Thursday Morning Mar. 1, 1877.

THE Orphans' Court of Caroline county will meet on Tuesday, 6th of March, 1877.

The Editor's Hash.

—This year contains 53 Sundays.

—Easter Sunday April first—two weeks earlier than last year.

—The new M. E. Church at Milford will be dedicated on Sunday next.

—Extra oysters are selling at Annapolis for 25 cents a bushel—ordinary 20 cents.

—Bishop Scott will fill the pulpit of the M. E. Church at St. Michael's on Sunday next.

—Party nominations are being talked of in Talbot. Caroline will soon be moving in the matter.

—Skinner Grace, 85 years old, died in Talbot county last week. He was formerly a judge of the Orphans' Court.

—Delaware wants a State Stock law. It already exists in some portions of the State and is said to prove satisfactory.

—Fresh herring were selling on our streets last week at five cents each. Since that time they have sold at three cents.

—An infant child of Jas. Bryan, at St. Michael's, was found dead in bed on Sunday morning the 17th inst.

—Col. R. C. Carter, administrator of Josiah Eaton, dec'd., will sell all the personal property of said deceased to-day.

—We were blessed with a delightful rain on Saturday night last, which has laid the dust and greatly benefitted the wheat crop.

—Gold last week reached a point as low as 104 but afterward rallied and is now selling at 105. Government bonds are steady.

—The house of Wm. Johnson, colored, near Smithville, in this county, together with its contents, were destroyed by fire last week.

—Six M. D's. are practicing their profession upon the citizens of Crisfield, and another writes from the far West to know if there is room for him.

—A New York lawyer, standing six feet eight and a half inches in his stockings, visited Elkton last week. He must have been a hot house plant.

—On Wednesday night of last week the meat house of Mrs. Stewart, of this town, was broken open and about 150 lbs of bacon and a lot of sausage stolen therefrom.

—The Cambridge *Democrat* thinks the happiest people in all that town are the "jail birds, who make the prison and surroundings merry with their songs.

—Mr. J. L. Caldwell, Superintendant of the Md. & Del. railroad, sprained his ankle very badly last week in jumping from a ferry boat to the wharf at Philadelphia.

—Rev. R. W. Todd and lady received a surprise visit last week from the members bers of their congregation, who made glad the hearts of each by administering many of the substantials of life.

—Dr. Wm. H. Dawson died very suddenly of heart disease, on Sunday week, while returning in his carriage from Broad Creek Neck to St. Michael's, where he had been to visit a patient.

—Rev. J. E. Nicholson, of the M. P. Church, will preach in the school house at Preston, next Sunday, March the 4th, at 3 o'clock, P. M. All are cordially invited to attend.

—The steamer *Sunshine*, is about to be put on the route between Baltimore and the Choptank river. The steamer is said to be of good size, moderately swift and well finished and furnished.

—Be on time. For prevention is better than cure. All cough and colds and such affections of the throat and lungs as lead to consumption are cured by Dr. Bull's Cough Syrup.

—Horse Bills—largest size—with fine horse and buggy cut—well displayed and neatly printed on good white paper or muslin, very cheap at the *Union* office.—Call and see specimens.

—Ezekiel Jones, of Framington, went to Philadelphia week before last for the purpose of having a cancer removed from his mouth. While the operation was being performed Mr. Jones died.

—Mr. B. S. Stevens has purchased a new stock of goods and opened a store at Concord, and proposes to supply the people of that community with goods at bottom prices.

—The attention of the travelling public is invited to the route of the Chester River Steamboat Company found in our columns this morning. This is the shortest, swiftest and cheapest route to Baltimore.

—The Sheriff of New Castle county sold at public sale at Wilmington on Saturday last, nineteen houses and lots in that city for the sum of $9,750. These sales all occurred one day—how many more are to follow is not yet known.

—Notice—An election for officers for the Denton Literary Association will take place at the Court House, in this town, on Saturday evening next, at half past 7 o'clock, P. M. All are invited to be present. By order. R. E. COMEGYS, Sec'y.

—The dwelling house on the farm occupied by Mr. Evitts, adjoining the farm of Mr. Jas. W. Saulsbury, near Potter's Landing, was totally destroyed by fire on the 21st of February. The fire is supposed to have originated from a spark of fire from the chimney.

—Dr. J. S. Prettyman, editor and proprietor of the Milford *News and Advertiser*, will issue a daily paper during the sitting of the Wilmington Annual Conference in that town. The Conference will commence its session next week, and all those who wish to keep posted of its doings, may leave their orders at this office and their names and the money will be forwarded to the publisher immediately.—The price of subscription is but 25 cents during the session of the Conference.

—Our readers will please notice the adv't. of F. Stockman, 27 Bond St., N. Y., in this week's issue. Mr. Stockman is strongly recommended by many prominent journals throughout the country. If you want anything in the Jewelry line, send for his catalogue.

—Ye pimpled, blotched and ulcerated victims of scrofulous diseases, who drag your unclean persons in the company of better men, take Ayer's Sarsaparilla, and purge out the foul corruption from your blood. Restore your health, and you will not only enjoy life better, but make your company more tolerable to those who must keep it.

—The Delaware Legislature has sugar beet culture on the brain. Samuel Townsend, of X X X notarjety, is on the rampage in opposition to its cultuure. He is always on the rule of contrariness and would refuse to go to Heaven if he found any one else travelling the same way.

—The bridges on the Md. & Del. rail road have undergone the scrutiny of an expert, selected for the purpose, and the report is that with some little repairs, bracing, &c., the road will be safe and no danger of accident from the bridge. All right—put on steam—up with brakes, and go ahead.

—A general desire having been expressed for a meeting of the Peninsula Press Association, the question as to the time and place for the next meeting is being mooted. Smyrna, Dover and Easton have been named as the places of meeting. We favor Dover as being the most central, and sometime about the 1st of May as a suitable time for the meeting of the Association.

—Messrs. Geo. W. Shallcross & Co., Commission Merchants, No. 328, North Del. Ave., Philadelphia, have on hand and for sale about 5000 barrels of the Eastern Early Rose, Blue Mercer, Goodrich, Jackson, White and Peach Blow potatoes, which they are selling at market prices.—As the varieties, (and in fact all other varieties,) are very scarce in this section, and good potatoes are in demand, our farmers may procure a first rate article by sending thier orders to the above address.

—The Baltimore *Bulletin* is in errror when it asserts that the purpose of the shad in running up any river is to get above the sweep of the tide and into fresh water in order to deposit their spawn."—There is no way for them to get above tide water in our river, as the tide flows from its source to its mouth, or at least so very nearly so, that where the tide ceases to flow, there is nothing of the stream left, save that of a running branch. That they seek the fresh water in which to deposit their spawn is true, and that river having the largest body of fresh water, abounds more largely with both shad and herring. Our river has an extent in length of about forty miles of fresh water, while the Delaware, the Potomac and others, have a much larger extent, and consequently their fisheries are more productive. Neither is it a peculiarity of the shad that they seek those waters, where "above the flow of the tide," they may propogate their species. The current of the river seems to have no drawback to their annual visits to our waters. The tide in all our peninsular streams more with about the same velocity, while the Delaware is much more swift; the water rising and falling with us is from 4 to 6 feet, while in the Delaware it rises and falls from 6 to 9 feet. Again above tide water on the Choptank, the Chester, the Sassafras or the Susquahanna, very few shad are caught. Their annual visit to our waters is to find fresh water to deposit their spawn but not to get above where the tide ceases to flow.

Important Medical Discovery.

Dr. G. D. Bebee, a leading physician of Chiscago, of the homeopathic school, has published a chief treatise on scarlet fever, diptheria, erysipelas and kindred diseases in which he advanced and supports with much ability some entirely new views in regard to the nature and treatment of these diseases. As the result of a series of microscopic observations, confirmed by experimental treatment, he has satisfied himself that these diseases are caused by living organisms of the blood, infinitesimal parasites which are generated and distributed according to fixed laws of nature. Having found their way into the blood, these minute organs cause a veritable blood poison. From this starting point he inferred that the way to cure the disease was to remove the cause, and accordingly began the administration of carbolic acid by the stomach to destroy the poison germs. The writer says:

"In diptheria the result was both prompt and gratifying, many cases recovering rapidly under the administration of this antiseptic, when other measures offered but little hope. Observing how seldom erysipelas appears in surgical cases where I used carbilic acid dressings, I was led to regard this disease of septic origin; and to-day the certain with which a case of erysipelas is arrested by the internal administration of an efficient antisectic is a complete demonstration of the presence of septic germs in the blood, or is at least, as convincing to my mind as though the germs could be seen through the microscope."

The same line of treatment has satisfied him that scarlet fever is as clearly of septic character as diptheria and he says that during the last two years he has treated hundreds of cases of scarlet fever and diptheria on this plan, administering the sulpho-carbolate of soda (a chemical combination of carbolic acid with the sulphate of soda) with unvarying success. He has satisfied himself by the administration the blood and tissues of the human body may be thoroughly disinfted without exciting any toxic effects of the drug. Administered to children breathing an atmosphere loaded with scarlet fever or diptheric contagon, it acts as an absolute preventative, with exceptions so rare and with symptoms so light when at appear, that one is forced to believe that the fault was rather in an insufficient dose than in the agent.—Given when either of these diseases has developed an attack and within a few hours the activity of the disease has ceased and the remaining symptoms speedily fade out into health.

The writer cites a number of towns and neighborhoods where the remedy was used and in every instance operated either as a preventative or a complete cure while the disease was raging very fatally all around.

CAMDEN ROBBERIES.—The Dover *Sentinel* says Camden seems to be overrun with thieves. On Monday night the barn of P. B. Clark was broken open and robbed of fifteen bushels of wheat and some corn. The grocery store of Daniel L. McBride was also entered and goods to the amount of $16, and about $14 in money were carried off, an attempt was also made upon the barn of Stephen Postles, but the thieves were scared away. On the same night the barn of George Saxton, near Camden, was also robbed of about 15 bushels of wheat, and the barn of Thomas Jackson was also entered and 10 or 15 bushels of wheat carried off. The impression generally prevails that a regular gang of thieves who carry away their plunder in wagons, is now operating in that neighborhood, and the people are greatly excited in consequence.

THE NEW HAMPSHIRE ELECTION.—On Tuesday, March 13, New Hampshire elects a Governor, various State officers, and three Congressmen. Now that Gov. Hayes is about to be inaugurated President, the republicans claim that they will carry the State by a handsome majority, and that two of the three Congressmen, at least, will be republican. The present delegation in Congress from New Hampshire stands two democrats to one republican.—The next Congress, excluding New Hampshire, stands 148 democrats to 142 republicans, allowing the republicans all they claim in South Carolina, Louisiana and Florida.

FRENCHMEN are eating more and more horse flesh. The first horse butcher in Paris opened his shop in 1866. Last year 9,000 horses, 643 asses, and 35 mules were eaten in France. A philanthropic Frenchman has offered 1,100 francs and a medal to the first horse butcher who shall establish himself in London.

John W. Gibson, a school-teacher on Tilghman's Island, was priming a swivel on the 22d to fire a salute, when his powder flask exploded and burned him severely in the face and hands.

White, smooth and soft any lady's hands, arms or neck may become, who uses Glenn's Sulphur Soap. Pimples or other disfigurements of a complexional nature, are surely obliterated by this healthful promoter of beauty. Depot, Crittenton's No. 7 Sixth Avenue, N. Y. Hill's Hair & Whisker Dye, black or brown, 50 cts. [mar-1-4w.

Scarcity of Money.

There is no doubt but the present condition of all kinds of business and industry is fearfully depressed, and it behooves every family to look carefully to their expenses.—Winter is coming on when children are liable to Croup, Whooping Cough, etc. Coughs and Colds will prevail everywhere, and Consumption, with other throat and lung diseases, will carry off many. These diseases should not be neglected. Doctor's bills are expensive, and we would advise our people to use BOSCHEE'S GERMAN SYRUP. It never has failed. One bottle at 75 cents will keep your whole family well during the winter.—Two doses will relieve any case. Sold in all towns in the United States, and by your Druggists, Dr. Fisher or Chas. Stevens.

MANY thousands of dollars has been spent in distributing, *free of charge*, Sample Bottles of BOSCHEE'S GERMAN SYRUP to all parts of this country, to those suffering from Coughs, Asthma, Hemorrhages, Consumption, and other Throat and Lung Diseases, that the afflicted might satisfy themselves, that this remedy would save them from those fatal diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it. If you die, it is your own fault, as you can go to your Druggists, Dr. Fisher or Chas. Stevens, and get a Sample Bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cents.

A TIME-HONORED SPECIFIC.—The long and successful career of Dr. WISHART'S PINE TREE TAR CORDIAL, as contrasted with the speedy collapse of nostrums devoid of efficacy which have from time to time been puffed into a brief notoriety during the twenty odd years that this celebrated medicine has been sold, affords a proof that the American public *continues* to repose its confidence in deserving articles only. The PINE TREE TAR CORDIAL has long been recognized as the leading specific for Consumption, Bronchitis, Coughs, Colds, Asthma, Diptheria, and all other diseases of the breathing organs. It is, moreover, a certain, speedy, and safe batonic remedy for Dyspepsia, Liver Disorders, Scrofulous Affections, Urinary Troubles, Gravel, Dropsy, Debility, Constipation, and Female Complaints. Constantly accumulating evidence of an unimpeachable character establishes the fact that it not only entirely eradicates the diseases to which it is adapted, but also that its action is remarkably prompt and thorough. The crucial test of experience has demonstrated its reliability in every particular. Sold by all druggists. Principal Depot, No. 916 Filbert Street, Philadelphia. [nov23-4w.

1877 THE SUN, BALTIMORE, MD. 1877

The Sun, from the geographical position occupied by Baltimore and its proximity to the National Capital, presents unusual advantages to all classes of readers, not only in the city of its publication, but in the surrounding States. It is emphatically a newspaper, and its reputation has been built up by the acknowledged excellence and variety of its news, both local and general. From its fairness and impartiality in discussing public questions, its circulation extends among men of all political parties, and has become, from the thoroughness of its information on all current subjects engaging popular attention, the favorite paper of the people. Everything worthy of special notice or record in the State of Maryland, the District of Columbia, and the States adjacent, will be found from day to day in a compact and readable form in its columns. During the session of Congress it gives special attention to the subjects under discussion, the introduction of important bills, and the pith of the debates. Its special correspondence embraces not only daily but letters and telegrams from Washington, but covers all the most prominent points in the Union, from San Fransisco to New York, and the Eastern cities beyond. Its foreign news is the very latest received from day to day by cable. In its Commercial and Financial Departments the utmost pains are taken to secure perfect accuracy in the quotations, the fluctuations in all classes of public securities being carefully noted. Special attention is also given to the Breadstuff and Provision markets and particularly to the current prices each day, not only in Baltimore, but in other cities of the Union and abroad. For all the principal matters that enter into the business of the country it may be consulted with safety, both by producers and dealers But aside from its political, financial and commercial features, the Sun has an established reputation as a family paper. As such the information it imparts, in the way of general news, is of interest to all classes of readers, nothing being admitted into its pages that may not be read by any member of the household. In religion its position is non-sectarian, with charity towards all; and in local as in federal affairs it regards an honest and economical administration, dealing justly by the people and respecting their rights, to be paramount to all other considerations. To those who desire a first class newspaper, up to the times, and sparing no expense to keep it so. The Sun will recommend itself; while to advertisers it offers the advantages of a large and widely extended circulation among all classes of readers.

HOTEL,
Denton, Maryland.

HAVING leased the Choptank Hotel property, formerly occupied by Capt. Thos. E. Heather, I am prepared to accommodate boarders by the day, week or month, on reasonable terms.

LIVERY STABLE.

I also keep horses and carriages to hire on very moderate terms.

I hope by strict attention to business to receive a liberal share of patronage.

Ayer's Sarsaparilla

For Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Eruptions and Eruptive diseases of the skin, Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pustules, Boils, Blotches, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers, Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives—Stillingia, Mandrake, Yellow Dock—with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skilfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the supericrity of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.
