THE JOURNAL.

DENTON, SATURDAY MORNING, April 17, 1875.

LOCAL INTELLIGENCE.

THE Orphans' Court for Caroline Co. will sit on Tuesday, 27th of April.

SCRAPS.

—Shad are scarce at present in our market and sell readily at 25 cents per pair.

—Tramps are migrating from the Peninsula to avoid the berry pickings.

—The contractor has commenced worked on the bridge at Kent Island Narrows.

—To the surprise of many we were visited on Tuesday morning by a light sprinkle of snow.

—"Spider Legs," a well known trotter of Seaford, Del., was sold at public sale a few days ago, for $450.

—The board of school Commissioners for this county will meet at their office, in Denton, on Tuesday next.

—The newly elected town Commissioners of Centreville have appointed A. R. Weeden, Esq., counsel to the Board.

—The weather during the week has been cool and almost wintry, notwithstanding this the forward vegetables in our gardens are pushing ahead. Green peas in some of the gardens are growing finely.

—Our farmers are now busy preparing for corn planting. When the young leaves of the hickory are as large as squirrels' ears, some farmers say it is time to plant, others say when the apple trees are in blossom is the time to plant.

—The Centreville *Observer* says that Mrs. P. S. Earickson of Kent Island has a Dark Bramah hen, hatched on the 27th of October last, which has been laying two eggs a day regularly since the 16th of March last. That is an eggs-traordinary hen.

—Messrs. White & Dunning, canners at this place, have disposed of their entire stock of canned fruit put up last season, at fair prices. They have also received one order for 50,000 cans of tomotoes for the next season. They have purchased a thirty horse boiler for their establishment and with greater facilities will enter largely into the business.

FINE WHEAT.—Capt. Ed. Carter, residing in this county, near Whiteleysburg, left with us on Tuesday a sample of his growing fallow wheat measuring over ten inches in hight. It was taken from a field of forty acres, and is said to be about a fair sample.—The Captain has another field (corn land) not far behind the fallow.

THE School Board of Queen Anne's county are having the school houses of the county insured. Messrs. Gibson & Feddeman, agents for the Montgomery Company, are now busy insuring the houses. S. F. Liden, Esq., is the agent of the Company in this county. If our School Board should conclude to follow the example of Queen Anne's Mr. Liden would be glad to wait upon them, and will do it beyond a peradventure in a satisfactory manner.

LAND SALES.—Mr. J. F. Mancha, Land Agent, at Easton, has sold Mr. Flannigan's farm of 55 acres, in Bolingbroke, to Col. J. D. Bradford, of Yonkers, N. Y., for $8,000. Col. B. is a nephew of Ex-President Jeff. Davis, his mother being r sister of Mr. Davis.

MESSRS. J. J. JUMP & Co., of Easton Maryland have just received a large stock of samples of Summer silks in plain, plaid and striped, from 72 cents $1.25 per yard; also Black silks from $1.25 to $2.00, and are willing to compare and will excel in price the same goods from any city or town in the country.

NEWSPAPER IMPROVEMENTS.—The Salisbury *Eastern Shoreman* has been enlarged, and is now published weekly instead of semi-weekly.

The St. Michael's *Comet* has been much improved in appearance by a new heading.

The name of the Woodbury, Baltimore county, *Gazette*, has been changed to the Woodbury *News*.

DELAWARE FRUIT BRANDY.—The product of the distilleries of Kent and Sussex counties, of which there was a little less than the average quantities produced last year, has all been disposed of and the market is bare with an active demand. The prices obtained by the distillers was much better than for several years past, and it is probable that with a good fruit crop this year the business of distilling will be largely engaged in. The apple and peach brandy made in this State is much superior to that produced in most other localities, and this fact having become known abroad, the demand for shipment is yearly increasing. One distiller in this county had an order last fall for a package of his peach brandy, from Brigham Young, and it is not improbable that the Prophet is now finding consolation for the loss of his Ann Eliza in this delectable Delaware beverage.—*Milford News.*

A CORRESPONDENT of the Cambridge *Democrat and News* claims that Dorchester needs "a very important improvement—one that will cost but a trifle. This is 'finger boards' placed throughout the county to point out to the traveller the distance and direction to all parts of the county." This is a timely suggestion, and one that we might profit by as well as Dorchester. The cost would be but a trifle, but the advantages arising from so small an outlay would give great satisfaction to all.

MANY of our citizens had the unexpected pleasure of meeting here on Saturday last Gov. James B. Groome.—The Governor was summoned to attend our Court and bring with him all papers in his possession relating to the case of State vs. T. H. Kemp. He came from Baltimore to Easton, stopping there over night with the Secretary of State, Col. R. C. Holliday. The next day in company with a son of Col. Holliday's he drove over to Denton, arriving here a little before noon. The Governor being an Eastern Shoreman met with many old friends and formed many new acquaintances during his short stay. He returned to Talbot late in the afternoon. The Governor's friendly manners and cheerful conversation make him many friends wherever he is known.

WE find the following in the Cambridge *Democrat & News:*

"The fish trade in Cambridge is now at its height, and exceeds anything conceived of by persons unacquainted with the business. Every morning about one hundred persons are about the depot, most of them packers, speculators and fishermen, icing, boxing and shipping shad, rock and herring. Almost every day from five to ten ton of fish leave our wharf. They count by pounds no longer. Everything is tons. One firm alone, Messrs. Dilworth & Johnson, ship from two to three thousand fish weekly, ranging from fifteen hundred to two thousand shad daily, besides large quantities of rock and herring. On Monday the shipment of fish from Cambridge was ten and a quarter tons; on Tuesday over six tons; on Wednesday seven tons.

THE ORPHANS' COURT.—A session of the Orphans' Court was held in this town, on Tuesday last, at which were present W. A. Ford, Chief Justice; Sparklin and Jarrell, associates.

Richard C. Jewell, Exctr., of Mary Fowler, dec,d., presented an inventory of the said deceased's estate. Passed by the court.

Order for sale of the personal estate of Mary Fowler dec'd., granted to Richard J. Jewell her executor.

Letters of administration granted to Thomas Butler on the estate of Jesse R. Butler; deceased.

Warrant issued to Wm. P. Richardson and Henry Wilson to appraise the value of the real estate of Levi Dukes, deceased.

WM. H. WHITELY Register of voters of the 1st Election District of this county was arrested on Monday last by a U. S. Marshall taken to Baltimore and there imprisoned. Mr. Whitely is known to be an honorable officer and his arrest is but in keeping with the oppression and tyrany of the Republican party. Because the name of a Republican voter, (a Mr. Buck,) was overlooked as was also the name of a staunch democrat, Robert Schuyler, Mr. Whitley has been arrested and imprisoned. Our best citizens have from time to time been subjected to arrest and imprisonment by the U. S. government upon the "say so" of any scalawag ever since the advent of the Republican party. Our party has a remedy and that is vote Grant and his whole tribe out of power. This we expect to do when the time arrives.

CIRCUIT COURT.—Our Circuit Court adjourned on Tuesday last after a session of eight days. The adjournment was a matter of surprise to many, as there were cases pending that were expected to consume the time of the Court until the last of the week. The records stolen from the Clerk's office—which we noticed in our last—were all-important in the trial of these cases, and as they were not to be had, the trial had to be abandoned. It is to be regretted that justice by such means should be foiled in pointing out the right and the wrong. Public records of our Court should have some place of safe keeping, and now while the necessity is seen, admitted and felt, is the time for those having the authority to provide some such place. Something worse, if neglected, may occur.

The following cases have been disposed of since our last issue:

Luther H. Gadd vs. T. H. Kemp. Jury trial. Verdict for plaintiff for $200. Downes & Thomas for plaintiff—Brown & Kating for defendant.

State vs. Spencer and Anderson.—Presentment for selling goods without license. Trial before the Court. Plea of guilty confessed. Judgment guilty and fined $20 and costs. Russum for State—Jump for traverser.

State vs. T. H. Kemp. Presentment for perjury. Motion by State to enter Stet. Plea not guilty. Motion granted. Russum for State—Keating and Brown for traverser.

Same vs. Same. Presentment as above. Same motion granted. Same counsel.

A REMARKABLE MATHEMATICIAN.—Mr Edward H. Coursey, of Piney Neck, was born in 1794, and is now consequently 81 years of age. Mr. Coursey is a remarkable man. Figures are mere plaything for him. He can solve the most difficulty problem, and has yet to find a sum he cannot get the correct answer to. His talent for figures is entirely natural, never having attended school as much as a year in his life. He does his sums, not by any arithemetical rules, but by rules of his own, but always gets the answer correct. He has made, too, somewhat of a reputation, and receives sums through mail from almost every State in the Union, which he works and answers by mail. He is quite notorious also for the difficult sums he puts to others and particularly the school masters, whom he especially delights to puzzle. His latest is as follows: "A farmer having 12 ditches to cut of different lengths, employs four men to do the work. To the first he agrees to pay $1 per rod; to the second $1.25 per rod; to the third $1.75 per rod, and to the fourth $2.183 4 per rod. When they finish the ditches and come to be paid off each man receives the same amount of money for each ditch. How many rods did each man cut in each ditch, how much money did each man receive for each ditch; how long was each ditch, and how much did it cost per rod to have the ditches cut.—*Centreville Observer.*

POUDRETTE.

AMERICAN AMMONIATED POUDRETTE.

Manufactured and for Sale for 21 years.

Planters', Farmers' and Gardeners' Friend.

BETTER than Super Phosphate and ONE-HALF the cost. ONE TON of American Ammoniated Poudrette is equal to one ton of Guano, (one-third the cost.)

FOR CORN TRY IT! FOR OATS TRY IT!

For Potatoes, Cabbage and all kind of Vegetables, Fruits and Flowers, no better fertilizer is known at the present day. A NATURAL MANURE. No adulteration. Made from PRIVY DEPOSITS or NIGHT SOIL, free from smell, pleasant to handle in fine, dry condition for drilling.

The seed will receive no injury from contact with the Poudrette. No worm will stay in a hill of corn or drill of seeds where our Poudrette is placed. The American Ammoniated Poudrette, if used even to excess, never changes the agreeable flavor of fruits, leaves or roots, but developes all their aromatic properties.

Price $25 per Ton (2,000 lbs.)

Packed in good strong bags. Ten bags to the ton Delivered free of charge to any of the Railroad or Steamboat landings in Baltimore.

Orders promptly filled and respectfully solicited. Liberal discount to Dealers.

Ayer's
Hair. Vigor,
For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
