IN THE GOOD OLD SUMMER TIME,

When ladies wear short skirts for morning or country dress—and evening gowns are usually sheer and light—shoes are a most conspicuous part of the wardrobe.

They should be correct, fashionable and attractive.

Our Shoes have all these qualities—they fit every type of feet and conform to every demand of dress. This is the favorite store for Women's Shoes.

W. AMBROSE CARROLL,

THE SHOER.

How About Shoes?

Have you an extra pair to give relief to your feet by changing? Our prices for Shoes are so low that you can be the possessor of many pairs—not of shop worn or out-of-date footwear, but of stylish, well-made, handsome Shoes.

MY LINE OF

SPRING AND SUMMER FOOTWEAR

is now very complete, consisting of Men's, Ladies' and Children's Shoes and Oxford Ties in all the new shapes and kinds of stock—Russia Calf, Pat. Leather, Vici Kid, and an inspection of them will convince you that you can do as well to buy your Shoes of me as in the city, both as to quality and price, and in doing so you will encourage home industry. We sell nothing but standard makes—no auction goods sold from this store, but good goods at a small margin of profit is our motto. Come in and take a look before you buy, and be convinced. What we want is a large volume of business with small profits rather than a smabull siness with large profits. This is the way we have done the business in the past and hope to do it in the future.

Men's Shoes and Oxford Ties from $1.00 to $5.00.
Ladies' " " " " " .50 to $3.50.
Children's Shoes and Oxford Ties from .25 to $2.50.

The largest assortment to select from on the Eastern Shore, so the drummers say. One price to all.

THOS. G. WROTH,

THE SHOE MAN. UNDER STAM'S HALL.

Upside Down.

Powerful lenses can be so placed before the eyes that persons and things will appear inverted. Men will appear to walk like flies on the ceiling.

Lenses must be considered as a power which may be used to give *good vision*, healthy action to the visual organs and pleasure or may be perverted to produce discomfort and untold harm.

If your eyes need attention they need intelligent, conscientious attention. This is the service we offer you in fitting glasses. If there are diseased conditions and you need a physician's attention, we tell you so.

IN SELECTING A COLLEGE

THESE ARE THE VITAL POINTS:

1. HEALTHFULNESS.

Western Maryland College, at Westminster, Md., is 1000 feet above the sea; mild climate; pure air; pure water; perfect drainage.

Has new and substantial buildings. Steam Heat. Electric Light. Furnishes good food; comfortable rooms. Baths. Gymnasium. Athletic Field.

2. SAFE AND REFINED SURROUNDINGS.

Founded 37 years ago by Christian men, **Western Maryland College** has always striven for Christian ends in education.

Models its discipline after the home, giving its students oversight and protection.

Believes that character is formed by habits and habits by system, and so provides its students with a schedule that leaves no hour of the day unaccounted for.

Receives both sexes for the benefit of both, believing this also to be the ideal of the home; but separates the sexes in classwork and limits social intercourse.

3. MODERN METHODS AND EQUIPMENT.

Western Maryland College came in with the modern educational ideas.

Led the way in that form of coeducation recently adopted by the University of Chicago—co-equal, but not co-incident education for men and women.

First College in Maryland to employ a Director of Physical Culture, and to build a Gymnasium.

Laboratories have grown until a separate building is necessary for them.

Faculty represents best Universities.

4. LOW RATES.

Western Maryland College will give you board furnished room, light, heat, laundry and tuition in all College studies for $200 for the full year of 38 weeks.

Ask our Students, or write to

REV. T. H. LEWIS, D D.,
President.

"IT IS DONE RIGHTLY."

If we fill your prescriptions you will get just what the doctor ordered. We give good service, and our prices are reasonable.

Paper Hanger, Painter, Grainer and Sign Writer
Chestertown, Md.

HICKS SAYS A HOT AND STORMY AUGUST.

Rev. Ira R. Hicks makes these predictions for August:

First storm period from the 1st to the 5th, the disturbing causes being, the Vulcan regular, the Mercury equinox, the Mars perturbation and Moon at last quarter. The Mars and Mercury periods in all probability, will cause the unsettled, stormy weather to continue into August, but the first days will bring decided increase of storm conditions.

Heavy rains will visit sections covered by previous rains at this period. Change to much cooler will follow in the wake of these dirturbances.

Second storm period, reactionary, is central on the 8th and 9th. Falling barometer, increase in temperature, cloudiness and return of more or less storminess will be natural results on and touchnig the 8th and 9th. Under existing conditions, whatever perturbations arise at this reactionary period are very apt to be prolonged into the storm period next following.

Third storm period, regular. The influence of this period will be felt from the 11th quite up to the 16th. One of the heated terms of the summes is one of the things to be expected about this period. It will come in with very high temperature, consequent upon Moon's conjunction with Earth and Sun on the 11th. The warmth will increase and the barometer will fall as we advance into the period and by the 14th may be expected wide areas of violent electrical storms from west to east. These storms will consume three or four days. They will be attended with heavy hail in western and northwestern sections. Change to rising barometer and cooler will naturally come in behind these storms.

About the 11th to 14th may also be considered a time of probable seismic and earthquake disturbances.

Fourth storm period, reactionary, is central on the 19th and 20th. Very high temperatures, low barometer and sultry, humid atmosphere will be natural at this period, and under such conditions intense electrical storms are very apt to occur. General thunder storms with phenomenal lightning, heavy gales and possible tornadoes, are among the results to be watched for over much of theinterior country. A marked rise of the barometer and change to westerly winds and cooler will push the rear of these disturbances.

Fifth storm period extends from the 24th to the 28th. Very general and severe storms will visit the interior parts of the country.

More rain will fall in many places than for weeks past. Tornadic storms in many localities should not surprise the intelligent students of the forecasts. Change to very cool nights will follow these general perturbations, especially should heavy equinoctial storms visit the south coasts, and induce corresponding storms out of the northwest.

LINCOLN'S SHREWD ADVICE.

Abraham Lincoln the lawyer was one day confronted by a complaint against trespassing chickens of an indifferent neighbor. Because of the friendly relatives existing between the two families, the client did not favor a law suit; killing the chickens might cause a feud, and a higher fence would be an insult.

"A hopeless case," said Lincoln; "you are to take the remedies from me. However, come back to-morrow.

The next day Lincoln learned from his client that he had two children and his offending neighbor three.

"Go home, said the lawyer" after grave reflections, "boil a dozen eggs hard, and color them after the fashion of Easter eggs. After each visit from your neighbor's chickens, place one of the eggs in the yard. Your children will find them, and when they question you, credit the eggs to the offending fowls.

A few week later the client entered Lincolon's office and said in explanation.

"When my little ones learned the source of those colored eggs, they were wild with glee, and with them tantalized their little neighbors.

"Then the neighbor's children tried to keep the chickens at home and my little ones tempted them away. After each visit there was a colored egg, and sometimes two.

"The children worried themselves sick and made their parents frantic. This moring a load of pailings and barbed wire arrived at my neighbors."

"I thought the plan worked," said Lincoln.

The Boy Obeyed Orders.

The Honorable Elihu Root, who has returned to the practice of law in New York City, has engaged a new office boy. Said Mr. Root: "Who carried off my paper basket?"

"It was Mr. Reilly," said the boy.

"Who is Mr. Reilly?" asked Mr. Root.

"The janitor, sir."

An hour later, Mr. Root asked: "Jimmy, who opened that window?"

"Mr. Lantz, sir."

"And who is Mr. Lantz?"

"The window cleaner, sir."

Mr. Root wheeled about and looked at the boy. "See here, James," he said, we call men by their first names here in this office. Do you understand?"

In ten minutes the door opened and a small shrill voice said: "There is a man here that wants to see you, Elihu."

Why of it.

"Why don't you go to work?" asked the kind lady who had just given up a dime.

"'Scuse me, ma'am," rejoined the tramp, but I hope youse don't t'ink I'm one uv dose silly guys wot goes eround lookin' fer trubble."—Chicago News.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and to-day weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York.
