NOTICE TO CREDITORS.

Notice is hereby given that the undersigned has obtained from the Orphans' Court for Kent County letters of Administration on the personal estate of

ELMORE BLACK,

late of said county, deceased.

All persons having claims against said deceased's estate are hereby warned to exhibit the same, with the proper vouchers thereof, to the undersigned on or before the 1st day of Sept. 1919, otherwise they may by law be excluded from all benefit of said deceased's personal estate.

All persons indebted to this estate must settle at once.

Given under my hand this 25th day of February, 1919.

DORA BLACK,
Administratrix.

PREVENT HOG CHOLERA

The State authorities have published some rules regulating the feeding of garbage to hogs. They say, "Garbage, table or other products which might contain pieces or scraps of pork of any description, other than that made on the immediate premises where fed, which has not been previously sterilized, shall not be fed to swine on any premises in the State of Maryland without first having been heated sufficiently to destroy the hog cholera virus.

Sterilizing apparatus used for this purpose shall be subject to the inspection and approval of the Live Stock Sanitary Section of the Maryland State Board of Agriculture.

The vital point which must never be lost sight of is that garbage which contains pieces or scraps of pork which have been derived from various sources, contains the infection or causative agent of hog cholera at practically all times. This is conceded by all authorities on garbage feeding, even by the most radical advocates of this method of garbage disposal.

The report of the hog cholera work in the State of Maryland for the year 1918 shows that in the cases where it was possible to trace the source of infection that 40 per cent of the outbreaks was due to garbage feeding. In fact, this agent was responsible for nearly as many outbreaks as all other agencies combined, and it is a significant fact that this product was fed by only a very small percentage of those raising hogs. It is also conceded by every authority on garbage feeding that it cannot be fed successfully in a hit-or-miss manner, and that the project requires careful study of housing facilities, proper feeding and prevention of disease.

It is appreciated that unsterilized garbage can be safely fed to hogs that have been immunized by the double treatment. However, to permit the maintainance of such a garbage feeding plant means the perpetuation of infected premises which will always be a menace to the raising of swine in that vicinity.

In framing the regulation, cognizance was taken of the fact that much of the garbage which was fed on the premises where it was made did not contain any pork product, or if so, it was usually grown on the premises and, therefore, known to be from hogs free of the disease.

You will, therefore, understand that although the regulation was not framed to cover the feeding of garbage on the premises where it was made, the fact emphasized that should such product contain any pork other than that grown on the premises, it might contain the infection of hog cholera, produce the disease in your hogs and cause you unnecessary fore feeding to your hogs.
fore feeding to you hogs.

FORD TO BUILD NEW PLANT

Further details of Henry Ford's plan to build a new automobile at a less cost to the purchaser than any automobile now extensively sold, were published Thursday. The new car will be built at factories strategically placed for economic collection of raw material and distribution of the product.

As outlined by Mr. Ford, his plans contemplate the early erection of a parent plant probably at Detroit or at some point in the central States where water-power will be available. This plant, he said, he hoped to operate within a year and then he plans to erect other factories.

The new company, which will be owned entirely by Mr. Ford and his family, was decided upon, he said, because of court decisions requiring him to disburse in dividends certain money of the Ford Motor Company which he had individually wished to hold as a cash reserve. Mr. Ford did not definitely indicate his future plans for the present Ford Company, of which he owns a majority of the stock but said he would devote his time and efforts to the new concern. It is expected to put on the market for $250 and $350.

NO MORE FREE SEEDS

Honest, a Congressman leads a hard life nowadays.

Two of the time-honored "perquisities" of membership in Congress have been ruthlessly torn from our solons in their desperate efforts to save a few nickles so they can spend a few million of dollars. One of them is free seeds.

No more will you bank clerks and stenographers who haven't two square inches of front yard in which to plant a seed be bombarded with packages of peas and beans. The appropriation for free seeds has been stricken from one of the appropriation bills.

The other perquisite is one that hits Congressmen right in the bread basket.

The annual custom has been to vote each member of the House $2,000 a year in addition to his $7,500 salary, for clerk hire. It was up to the Congressman whether they preferred to spend the money for clerks or for their automobiles or papering the house back home.

IN MEMORIAM

In loving remembrance of our dear friend, HANNAH JACQUETTE, who departed this life February 5th, 1919.

One month has passed, our hearts still sore,
As time flies on we miss her more;
She sleeps, we leave her in peace to rest.
The parting was painful, but God knoweth best.

From a world of pain and sorrow,
To a land of peace and rest,
God has taken you dear Hannah,
Where you have found eternal rest.

'Tis sweet to be remembered,
And a pleasant thing to find;
Although you may be absent,
You are still kept in oru minds.

You ask us if we miss her?
Yes, it fills our hearts with pain,
But her spirit safely whispers,
Weep not in Heaven, we'll meet again.

By Her Sunday School Class and Friends.

Suddenly on March the 2nd, at 5.30 o'clock in a hospital, John Francis son of John E. and Carrie B. Newcomb, aged 5 years, 9 months and 13 days.

A precious one from us has gone,
A voice we loved is still,
A place is vacant in our home
Which never can be filled.

SMOKING TOBACCO FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Determines Difference In Brands

The Encyclopædia Britannica says about the manufacture of smoking tobacco: "...on the Continent and in America, certain 'sauces' are employed ...the use of the 'sauces' is to improve the flavour and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco.

Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

Plenty of exercise, fresh air, regular hours—is all the prescription you need to avoid Influenza—unless through neglect or otherwise, a cold gets you. Then take—at once

HILL'S CASCARA-BROMIDE-QUININE

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores.

You Can "Beat" the Weather When You're Wearing "U. S."

No matter how bad the weather or how sloppy the deck or wharf, your feet and legs will get the best possible protection in U. S. "Protected" rubber boots. They are specially built for hard wear and rough usage. With dry and warm feet and legs you can stand a lot of punishment. Your work will be easier.

U. S. "Protected" rubber boots give you *real* protection. During the war the Government probably used more U. S. "Protected" rubber footwear than of all other makes combined.

Be U. S. "Protected," then, and safeguard your comfort and health. There's a "U. S." boot exactly suited to your needs. Your dealer has it or can get it quickly.

To be sure of "U. S.," look for the "U. S. Seal" on every pair. It's the trade mark of the largest rubber manufacturer in the world.
