JEFFERSON.

"THE THINGS AT JEFFERSON'S ARE SO DIFFERENT."

The above was the remark a lady made to a friend the other day. "That's what I've always said," replied the other. "I never like many days to pass without visiting Jefferson's because I should miss so much."

Jefferson's Must be Different, or it Would Cease to be Jefferson's.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

A GOOD STORY.

The Kansas City Journal (Rep.) is greatly exercised. As the Journal puts it, "the editor of an Indian Territory paper cannot see how the tariff protects the farmer." Concerning the Indian Territory editor, the Journal says: "He is very probably honest in his position, though he is putting charity to somewhat of a strain when he declares that 'a farmer who can be a Republican is one of the curiosities of the political situation.'"

That reminds us of a story which Judge Joseph E. Ong, formerly of Nebraska, but now of Colorado, was wont to tell.

A Democratic orator was addressing a crowd in Indiana and said: "Now I am going to put to you farmers a question which I want you to think over for several days, and then if you can give an answer, write to me at home. The question is: 'What is there a farmer sells which he gets more for, and what is there a farmer buys which he gets for less, on account of a high protective tariff?' Think of this and answer at your leisure."

Several weeks later this Democratic orator received a letter from a farmer, who had been one of his audience, and the letter was about as follows: "Dear Sir: When you were down in Indiana several weeks ago, you asked, 'What is there a farmer sells that he gets more for, and what is there a farmer buys that he gets for less, on account of a high protective tariff?' Well, sir, I have been thinking about that question ever since, and I have come to the conclusion that there isn't a dar-darned thing."
