CRATIC CONGRESSMAN

Other offices, regardless of their importance, are sometimes lost sight of in the intense interest which accompanies a Presidential election.

This year there is in addition to the Presidential fight, a hot campaign on for the election of a United States Senator. Hon. John Walter Smith, whose experience, ability and record entitle him to return to the Senate, is engaged in a hot contest with his Republican opponent Mr. Weller. Fortunately for the people of Maryland, the tide has turned in favor of Senator Smith and his election is becoming more certain every day.

There is great interest in this county in the Presidential and Senatorial and it is to be hoped that this interest will grow greater each day until the election is over. The Congressional fight has not been dwelt upon to the same extent, although its importance to the Democratic party should focus the attention of the Democratic voters upon it. This District is now represented by a Republican, the Hon. W. N. Andrews, of Dorchester county, who is a candidate to succeed himself. This means that the First Congressional District of Maryland has sent to Washington a Republican who has been opposed to the measures advocated by the Administration and the Democrats in Congress. This should not be the case, this District is Democratic in its sentiment and should be represented by a man of the same political faith.

This year, the Democrats have nominated the Hon. T. Alan Goldsborough, of Caroline county, for Congress, and in doing so have selected a clean, high grade man. Mr. Goldsborought, though still a young man, has made for himself a reputation as a lawyer that is second to none in this District He has done even more than, he has made for himself the reputation of being honest, sincere and straightfoward in all his dealings. There is no reason at all why anybody who believes in the principles of the Democratic party can not give to a man of this type their full support. He represents the type of young American whom the people love to see in public life, courageous, able and sincere.

Mr. Goldsborough, morever, stands with his party on every issue in this campaign and can be d-pended upon to support by his vote and influence measures which will carry out these principles.

The liquor issue is a dead issue, but in passing it might be well to recall that on this question Mr. Goldsborough and his opponent Mr. Andrews hold the same view—they are both dry. While Congress has nothing at all to do with confirming or ratifying the Treaty of Peace which embodies the League of Nations, the election of Mr. Goldsborough will hinge upon this and other National issues. Kent wants to do her full part in the work of redeeming this Congressional District from hands of Republicans and for this areson the Democratic voters of this county, men and women should vote and work for the election of Mr. Goldsborough.

Gov. James M. Cox for President, Franklyn D. Roosevelt for Vice-President, Hon. John Walter Smith for United States Senator and Hon. T. Alan Goldsborough for Congress make a quartette of men well worthy of support. They can stand comparison man to man with their Republican opponents and gain by the comparison. This is one year when the ticket can be supported as a whole with enthusiasm by all believers in the principles of the Democratic party.

The registration is now over but the campaign is just getting into full swing, let the Democrats work together in harmony and good will and this reason the Democratic voters of pleasant news.

KEEP FAITH WITH OUR DEAD

Capt. Thomas G. Chamberlain, one of the fighters from the world-war battle fields, in a speech a few days ago quoted Mr. Harding's words:

"I promise you formal and effective peace just as soon as a Republican Congress can pass its declaration for a Republican President to sign."

"This is simply a bid for the disloyal pro-German anti-American vote that favors a separate peace. This vote Senator Harding will get, but he deserves to lose the vote of every red-blooded, loyal American citizen," declared the speaker.

"One of the men who has a wooden cross in Flanders for a monument sent this challenge to you and to me just before he went down to his death:

'To you from failing hands we throw
The Torch; be yours to hold it high!
If ye break faith with us who die,
We shall not sleep, though poppies grow
In Flanders field.'

"Are you, as an individual, going to break the faith? On the second day of November, in the secrecy of the voting booth and in the presence of God and your own conscience, you will answer that question. Your part in the 'solemn referendum' will then be played. In the name of 81,000 Americans who gave their lives for a better world, may your voice be added to the call of humanity, justice and peace.

PRODUCTION NOT REDUCTION

Is What the World Seeks

PRICES of some things have been temporarily reduced; prices of other commodities remain about as they have been for months past. So long as people leave the farms to flock to the already overcrowded cities, creating an acute shortage of housing facilities, prices for building materials are likely to remain about on the present level.

IF DEMAND continues to exceed supply, you will be able to build as cheaply now as you can later in the year. Whatever your problem may be it will pay you to come in and talk over your plans, to get estimates. Remember that our architectural service is at your disposal entirely free of charge. And we can at least get acquainted.

PRODUCTION is about the only thing that will bring prices of anything down to a permanent lower level. If you can foresee increased production in all industrial lines, you might wait: but if you can't see larger supplies for the future, don't take a chance. Come in today.

CHESTERTOWN BRANCH

THE BALLOT FOR THE ELECTION WILL BE LARGE

It Will Require At Least Five Marks For A Complete Ballot—Two Proposed Amendments To the State Constitution To Be Voted On Beside Candidates—Ballot Will Be One Of The Largest Ever Known In A Presidential Election.

The official ballot to be voted in Kent county at the coming election will be one of the largest ever seen here at a Presidential election.

There will be five sets of Presidential electors on the ticket, an unusually big list. The Democrats will have one, the Republicans one, the Debs Socialist ticket one, the William W. Cox Labor ticket one and the Farmer-Labor party, whose Presidential candidate is Parly P. Christenson, one.

In addition to these names, there will be the names of four candidates for United States Senator—John Walter Smith, Democrat; O. E. Weller, Republican; Corge D. Iverson, Jr., Independent, and W. Ashbie Hawkins, Independent Republican.

There will also be two Constitutional Amendments to be voted upon and one member for Congress. These will no doubt make a ballot nearly, if not equal, in size to one page of the Kent News. This will no doubt frighten a great many voters, especially the women voters, who have had no experience in marking ballots.

But a careful study of the ballot will remove some of the fear of spoiling the ballot and make it quite simple to any intelligent mind. The things to be remembered are:

Each of the five groups on the ballot will contain the names of the President and Vice-President and also the names of eight electors for President and Vice-President. If the voter wishes to mark each one of the eight Presidential electors of the party favored by him or if he wants to split his ballot on the electors he must make an X mark opposite each name he wishes to vote for, being careful not to make but eight cross marks for the electors.

The voter who wants to vote solidy for Cox and Roosevelt, or Harding and Coolidge, or any of the other Presidential candidates may place an X mark opposite the name of the candidates for President and Vice-President he favors, and that will carry the whole group of electors, but if he votes separately for electors he does not mark opposite the Presidential and Vice-Presidential candidates.

In addition to these two or eight marks as the case may be, the voter will still have to make his cross mark opposite the name of the United States Senator and the candidate for Congress for whom he or she wishes to vote. And before he or she finishes marking the ticket there will be two Constitutional Amendments to be voted upon, as the voter may elect. These two amandments are usually printed in the last column and at the bottom of the ballot.

One of the proposed amendments to the State Constitution would raise the salaries of the clerks of the courts in Baltimore city from $3,500 to $4,500 The other would give members of the Legislature $300 a year in addition to the regular per diem of $5 when the Legislature is in session. At present the members are paid approximately $450 every two years. If the amendment carries they will be paid $600 additional for each two years, plus mileage.

Thousands of voters who are afraid of spoiling theor ballots will no doubt pay no attention to these amendments.

ALL FOR SMITH

At a meeting of 21 ministers representing 9 denominations in Washington county last Tuesday, resolutions were adopted opposing the candidacy of O. E. Weller and favoring the candidacy of John Walter Smith for the United States Senate. The best people in every section of Maryland, regardless of party, are declaring for Senator Smith.

League of Nations

Article X

"The Members of the League undertake to Respect, and preserve as against external aggression, the territorial integrity and existing political independence of all Members of the League."

"In case of any such aggression, or in case of threat or danger of such aggression, the Council shall ADVISE upon the means by which this obligation shall be fulfilled."

IT CONTAINS TWO SENTENCES, 58 WORDS, AND IS THE REPUBLICAN BUGABOO.

For over 70 years we have "Respected" the "territorial integrity" of Central and South American countries, Canada and Mexico. Why not the rest of the world?

Where Is the Danger?

IN THE LEAGUE AT PRESENT

Belgium, France, England, Italy, Canada, Japan, Greece, Brazil, India, Spain, Sweeden, Bolivia, Australia, Poland, Guatemala, Panama, Persia, Salvador, Denmark, Norway, Chili, Colombia, Switzerland, South Africa, Netherlands, Argentina, New Zealand, Venezuela, Paraquay, Uruguay, Czecho-Slovakia, Libera, Peru and Spain (Petitioned for Admission), Luxembourg, San Marino, Nicaragua, Honduras, Roumania, Portugal, Serbo-Croat, Ecuador, Iceland, Hadjaz, Georgia, Cuba and Hayti

OUTSIDE THE LEAGUE

Russia, Turkey, Germany, Mexico, United States

Actual warfare between Poland and Lithuania has been stopped, and threatened war between Sweeden and Finland has been averted by reference to the EXISTING League of Nations. Why fool ourselves any longer?

Those who do not care to tell the truth about the League of Nations tell you that Article X of the Covenant of the League would make it possible for other nations to le d us into war, whether we willed it by our own independence or not. This is absolutely false. There is nothing in the Covenant which in the least interferes with or impairs the right of Congress to declare war or not declare war according to its own independent judgment, as our Constitution provides.

The League of Nations provides for gradual disarmament and will ensure Peace. If you are in favor of Peace, vote for Cox and Roosevelt, Senator John Walter Smith and T. Alan Goldsborough, all of whom are supporting it. Senator Harding is opposed to the League of Nations and is an advocate of universal and compulsory military training for the young men of this country in order to train them to settle the differences arising between nations on the battlefield.

Fagged Out

AFTER a hard day in the field with the temperature up in the nineties and then milking 20 to 30 cows, a man may not cave in as this boy has done, but he's certainly often near doing it.

The Empire is doing a lot to correct this and keep the young man on the farm, and the best part of it is it's making money for his dad at the same time. Milking the Empire way is the sure way to better dairying.

It cuts the time, the cost and the drudgery out of milk production.

Empire Teat Cups have a gentle soothing action that coaxes the cows to let down easily and give more milk. If you are without an Empire you're paying for it. Better investigate!
