown public, is now local representative and salesman in Kent and Queen Anne counties for ALBERT L. TEELE'S FARM AGENCY. If you have a farm to sell notify him at once. He will promptly call on you, inspect your farm, take pictures, help you fix a price that will sell it quickly—and then watch him turn it into real money for you.

ALBERT L. TEELE'S FARM AGENCY
NEWARK, DELAWARE

William McKenney, who owns the property, states that he has good prospects of either selling or renting the property within a short space of time.

**Few persons recognize the possibilities of the thrifty farmer of today, who is feeding a very hungry world. Joseph Kelly, of Harford, when sowing a field of grass in August, mixed a table spoon full of turnip seed with each gallon of grass seed and drilled in the two together. The seed cost him $1.25; he has recently sold the turnips at 70 cents per bushel, receiving for his crop nearly $600.

Prof. Ferdnand Bonnotte, the former City College athletic director, has been named by Uncle Sam to perform in a similar role at the Chestertown college and already the popular coach is making his plans for the football campaign. Games are being arranged with all State colleges and the Chestertown eleven may be seen in action against City College, Johns Hopkins and perhaps the local Navy and Army elevens. All athletic toggery has beenpurchased by Coach Bonnotte for his athletes and hopes to see the sporting machine running smoothly by the first of next week.

Magistrate Rauft, Baltimore, at the Southern Police Court, dealt Edward Lorraine, colored, Frederick, Md., and Julian Butler, colored, Chestertown, a blow Saturday afternoon by sentencing the former to the House of Correction for two years and imposing a fine of $100 and costs on the latter for alleged participation in the holdup and cutting of Karl Borgeson, of Chicago, Ill., and James Frazier, 645 Light street, on Friday night. Frazier came to the rescue of Borgeson, who was stopped by the negroes at Light and York streets, when, it was said, they demanded money. Mr. Frazier was cut in the arm by Lorraine so severely that 27 stitches were required at the South Baltimore General Hospital to close the wound. One year was the maximum for the Magistrate to sentence the negro on the cutting charge, but he was given the extra year on the charge of distributing the peace. The $100 fine was imposed on Butler on the charge of disturbing the peace, when the evidence failed to convict him in being implicated in the alleged hold-up.

Sheriff Carter received information this week that George Hewitt, alias Green, who broke jail at Richmond June 29, had been caught in New York. This man broke jail and was caught by Officers Carter and Perkins May 27th and delivered to Richmond sheriff. He is held for the murder of a reputable colored man.

HELP THE BELGIANS

The ten million imprisoned people in occupied Belgium and France are facing shame, suffering, disease, and some of them death for lack of clothing this winter. They must be helped. In the face of brutal cosrcion and spiritual suffering they remain splendidly courageous. This courage challenges our charity. Let us match the courage of Belgium by the generosity of America.

The Red Cross Chapter of Kent county will be glad to receive from our people a generous donation of any wearing apparel of good strong material for the destitute and suffering people of Belgium and France. Give generosity and quickly. Send your donation to Red Cross headquarters in your locality.

MRS. J. D. BACCHUS,
Chairman of Belgian Relief Committee for Kent County.

CURE FOR PNEUMONIA

Here is what is called a "sure cure" for pneumonia published by the health board of Washington, Warren county, New Jersey, during the prevalence of pneumonia there several years ago:

"Take six to ten onions, according to size, and chop fine, put in a frying pan over a hot fire, then add the same quantity of rye meal or middlings and vinegar enough to form a thick plaster, stir thoroughly, letting it simmer five or ten minutes, then put the mixture in a cotton bag long enough to cover the lungs and apply to chest as hot as the patient can bear. In about ten minutes apply another, and thus continue, by reheating the poultices, and in a few hours the patient will be out of danger.

Tells of Marne Battle

In the great counter-attack of the Allies against the German forces on the Marne, on July 18, last the United States Marines covered themselves with their old-time traditional glory. The details of what the Marines accomplished may never be known to the world, that is, in all their fullness but a letter, written by Major Robert L. Denig, of the United States Marines and published in the Sunday issue of a New York daily should prove highly interesting to the readers of the News, as it tells of exploits of a Marylander and Virginian in the battles in the vicinity of that new renowned river.

Among the very first of the heroes mentioned Capt. Pere Wilmer, son son of Charles E. Keyser, of Thoroughfare, Va., and next, in the course of his description of the fighting he mentioneds Capt. Pere Wilmer, son of Mrs. Alice Wilmer, of Centreville, Md. Capt. Wilmer is known to many of our readers having lived on Chester river and being a relative to Mrs. James Brice, of Chestertown.

The portion of his letter relating to the deeds of the officers mentioned reads as follows:

"The next day we took our positions at various places to wait for camions that were to take us somewhere in France—when or for what purpose we did not know. Wass passed me at the head of his company. We made a date for a party on our next leave. He was looking fine and was happy as could be. Then Hunt, Keyser and a heap of others went by. I have the battalion and Holcomb the regiment.

"Our turn to be en-bus did not come till near midnight. We at last got under way after a few big "sea bags" had hit near by. Wilmer and I led in a touring car. We went at a good clip and nearly got ditched in a couple of new shell holes. Shells were falling fast by now, and as the tenth truck went under the bridge a big one landed near us with a crash, wounded the two drivers, killed two marines and wounded five more. We did not know it at the time, and did not notice anything wrong till we came to a cross-road, when we found we had only 11 cars all told. We found the rest of the convoy after a hunt, but even then were not told of the loss and did not find it out till the next day.

"As I rode down the battalion where once companies 250 strong used to march, now you see 50 men with a kid second lieutenant in command; one company commander is not yet 21.

"Baston, the lieutenant that went to Quantico with father and myself and of whom father took some pictures, was wounded in both legs in the Bois de Belleau. It was some time before he was evacuated, and gas gangrene set in. He nearly lost his legs, I am told, but is coming out O. K. Hunt was wounded in the last attack, got his wounds fixed up and went back again till he had to be sent out. Coffenburg was hit in the hand—all near him were killed. Talbot was hit twice, but is about again. That accounts for all the officers in the company that I brought over. In the first fight 103 of the men in that outfit were killed or wounded. The second fight must have about cleaned out the old crowd."

SERVICE THAT WINS THE SOLDIER HEART

Fred Lockley, Y. M. C. A., Tells of the Gratitude of the Boys at the Front.

"One of the discoveries men are making over here," Fred Lockley, of the Y. M. C. A. and of Portland, Oregon, writes from London, "is that more pleasure can be had out of giving than getting. Many a man who has spent money freely in the old days to buy pleasure is finding that he gets more pleasure over here by the spending of one's self in the service of others.

"A few months ago I went out with a fellow Y. M. C. A. secretary to hunt up out-of-the-way detachments of troops. A stable guard here, a machine gun company there, a platoon somewhere else. We carried our goods in an automobile. We had plenty of writing paper and envelopes for free distribution, and chocolate, cookies, chewing tobacco and smoking tobacco, cigarettes, razor blades, tooth paste and things of that kind for sale. American war service workers were busy everywhere. We found Salvation Army lassies making doughnuts for the boys and K. of C. secretaries giving help. Books furnished by the American Library Association were to be seen on all sides.

"Hearing firing at a distance, we drove down the road and found a score or so of men at machine gun practice. The officer gave the men half an hour recess to buy goods.

"At another place we came in sight of a lieutenant drilling a platoon. I said to the lieutenant: 'How soon before you dismiss the company? We have Y. M. C. A. goods for sale.'

"He said: 'Right now. Sergeant, dismiss the company!'

"And ten seconds later the company was in line waiting to buy goods from our traveling 'Y.' Grateful is no name for it. The men can't do enough to show their gratitude."

Why You Should Give Twice What You Did Before

The government has fixed the sum needed for the care of the men in the service at $170,500,000.

Unless Americans give twice as much as ever before our soldiers, sailors and marines in 1919 may not enjoy their

- 3,600 recreation buildings
- 1,000 miles of movie films
- 100 stage stars
- 2,000 athletic directors
- 2,500 libraries supplying 3,000,000 books
- 85 hostess' houses
- 15,000 "Big Brother" secretaries
- Millions of dollars of home comforts
