Important News for Anyone

The time has come that every person should know how to take care of their eyes and not to buy glasses from peddlers or so-called traveling Opticians who have no right to ruin people's eyes.

To prevent this I will advise you not to wait until some peddler will come around to sell you a pair of glasses. You will do justice to your eyes by coming to Chestertown to have your EYES TESTED and GLASSES fitted to the eyes and not the eyes to the glasses.

Respectfully,
A. LEVINE.

We would like those who bought of us in season to inspect this sale and see the genuineness of it—you will probably see some of the same patterns that you bought of us earlier.

WASHINGTON COLLEGE,

Chestertown, Md.

One Hundred and Twenty-Third Session begins September 21st., 1904.

During the past year many changes and improvements have been introduced, all looking to the intellectual and physical welfare of the students. The curriculum has been revised and extended; the Faculty increased, buildings heated by new steam plant, students quarters remodeled and a new administration building begun.

The college offers three courses of study—Classical, Latin-Scientific and Scientific—each leading to the Bachelor's Degree. The elective system, introduced in the new cirricuium, enables each student to select those branches he especially needs. Two sub-freshman classes are maintained for the benefit of those who desire a thorough preparation for college. The Normal Department is now recognized by the State as a part of the public system of education, and stands on the same footing as the other Normal Schools of the State.

Here students may pursue their workin a highly moral community, amid beautiful and healthful surroundings, under careful supervision of health and habits, in comfortable quarters, at very low rates.

For catalogue and information address,
